Introduction

Hi Everyone,

My name is Roxanne Robinson and I would like to thank you for taking the time out of your busy schedules to read my first E-Book.

I wrote this E-Book to help everyone in our industry of Health Care to have a tool, which they can use to inform people of the problems with toxins, heavy metals and chemicals in our environment and hence in our bodies.

Please use this E-Book to inform everyone of the Threat that faces us on a daily basis and how each of us can conquer it. I have been in Network Marketing for a few years now, but the present problem with Toxic Overload has me very concerned.

I want to let everyone know that we do not have to be sick all the time. We do not have to continue allowing our children to be subjected to the kind of illness, disease and mental disorders they are plagued with. We have ways to fight early aging and the diseases that are a result of this aging. We have the tools to fight back; we just need to know about them and how to use them.

Please feel free to distribute this E-Book to anyone you please. All I ask is that you not change any of the links. If you are a Independent Distributor of the Liquid Zeolite, you can contact me and I will let you know how to include a link to your site or email address for your customers.

Thank You,

Roxanne Robinson
[Body Pollution Solution](#)

LEARN THE SHOCKING TRUTH

“4 billion Pounds of industrial chemicals are released into our environment every year. 72 Million Pounds of those chemicals are known carcinogens (cancer-causing agents.)” as stated by Environmental Defense Group (EDG). Where do you think all those chemicals go when they are released into our environment?

The Shocking Truth is that all the toxins, heavy metals and chemicals released into the Environment, eventually enter your system. These nasty elements contaminate your air, your food, and your water. A Scientific Study showed ***“the Average American has approximately 90 different industrial chemicals in their body at any given time.”***

A fast-paced lifestyle has increased the development of poisons, chemicals, heavy metals and toxins, all in the name of Progress. Man’s push to be and have the best in every aspect of life; may also be the cause of his destruction in the end.

The Human ‘Race’ by nature is always in a hurry, always pushing to get it done quicker, better and for the least amount of money. Unfortunately, this attitude has resulted in a very dirty planet; where no living thing is safe from the toxic fallout bombarding our planet.

The Shocking Truth is that approximately 70,000 man-made chemicals are in use commercially in the United States everyday. According to the Environmental Protection Agency (EPA) ***“65,000 of these chemicals are labeled “Hazardous to Your Health.”*** One problem resulting from this total disregard for the environment; every living thing on this planet is in danger of toxic overload.

Are you wondering, how this toxic fallout could possibly have gotten out of control? Rest assured this did not happen overnight, this condition is a result of years of releasing toxins, chemicals and heavy metals into our atmosphere.

Here are a few of the ways these elements enter our atmosphere:

- Smoke released while manufacturing various products.
- When producing energy to light up our world.
- Exhaust produced from different modes of travel.
- Pesticides and herbicides used both commercially and residentially.
- Using chemicals to clean our water.

By knowing how these nasty elements enter our atmosphere; you will find it easier to understand how they get into your body. Every breath you take probably contains some kind of toxin; everything you eat contains some toxins and every glass of water you drink has chemicals in it. To make matters even worse, you might unknowingly be adding more toxins, chemicals and poisons to your system.

Almost everything you use on a daily basis may contain some kind of chemical additive. Everyday items like; toothpaste, deodorants, hair products, household cleaners, perfumes and colognes, some hand creams, diet products, sugar substitutes and many more; have been linked to hazardous chemicals and toxins.

Many man-made pharmaceuticals also contain hazardous elements, albeit in small quantities, nonetheless they are there. Knowing that your body is just a dumping ground for the chemicals and toxins, you wonder is there anything that can be done to fix this? Never fear there is a solution to your body's pollution, which is easy and effective in the removal of these toxins, which I will show you later in this report.

The contamination of our planet is not just one Country's fault; every country in the World has contributed to this pollution. Every culture carries some responsibility for the state of our environment and needs to take action in the clean up our Dirty World.

The Human Race did not know that they were creating a sleeping giant in their quest for a better life and richer lifestyle. Always looking for ways to make life easier, more efficient and more

productive; mankind neglected to consider the long-term effects of their progress and what it would cost the Human Race.

Here are some Shocking Truths:

- Toxins, heavy metals and chemicals bombard you daily.
- No place on this planet is immune from this threat.
- You will deal with this problem for the rest of your life.
- Toxic overload affects every living thing.

EFFECTS OF THE SHOCKING TRUTH

Now you know what The Shocking Truth, let me tell you how toxic overload can affect your system. Let me start by telling you that the toxic elements in your system have been building for most of your life, if not all of it. You have been exposed to these nasty elements in more ways than you could ever imagine.

Baby Boomer's (born between 1946 to 1964) may be luckier than generations X and Y, because the 40's, 50's and 60's were not so focused on technology. So the exposure was not as extreme as it now. The world was still young and the production of man-made chemicals was not as high as it is now. In 1989, the United States produced its Millionth Man-Made Chemical. Scientists have produced these chemicals with the hope of making life easier for the average American. Instead, they have put everything and everyone in the World at risk.

The ways that toxins, heavy metals and chemicals are introduced into your system are going to shock you, anger you and hopefully open your eyes and cause you to change the way you see things. These next few paragraphs are dedicated to one-way toxins enter our body and the devastation they can cause for our children.

