Introduction

The following shared information comes from many books written by Alexander Zielinski in order to give a fresh perspective on the subject matter at hand.

Energy Beings (Souls) from the Spirit Dimension incarnate into the created lower physical plane known to mankind as the Universe. Within this Universe (created physical matter) is located the planet Earth. For the majority of Energy Beings to come and experience this created illusion, they must be cloaked in a physical body/form in order to dwell within this holographic world.

For these ‘simulated’ lifetimes to seem real and genuine, the Energy Being’s collective memory is temporarily suspended while they play out their chosen life events in the human form.

These lifetimes help the Energy Being to advance and grow spiritually for its own personal development and that of the Original Source that created the energy being.

The following information is derived from higher evolved beings and collectives who have provided such information to assist those in the human form to move forward on their journey of spiritual advancement.

Alexander Zielinski is a Clairvoyant Medium who Channels ‘CONSTANTINE’ (a higher evolved spirit being) and ‘ELOPHYNY’ (a Collective of light beings from another Star dimension). He is also a Reiki Master who utilizes ‘Energy’ Healing.

Definition: Energy Being (Soul)

Souls, as most humans call it, are simply energy creations; as God, or the 'Source of all Life' as Energy Beings call it, is infinite energy. This energy is basically that part of God which connects all living things to each other, and therefore connects us all to God.

God created energy beings in his own image and those on planet Earth call them Souls; these souls then experience what God has created and that which is still being created. Creation has no ending or beginning, it is infinite, even if mankind cannot yet understand the full vastness of true energy containing a life-force of its own, sustained by the source of all energy life.

As a Soul (Energy Being), we have the limited ability to create which was given to us by God, so we grow and experience the knowledge and truth of God, and then add to his creations. God then in turn experiences through us, the positive and negative aspects of our creations which is a never-ending cycle of life in this created dimension.

As energy beings, we are experiencing and gathering information not only for the Source of all Life, but for our individual advancement. No matter whether we are in the human form or back in our true dimension, we are always seeking to grow

more God-like in our own right. Remember your true form is that of pure energy, all things are energy; you will always maintain your individuality if you desire to do so. Just know that as an energy being you are part of a larger grouping of energy beings. That is the connection we all have to that which humans call God.

As you combine your energy to this larger group, Gods energy expands and continues to grow. Worry not about joining your energy with other energy beings, for you still retain your individual identity, for we are all a part of that infinite energy of our loving Creator.

This form you are in now is a permanent form in terms of your true physical form. Your body that you are navigating this lifetime with is your permanent self for this lifetime's purpose. You will discard it; 'you' will return to this place, your true place of residence and be in your true form.

There will be, at times, when your sense of individuality is not what you sense it to be. As you have understood, all things are energy, you are currently energy, you will always be energy, and energy is in all things. There will be no change from this.

It is important to know that there is no separation of spirit or soul from what is presently one complete being to another. They often act as mirrors for our own acts and thoughts. We easily identify that which is present in ourselves. This is because we are all energy and we are all the same group of

energy; it is not a problem to understand that inference once you return to your true home.

Through your incarnations in the physical world you inhabit now, you will always retain a few of your true traits and some of those other traits and ways of thinking that were acquired in that lifetime. It is important to say now that you will not always be separate. You will not always be an individual, you will experience a grouping, you are an energy that will maintain that sense of energy and identity but there is not always a complete separation, there is a conglomeration of energy, a greater sum when these are all combined.

There is information presently not known about this on your created dimension and there is a great deal that would only confuse and would not be readily understood. You will always maintain your right of the self, to be only that which you desire; you are never forced to sacrifice your own ideas or sense of self and/or your purpose for that of another.

All that is done, is done so at your will. You will not feel a sense of loss. It is to give freely and become something greater that you are evolving. It is knowing on this lifetime that you are not separate individuals but all part of the same energy type and the same accessible knowledge spread across all spirits in this world. You are not unique in that sense, all may know what there is to know, many simply are not interested or choose not to know it or because of the purpose of their lifetime here now, will not come to know it because of the other areas of development that will take place.

It is important to know that there will be many times of coming back to this plane for many so that there is an understanding of human life and emotions and actions that are eternal, that is to say,

they are universal by your standard, they are true no matter what place or time you reside. These things will be true no matter what motivates them in most situations. It is important to know these and to understand them, but we cannot force an individual to learn them, we cannot twist an arm. It is only done through your action as you are ready to involve yourself. You are not scorned when it takes you more or less time to progress; there is no measuring rod of comparison to others.

It is better to reach higher levels than to maintain the same level of living. You are not alone in this endeavor; you are not left to solve progression and development on your own. You have teachers, you have guides, you have them in your incarnation and you have them in your existence once you leave the physical body. It is up to the individual to make progress but that is only the individual that will do this.

