

The Adventures of a Green Alien and a Space Dragon

The 4 Mysterious Aliens

By Maria Rusu

Greg loves to play a lot, just like any other six years old kid. Even if he's an alien kid? It seems that when it comes to playing, all kids are alike, humans or aliens.

Greg is a green and very friendly alien. He has many friends, some of them are green, just like him, others are blue or red.

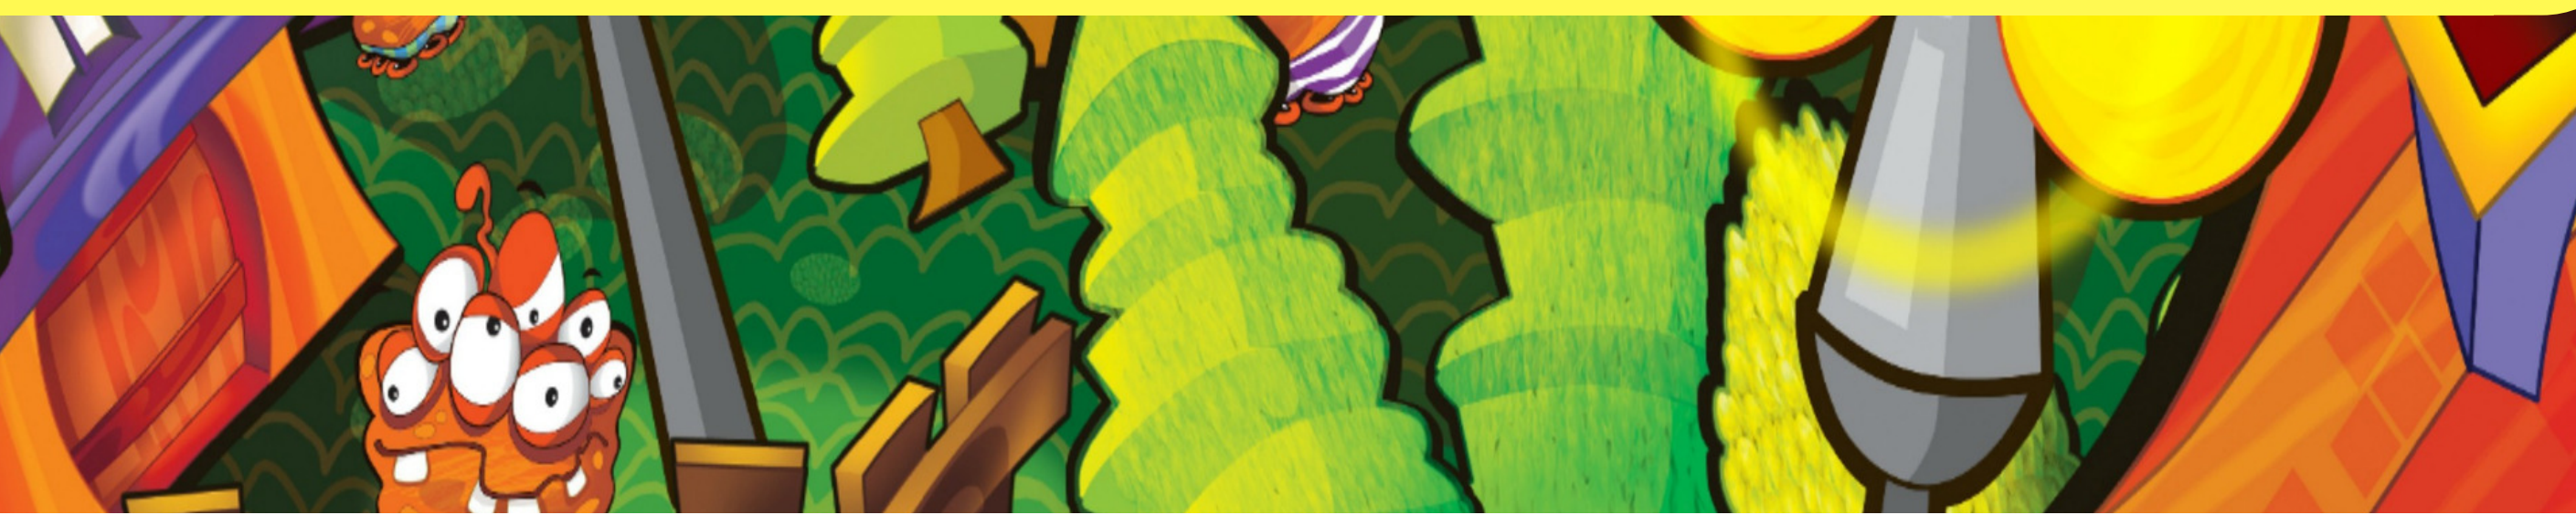

Greg lives on a far away red planet called Roca. In a cloudless night you might spot it in the sky, if you are lucky. Roca is a huge planet but from Earth, it looks like a tiny shiny star.

