INTRODUCTION

This book is written to provide real breakthrough (earning) to the people who started their Online Business Journey but are struggling to really make money online consistently. The information available on the topic is overwhelming. There are many trainers (Guru's) in the market making promises but not money. These trainers are actually making use of these online enthusiasts to sell their training products.

I have been in the same overwhelming and frustrating situation few years ago. But, I have been fortunate to find mentors who showed me the path to success.

To understand the success rate of the industry, recently, I surveyed over 2,700 people in the online marketing "work from home" industry and the results we saw were shocking.

Take a look at actual survey results...

As you can see, 70.9% of people are earning absolutely nothing. Zero.

89.9% of the people surveyed were earning less than \$100 per month online!

After seeing these results, I decided to help people like me in the online industry.

My mission is to change these statistics and genuinely help people to achieve true success in business and in life.

Thousands of others have already started their Project Breakthrough and are changing their lives every day.

CHAPTER 1. IS ONLINE BUSINESS RIGHT CHOICE?

It's needless to explain why Online Business is the Right Choice. However, I would like to emphasize upon some points here.

TREND

In order to analyze and identify right choice, first thing comes in mind is what is the trend in that segment. Chart below shows and we all know that E-commerce, Digital Marketing, Online Purchase, whatever we name it has been growing consistently and will further grow in future at much higher rate.

The fact is ecommerce is one of the fastest growing industries in the world. E-commerce provides enormous benefits (list provided below) to all the stakeholders, that's the reason for this huge success.

BENEFITS TO CONSUMERS

1. **Convenience** - we can buy anything sitting at our houses anytime. Open 24x7.
2. **Price** - Ecommerce has allowed consumers to save a lot of money on these purchases.
3. **Products Variety** - Consumers can get good variety of the products to choose from. Products of all colors, sizes, dimensions are displayed at ecommerce sites. This makes the consumer easy to pick/choose product according to his/her wish.
4. **Easy payment options** – People can pay of their purchases at ecommerce sites through various payment modes like internet banking, credit card, debit card, cheques and even cash on delivery. Hence consumer has an option to choose the payment method of his choice based on his convenience.
5. **Easy Returns Policy** – Many Ecommerce sites have policies like “30 day free Returns” which enable consumers to the product if they are not satisfied with it.

The benefits of ecommerce sites are endless and they have changed the way how people shop in the world.

BENEFITS TO THE RETAILERS

Ecommerce benefits are much greater to Retailers than consumers.

1. **Much Bigger Marketplace** – Entire world is your client now. Consumer can search retailer online.
2. **Decreasing cost of inventory Management**
3. **Keep Eye on Consumer's Buying Habit**
4. **Happy Consumers Sell your products by sharing on social media(Low adv cost)**
5. **Selling Products across the world**
6. **Stay open 24*7/365**
7. **Economy** - Now, Organizations don't have to invest your money in the physical store, insurance or infrastructure as all you need is a wonderful idea, unique products and well-designed website to reach your precious customers to sell your products and services.
8. **Can offer huge information to consumers**
9. **Ability of Multi-Site**
10. **Scalability** - With effective ecommerce solution, organizations grow and scale easily to meet market demand as well as customer requirements by introducing different sales channels and reaching market segments.

11. Analytics - Organizations can easily calculate and evaluate sales effectiveness, customer effectiveness, marketing campaigns, product mix, customer engagement and more.

I hope above gives you a vast idea of the Online Industry.

POTENTIAL OF ONLINE BUSINESS

I would like to share few recent success stories to make you realize the BIG potential of Online Industry.

- **Uber** - the world's largest taxi company owns no vehicles.
- **Xiaomi** - 4th largest smartphone maker (12B Revenue) owns no physical store.
- **Facebook** - the world's most popular media creates no content.
- **Alibaba** - the most valuable retailer has no inventory.
- **Airbnb** - the world's largest accommodation provider owns no real estate
- **Whatsapp** - with 3 Billion messages a day does not own servers.

The reason of sharing the above success stories is to explain you that Ecommerce based business model have low startup capital cost and provide faster success. All the above companies are less than 10 years old. Traditional way of the business would take more than double the time to reach this level of success.