Higher is achievement but will only present more necessary work, so it is not as though there is a relief, some stopping point at which you may say, 'now all my work is done.' Though you should also consider that by work, we do not mean that which is labor intensive and earns you a meager wage, this is not working for another entity, this is true work and spiritual living on yourself, that which benefits all entities. Trying to say that there is no self beyond a certain point is not accurate, though there is some sensation of being part of a greater being, it is no different than how each being is related now, you only have the illusion of being separated and isolated by your physical exterior impressions. You are all one.

Humans may ask where do new energy beings come from? New energy beings in your world of holographic illusion are already in existence. They are simply being brought into a physical existence for the purpose of experiencing the life they have been interested in living and the goals and experiences they have chosen.

It is not a matter of simply two beings in the physical world having sex and bringing into life a new being. There is a great deal of work and effort and discussion that takes place before the being, or any being, is assigned to a particular body. This can happen an eternity prior to the couple ever meeting, this can happen during the time the mother is carrying the child. There is a great deal of energy and involvement when it is being determined what being, or which being shall provide the life force for the physical body being created.

There are new experiences always being created and new expectations for living beings in all forms. This is the reason for constant creation. There is no creation simply to have creation, no creation simply for creation's sake. There is a method to what you might call madness or a method to the actions though it may not be readily available at all times. The necessary actions will take place, at times there are non-physical actions that follow physical actions, and there are physical actions and outcomes that follow non-physical actions.

What we are saying, is that there are times, for example, in the bringing of a physical being into the earth plane, the physical act of sex will bring about an available body to be inhabited and therefore the process of obtaining life force to inhabit it is undergone, and in other circumstances there is a life force that needs to inhabit a body so that physical

production of a new physical human being is conducted.

How is the non-physical being formed? From what source? There is a universal presence, a commonality in all of you, this is because you are all from the same source. You may decide to return to it at some point in your existence as your true self, or you may not. It is not for anyone to decide but your own mind, your true mind. There is not a great being that determines when a new soul shall be made. There is only the Source of all Life that springs forth a portion, an abstract of itself, so that new life can begin.

There is a great deal of this that you will not understand but it is important that you open yourself to it. The reasons that you are not alone, the reason that you are all connected is because your true forms all emanate and radiate your true source. You are all part of the same being, you are all part of the same energy.

The bible explains that you are all part of the same creator, and essentially, the essence of this story is true and accurate. You are all formed from a single source, a single entity. You are not from an individual who decides that you must experience life, you are not present for an eternity from the time of the big bang and then assigned a physical body for a human existence. There is not a line in the fluffy magic clouds of heaven where you await a physical body in which to inhabit.

Your source is just that, it is a source, it is the energy in all things. All things come from the source, you are a similar being to the true source of all life. You are able to create as is the source. You are able to experience and learn and produce things in your environment as is this source. All things

that are true for all beings are true for the source. All things that are true for the source are true for all beings.

You are all able to isolate yourselves and mock yourselves, and have yourselves. The source is also capable of this but the source is also capable of self-love, the connectedness that you share with others is often because you were sent with similar purpose, but often the love you share or the experience or interest that you share is due to the fact that you are parts, pieces, and beings from the same radiant source of all things. There are many levels to this discussion, suffice to say at this time, you are being informed that you are all one being.

You are individualized in this life time to experience specific actions, you are a source among sources for the purpose of learning what can and cannot be done and the implications of cause and effect in this created dimension. This dimension is necessary because the source cannot provide for you another way of learning at the rate at which it occurs here. The rate at which you learn is often slow but you are measuring this by human measurement.

Be calm, be still. The source is infinite, do not worry that you lose your individuality when you leave this existence. You do not become part of a being of which you have no control. You retain individuality and your essential being no matter what form you take, no matter where you choose to inhabit, no matter what purpose you intend to focus. You simply do or do not associate with things and this is by your own choosing.

You will understand a great deal about this at a later time, but your connectedness is because you are all from the same source, all things, all things

ever created are from the same source. All things can be produced by parts of the source, you, you as a being can create, you are the source, and therefore, in that context, all things are also created by the source. You are not governed by a supreme being. You 'are' the Supreme Being, you 'are' the Creator.

Holographic Universe

This universe is here for your enjoyment, for your learning, for your development. This is a place where trial and error can be exercised. Much learning in any physical or energy form is done so through reading, but much more is grasped and carried out when a form is placed within a situation and made to exercise judgment from within the confines of that reality.

There is much learning understood by reading on the theories of existence or the reason for any specific function you wish to learn. It is only by immersion and practice that you gain true knowledge and experience and the wisdom of those who have gone through before you.

There was a need for those in energy form to experience this world and to exercise judgment. Judgment is multifaceted and an important part of your creation and deliverance to higher realms. This place of learning, it is of importance to understand that you are not isolated from any other dimension while you are in this physical world. There are many who travel between each area and there are none who are untouched or unrelated in terms of travel, ideas and the energy that reaches each area. All of them are related, all are in a cycle that is entrenched in their own creation.