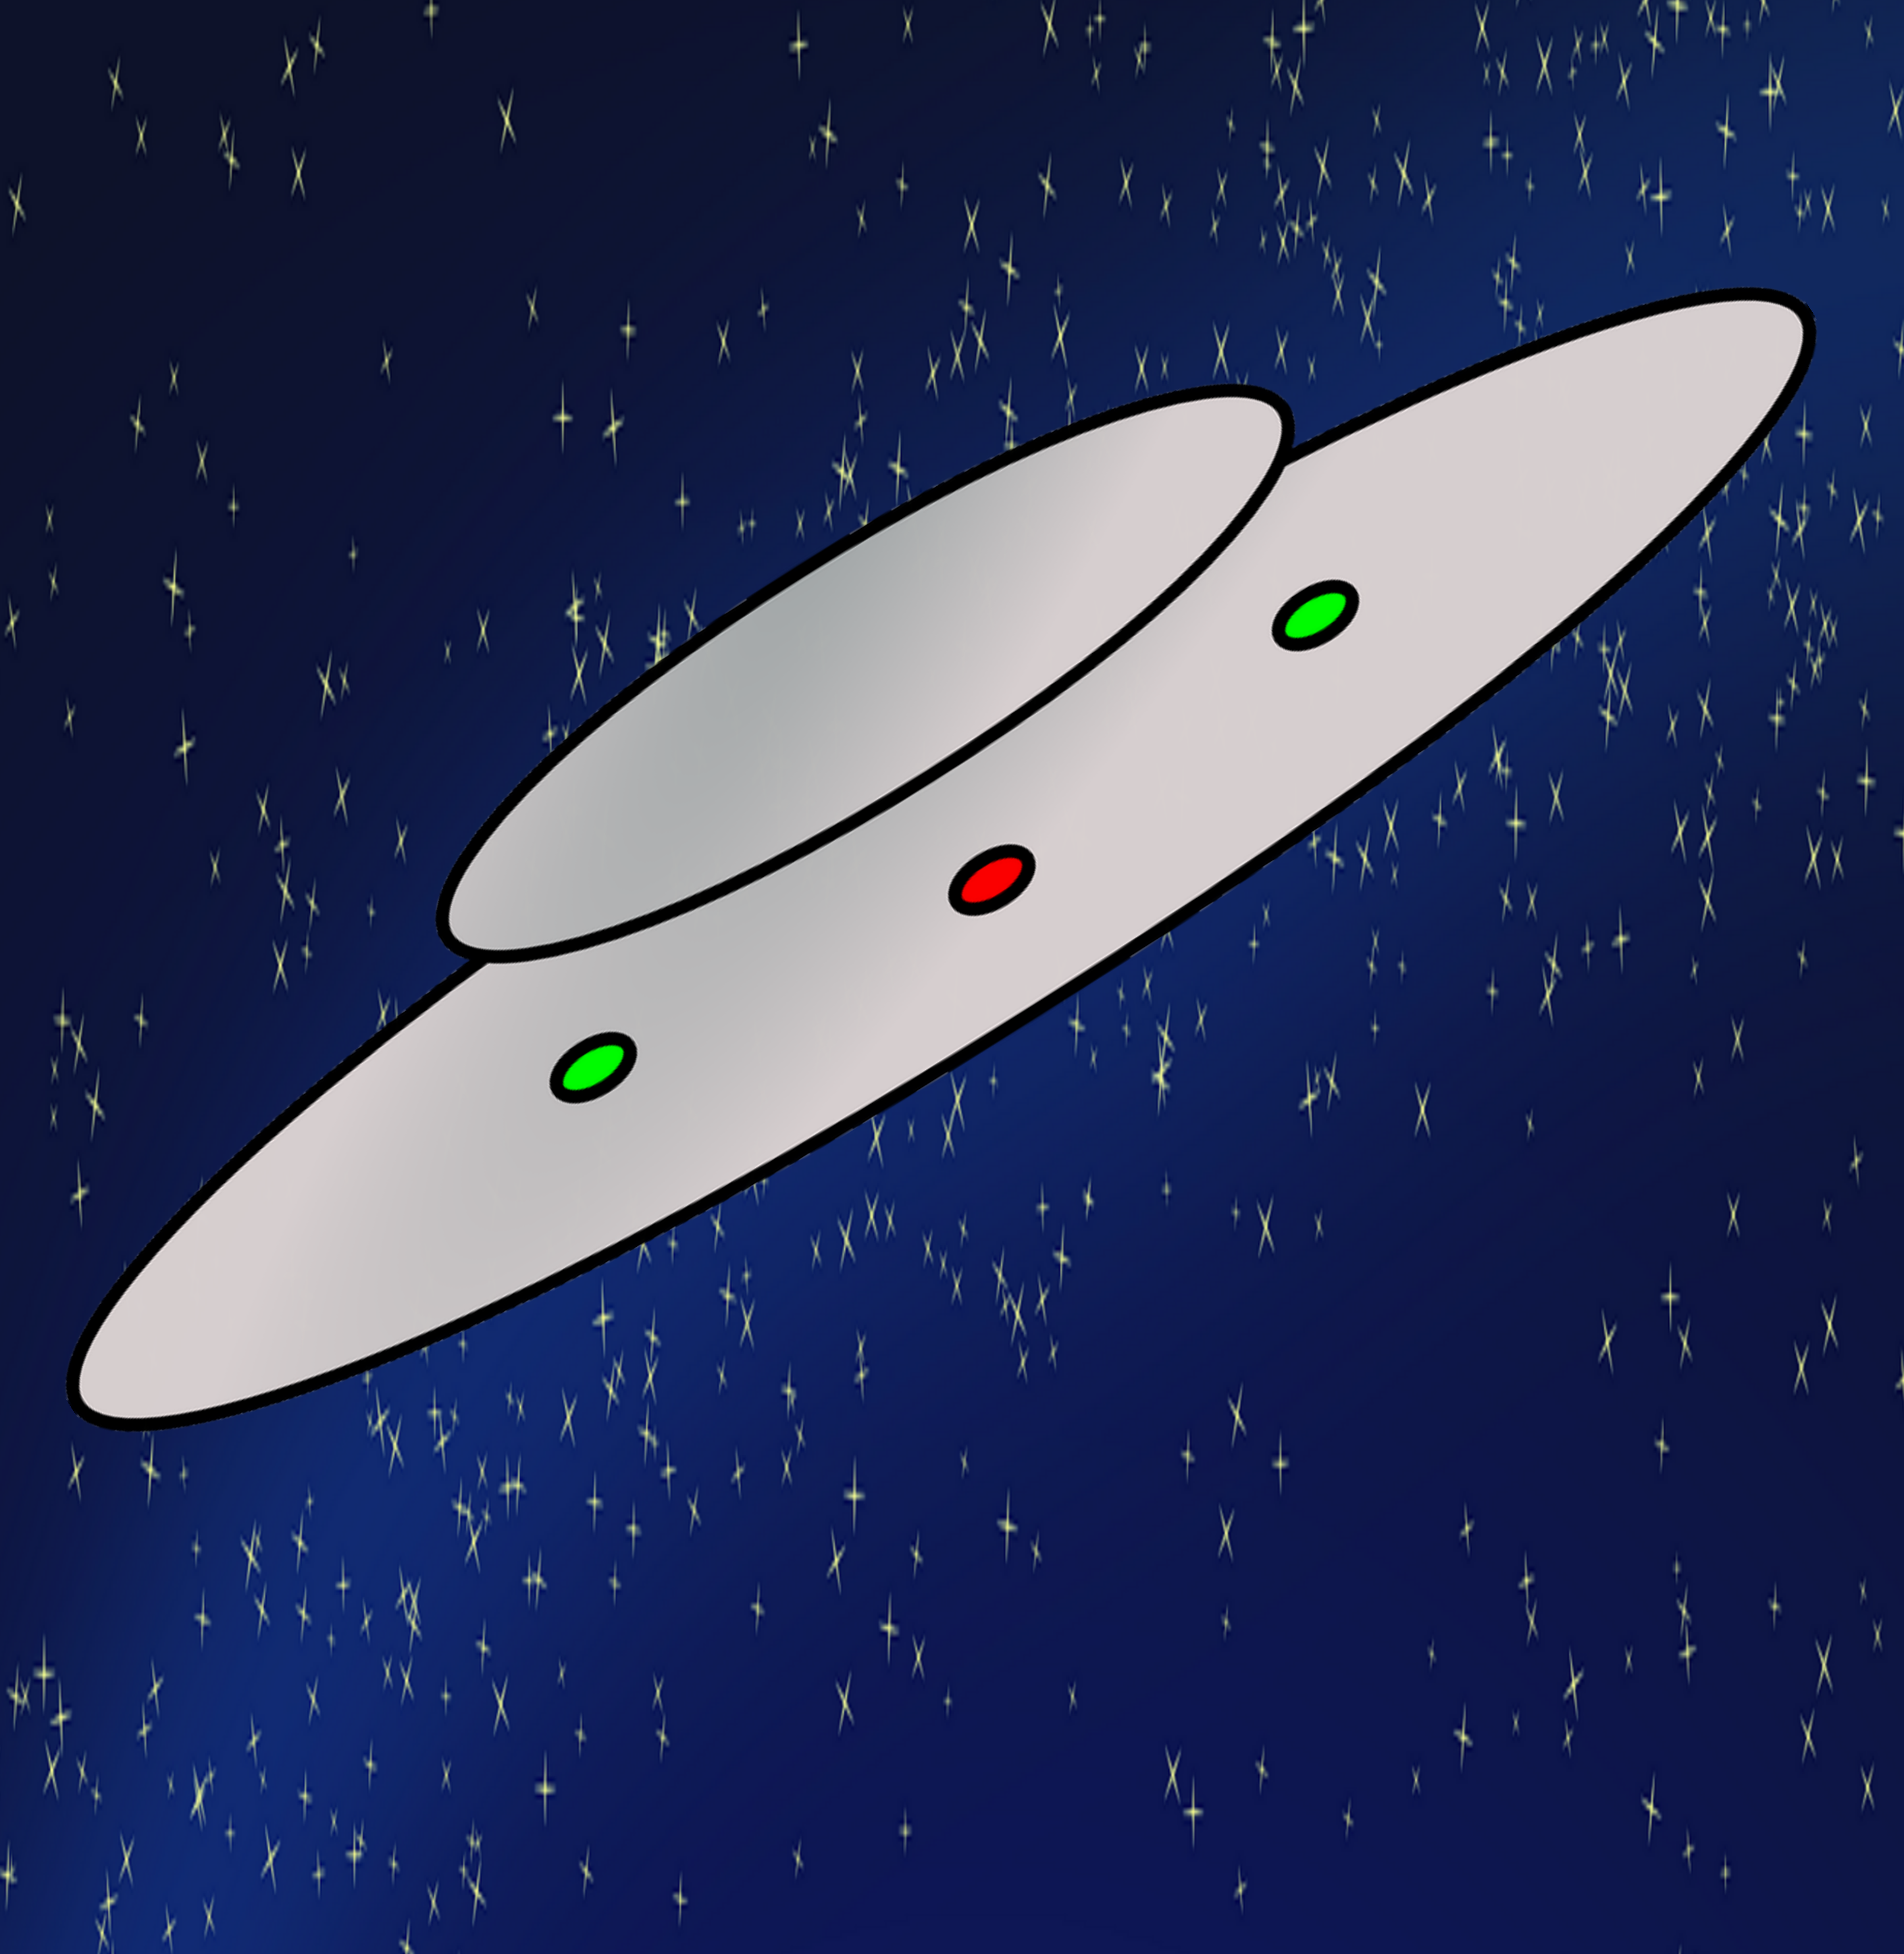

Greg and his parents live in a very big city on their planet. The aliens from planet Roca have an advanced technology and they built flying cities, in the sky, or underwater, on the bottom of the oceans.