These excerpts are from Dr. Joseph Mercola's Website;
http://www.mercola.com/2002/aug/7/vaccine_death.htm

To show you some of the contradictions you have been told he gives this reference.

“Contradictions regarding the claim that measles is a “killer” disease:

- A child under the age of five has a 0.01 percent chance of contacting measles.
- That same child has a 0.3 percent chance of dying from the disease and a 0.2 percent chance of being autistic as a result of vaccine damage.”

“Widespread diseases today such as autism, asthma and allergies were considered rarities 30 years ago. The drug companies and the

government agencies have lied to you; they want you to believe that their pharmaceuticals, including vaccines, are essential to your existence and your children's. These drug manufacturers and their government agencies, don't want you to believe that the foods you consume and the habits you adopt are the primary solution to establishing immunity to diseases and living longer.”

The public discovered that Mercury was used in many of the vaccines given to our children, so companies were forced to find alternatives and what they found; Aluminum Hydroxide and Formaldehyde are almost as bad if not worse. These deadly toxins have been linked to Parkinson's, ALS and Alzheimer's Disease.

Some of the fillers vaccines could contain:

- Aluminum Hydroxide
- Animal Tissues: Pig Blood, Horse Blood, Rabbit Brains, Dog Kidney, Monkey Kidney, Chick Embryo, Human Diploid Cells (originating from human aborted fetal tissue)
- Monosodium Glutamate (MSG)
- Sorbitol
- Sucrose

The most shocking fact deals with the vaccination of babies 2 to 6 months old; most SIDS (Sudden Infant Death Syndrome) victims can be linked to the vaccines given to 2-month old, 4-month old and 6-month old babies. Most vaccine-induced deaths are listed as SIDS, not as vaccine related deaths as discovered by Dr. Mercola.

No toxicology testing is performed on any vaccines. Pediatricians never file adverse vaccine reaction reports with health authorities. Statistics like these are NOT included in “vaccine adverse reaction data;” even if a child dies a few hours after receiving an inoculation. This false data is then presented to physicians and the public reassuring them that vaccines are safe.

“How could pharmaceutical companies not tell anyone about this? Simple. Their wealth relies on your dependency, and so they will do everything to crush the notion that vaccines contain deadly chemicals. These companies will spend three billion dollars this year

alone in advertisements for their pharmaceuticals, preying on unsuspecting consumers' hopes and fears with carefully crafted campaigns. Apparently, they will not even stop at killing your children to feed their greed.”

The CDC increased the required vaccinations 20 years ago, tests done on our children showed that the accumulated amount of Mercury was 180 times higher than the lethal dose.

What else are these toxins, heavy metals and chemicals doing to you? How is your health? Do you suffer from chronic illnesses, allergies or any major diseases? The truth is that 95% of all illnesses, diseases and mental disorders are caused by toxic overload in your system. From 1950 to 1991 there has been a 90% increase in breast cancer due to the elevated exposure to these toxic elements.

Toxicity is believed to be the major cause of all age related illnesses. Toxins cause damage to the immune system, so the body is unable to heal itself. You are more susceptible to colds, flu, allergies, cancer, neurological problems, reproduction problems and metabolism failure, due to this toxicity.

These Toxic elements are polluting our air, our water, our food and our environment. You breathe, drink, eat and absorb these elements daily. The results of this toxic overload can be seen in the rise of premature births and deaths. You hear about it everyday with the rise in cancer cases in your own town. No one is immune to the results of these deadly toxins.

The umbilical cord of newborn babies was tested and discovered to contain 287 different toxins. Toxins have been linked to cancer, neurological disorders and birth defects. Other toxins like fluoride found in fluorinated drinking water has been linked to the slowing of the thyroid gland and bone cancer. Toxins can harm many aspects of the human system. Other than the toxins found in the umbilical cord, the Scientists found plastic, bleach, wood preservatives, pesticides, dioxide and herbicides; all this in the cord that gives our children life.

Do you suffer from any of these symptoms?

- Frequent fatigue
- Low energy
- Recurring headaches
- Chronic constipation
- Irritable bowel syndrome
- Food allergies
- Excess weight
- Mood swings & Irritability
- Bad Breath
- Gas & Bloating
- Distended belly
- Impaired digestion
- Frequent colds
- Skin problems
- Powerful food cravings
- Metallic taste in mouth

If you do, this can be a sign of Toxic Overload.

This is the reason toxins can do so much damage to your system:

“Toxins, heavy metals like (mercury, cadmium, lead and thallium), poison the glucose metabolizing catalysts, reducing the flow of energy throughout the body.” <http://www.diagnose-me.com>.

When our systems energy (blood) flow is reduced, the body becomes more susceptible to diseases and chronic illnesses such as:

- Aging
- ADD, ADHD
- Allergies
- ALS
- Alzheimer's
- Anxiety Disorders
- Arthritis
- Arrhythmia
- Asthma
- Autism
- Bipolar affective disorder (Manic depression)
- Cancer
- Cardiovascular disease

Thank You for previewing this eBook

You can read the full version of this eBook in different formats:

- HTML (Free /Available to everyone)
- PDF / TXT (Available to V.I.P. members. Free Standard members can access up to 5 PDF/TXT eBooks per month each month)
- Epub & Mobipocket (Exclusive to V.I.P. members)

To download this full book, simply select the format you desire below