I hope by now, it would be crystal clear that Online Business is the RIGHT Choice to make in today's business environment.

CHAPTER 2. WHAT IS AN ONLINE FUNNEL

Before I take you on the journey of an Ultimate Online Funnel, I think it's important to understand what an Online Funnel is? It is very important that we all understand a funnel at first place.

FUNNEL

It's not just for Online Business... online or offline, e-commerce store or dry-cleaner; if you have a business and you have customers then you have some type of funnel (even if you call it something else).

You might call it a "marketing funnel", "conversion funnel", "marketing pipeline", "sales funnel", "sales pipeline", "sales process", "sales cycle"... all describe the exact same thing.

Bottom line, if you have a business it's because you have processes in place to...

- Acquire new prospects and leads...
- Convert those leads into buyers...

- Get those buyers to buy more!

Every business has some way of doing all the things listed above! So I'll say it again... every business has a "funnel".

Funnel is nothing but a process and a system in place which acquires leads (customers)... convert those leads into buyers, **and in the funnel he passes through more sales offers to increase the profit of the funnel owner.**

In nutshell funnel helps a business owner to make more sales to one lead by presenting to him all of his products in the catalog in a systematic fashion. It's like an invisible selling machine.

THE ONLINE FUNNEL

The online funnel is a system created to manage all the phases and aspect explained for selling online on the internet. Online funnel is most amazing and powerful selling system. Let's try to understand the online funnel with an example as below;

What qualities would you like to see in a salesman? Review below list and think if you would agree.

1. Ready to work 24/7/365
2. Doesn't ask for holidays
3. Doesn't ask for Medical Leaves

4. No emotional breakdown
5. No arguing with the customers
6. Doesn't ask for increase in salary
7. Doesn't ask for Over-Time
8. Doesn't ask for Bonus
9. Doesn't ask for extra commission for surpassing his/her quota of sales
10. Will never resign
11. Will report to duty on time even if it is raining, snowing, traffic congestion, car breakdown.
He reports in adverse conditions.

Wouldn't you like to have such a salesman working for you?

The Online Sales Funnel provides all the above and many more features. It is an automated system setup around defined process to meet yours and your customer's needs all the time. Online Sales Funnel is actually an invisible sales machine which works on auto-pilot. Think of Amazon, ebay, Flipcart, YouTube, Facebook, twitter, Yahoo, Google all these and many more online stores have establish Online funnels which work on Auto-Pilot. They have a 24x7x365 website available for their customers. Product Catalog and other product related information are provided through Website. If customer likes any product, he/she can purchase online and delivery is made through backend system in place.

I hope I have been able to provide you some understanding on The Online Funnel and how it works.