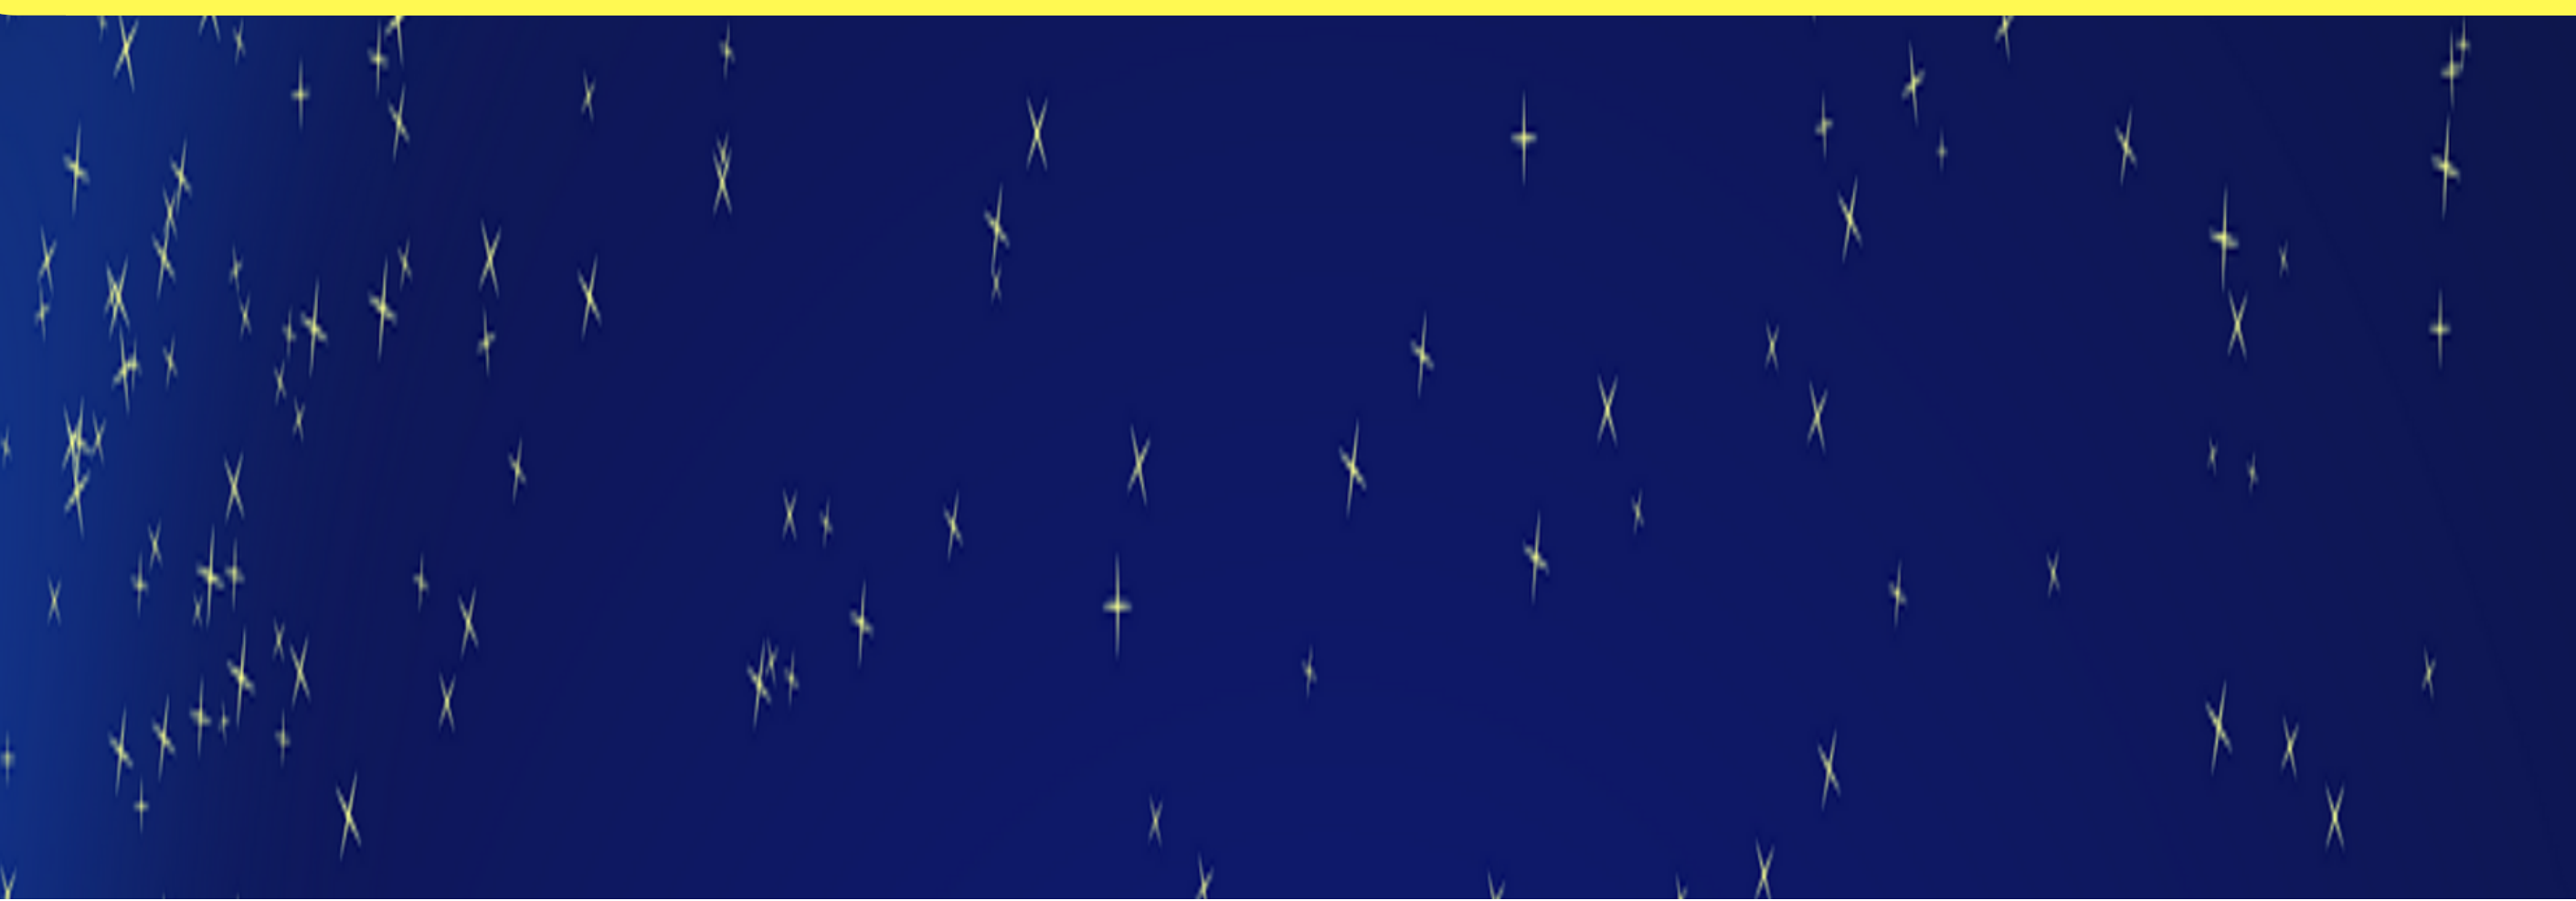

Aliens love to travel a lot. Sometimes they visit other planets or the two moons of Planet Roca where there are many amusement parks.

Greg's parents have a very big flying saucer. They spend a lot of time travelling in space. They are fine artists and they paint the colors of the sky, something that made them very famous on planet Roca. The sky can turn a multitude of colors such as red, orange, purple and yellow, especially near sunset or sunrise.

Hi, I'm Ricky, Greg's cousin. I'm here to tell you a secret. Something very important will happen in Greg's life and to understand this event I am going to show you certain life rules that only aliens are allowed to know.

RULES FOR YOUNG ALIENS

Each young alien will start his education the day of his 7th birthday.

Each young alien will get his own Space Dragon the day of his 7th birthday.

The Space Dragon will be the young alien's teacher and protector.