It is important to know that there is much taking place on each level. That the goal is to learn and move through trial and error; not simply for repeating knowledge that one finds necessary because of the requirements of the position or how it could be considered repeating random facts within an academic classroom.

This is not the purpose; the purpose is to acquire true knowledge, to interact with the world. Each soul is a creator in their own right and this also allows you direct and immediate contact with these abilities, though there are many through the process of their learning, who are equally involved in destruction. There are many attributes which still exist between your existence in this field and your energy existence in your true home. Many of these relate to energy thoughts, actions and abilities.

These too can be used in your physical existence. There are some things that are more immediate because you are in a physical existence and there are some things that a greater time span is considered when implementing your thoughts. This allows for true reflection, greater interactions between entities and so on. There is not a place in the world that is unjust. There is a need for you and others to raise yourselves and those around you so that there can be a change in the way this world is perceived. There is a time when you may be concerned you are 'behind the times' in terms of evolution of ideas that are barbaric.

Look at how many in the U.S.A. who are focused on materials view the circumstances of less fortunate beings in Africa. These same views are applied throughout the universe and throughout each dimension and in between each area. There is an understanding needed by those on every level to achieve and understanding and an independent unbiased attitude towards giving and receiving love.

While there are many other energy beings who have evolved to a much higher state concerning this ability, there are many who have not. These goals have been established only by you for each

individual in conjunction with the ability of each creator and higher being in terms of involvement.

It is important to learn about this place and how to interact with it. There is much that can be done to save many from grief, but it will only happen when those who are focused only in their immediate area remove themselves from ways that make them different to others on very small and even grand scales.

There are enjoyments here and they are allowed to be experienced. Simply because a man enjoy games or alcohol does not make them negative experiences. Many have great work to do and for some these can be hindrances and should be avoided, others seek comfort in these things. For most, any activity can be experienced as part of your goal as to learn and experience all that there is to learn while it is within your reach in this lifetime.

There is no need to shun; many of you are doing this now. Moderation is the key. Much is done to excess, but there is much that should be experienced to a greater degree. This place is to learn of these things. There is much that takes effort, creating harmony takes effort. Learning all there is to learn takes effort. Many individuals slip idly through each lifetime, but no matter the acts done or left undone, each will accomplish and return with the same level or degree of information for their continued progress and learning.

Leaving this place, you will find yourself surrounded by love, no matter how evolved or unevolved you consider yourself to be. Each area is filled with the love that those relating and in common with you all have. There are greater degrees of this, based on what each has done and accomplished, what each has focused on and what

each is intending to complete or place their focus upon.

It is important to know that there is much that can be done while you are not in a physical incarnation. There is much that is accomplished while you are simply an energy being, though there is much that is considered perfect by you in this place which you do not currently reside.

Earth Energy Lessons

What lessons or lesson-types are available here, why do we chose to come to this plane in this existence to experience them?

There is a manifestation of energy here not present in other realms for the purpose of education. There is a generation of energy that takes place here through the interaction and sheer volume of learning experiences taking place. There is not much accomplished by reading if you cannot physically grasp the subject.

Quite literally then, it is necessary for you to engage in actions for the purpose of experiencing these emotions firsthand and realizing their benefit or detrimental impact on you and others who encounter them. It is important to realize that no matter your time spent here, in duration or what you fill it with, it shall be beneficial to you and others, ten-fold, in comparison to that of learning in other areas where you shall reside.

The important aspects here are many. It is not simply love, compassion, not just these emotions. The understanding that these emotions are in each action and no matter your view, no matter the perceived action you take, these are the motivations in all actions, or the lack of their presence. It is important to understand your position and how it impacts others around you, by this we mean that no matter what you do you are always an example. No matter your action or reaction, your energy is a guide for others around you, for only moments they may see you, for years they may accompany you, but it is the group energy that is important and the energy of the individual, on a large and small scale.

You have the ability to impact several and several also have this same potential. It is important to know that all reactions spread out from the point of action just as a drop of water in a large lake. All points of action have an impact larger than what many perceive. Many feel that they are alone and isolated, even for these beings this is not true. You may examine your mind to find the cause for these feelings but even your actions, even with you feel there is no benefit, no purpose, no one watching, they are serving as a guidepost for many others.

It is important to understand that no matter the method you chose to learn any subject learning always takes place when it is desired and study follows. The means do not justify the degree of learning, the intent of the individual is what determines the level of learning.

It is important for you to know that there are many who do not seem to evaluate themselves and their actions, this is not necessarily a sign of a highly developed being or one who has a great deal of development left to take place before self-evaluation. It is not for every individual to have introspection on this plane, to evaluate things deeply as they happen or nearly immediately after, there are many who will evaluate at a later time.

Also, do not feel that you are burdened, not burdened, highly evolved, or less evolved than someone who is communicating with spirit guides, receiving extrasensory messages, or any other related skill. These skills are simply a matter of practice and development. They do share information when they are truly working within their element, but often this can be compared to the skill of an athlete; they are an excellent athlete, this does not mean that they are exceptional in all areas