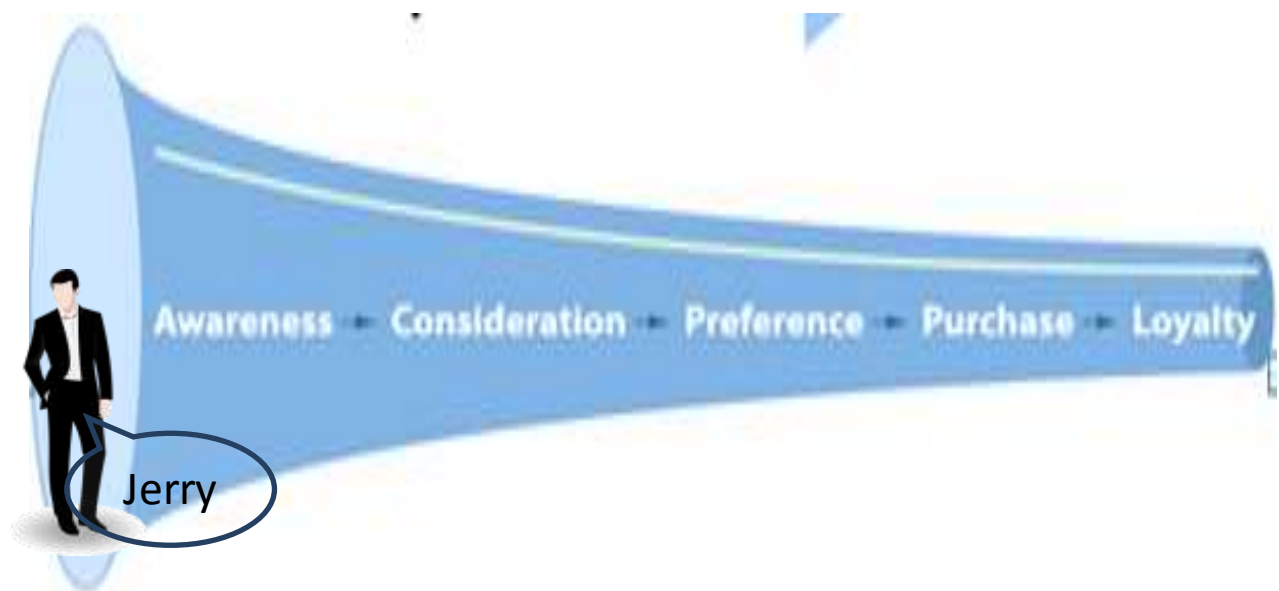

We have created an amazing Online Funnel, which I will extend to you at No Cost. You'll learn about this funnel in details in Chapter 4 of this book. [It is an Online Business Done for You at Zero Cost.](#)

CHAPTER 3. WHAT IS AN ULTIMATE ONLINE FUNNEL

You may have promoted affiliate products from ClickBank, Commission Junction or some other product online, you must have created an online funnel (landing Page, Autoresponder, tracking solution, advertisement (traffic), and a mechanism to deliver the product to the customer) or you would have used product owner's funnel to make money online.

All these funnels were created to sell one product online or include one or two upsell orders. Actually the product owner will send many more offers afterwards to your lead you have spent money on advertisement. He will not provide commission to you for any additional sales made out of the funnel you are using to promote product. This is a normal funnel. It doesn't provide you long lasting earning potential.

In the previous chapter we discussed about the funnels, which are nothing but company's process and system to attract customers by creating awareness through advertisement, providing information to the interested prospects/leads (those who click on their advertisement), create need, and make a sale. All big companies like Amazon, Alibaba, ebay, Flipcart etc have created system and processes which can be called Ultimate Funnel. Once you purchase one product from these companies, you are registered into their sales funnel (you become their subscriber), then these companies will send you flyers, newsletters, information about their other products to create need so that you purchase another product from them. They send information about all their existing and new products to you from time to time. So, an ultimate funnel is a system where time and money is invested once on a prospective customer and makes multiple sales to this one customer over the time. However, you must note that it has taken many years of hard-work and millions of dollars to reach to this level for these companies.

Can you imagine how much efforts and money would be required if you want to create such a system for yourself? I am sure you understand the quantum of time and money it would require to build such an online business system.

In all the Online Funnel scenarios we discussed above, customer has to make an initial purchase for the funnel to get activated and generate more and more sales from that one customer. What would be the conversion rate for such a business system? If we rely on standard online statistics

which you'll learn in Chapter 5 of this book, 0.01% to 0.03% that means if 1000 people see your advertisement, 1 to 3 people will make a purchase. Scary, but it is a fact of the online business.

Now think of an Online Business Funnel which gives away a valuable product to its new customer at No Cost, 100% FREE, No Credit Card or Other Payment Details requested. What do you think would the conversion rate be?

The conversion rate we have seen during beta testing and after the launch is very encouraging and promising. Minimum conversion rate has been 11% and the maximum achieved so far is 62.3%. That means if 1000 people saw our advertisement 110 to 623 people enrolled to get the FREE product and became part of our Online Funnel. Now this I call an Ultimate Invisible Online Selling Machine.

Don't feel disheartened, we have a good news for you. You can own such an Ultimate Selling Machine at No Cost now. We have created an Ultimate Online Funnel which is loaded with 29 Passive Income Streams to date. We will continue to add more and more products to the funnel as time comes.