Each young alien will get his own flying saucer the day of his 7th birthday.

Today is Greg's birthday! Happy Birthday, dear Greg! He is 7 years old. He's got a lot of presents but the most precious one is the Space Dragon.

Greg is very happy to meet Gary the Space Dragon. He is a little bit intimidated, too, because he was told so many great things about this famous dragon.

As for Gary, he hopes to have a good relationship with his student.

From the very next day, Gary the dragon, asked Greg to follow him in the study room, A huge pile of books was right in the middle of the room.

'These are the books you'll have to study till your next anniversary.' said Gary 'And we are going to start right away' he added

Unfortunately, Gary had to stop the study session with Greg. He got a message about an important situation he had to solve somewhere in the big mountains of the planet. He asked Greg to accompany him and, needless to say, he was more than happy to do it.

Gary explained to Greg that they were going to meet the 4 mysterious aliens. They were living in a huge cave and it was a mystery for all the aliens on the planet why they decided to live there. Strange sounds were reported coming from the cave lately. Gary got the secret mission to find the reason of all those noises.

Massive mountains can be found on Planet Roca. They are so impressive with their huge peaks and steep slopes! Greg has travelled so many times with his parents but he has never paid attention to what he could see through the transparent walls of the flying saucer.

"So, this is the entrance to the cave, said Greg to himself "It looks more like a tunnel I wonder what's at the end of it. Anyway, it is quite scary. I'm afraid those mysterious aliens are as scary as this cave". Those were Greg's thoughts when suddenly...

"Hi H3, what are you doing here? Nobody knew we were coming, this is a secret mission. Has anybody leaked this information?"

"No, nobody, don't worry. You know we have our ... means ... to find...things"
