# Latest Customer Feedback

The Go-Live of the new Oracle FLEXCUBE UBS system for Wholesale Retail for Conventional & Islamic Banking was successfully completed in three separate geographies for GIB. The implementation of these multiple systems on STP advanced new technologies have been essential enablers for Gulf International Bank's strategic transformation in GCC, Europe & Americas.

I would like to convey my sincere thanks to JMR Infotech towards their contribution in the setup, development, implementation and rollout of this ambitious multi-faceted project. This journey was successfully completed for GIB at Bahrain, Kingdom of Saudi Arabia, UK/London, USA/New York and for Saudi GIB Capital, paving the way for further product development.

This significant milestone has been achieved despite many challenges, confronted and overcome by your JMR Infotech's dedicated consultants and excellent teamwork, who have truly 'gone the extra mile' and 'remained ahead of the curve' to deliver a wholly 'customer centric' product that all can rightly be proud of.

**Syed Khurshid Ahmad**  
**IT Vice President – Head of Flexcube UBS Core & EXIMBILLS & SigCap Systems**  
**Gulf International Bank BSC, Kingdom of Bahrain**

# Select Customer Testimonials

ALPHA BANK

## Quality leadership

JMR Infotech has got an excellent leadership which provides them with the required impetus to excel and improve their service – **George Demetriades, Ex IT Manager Alpha Bank**

## Reliable partner with proven track record

...The value addition you have brought in through your Extended Arm engagement model for our FC implementation project is worth mentioning. Things have started progressing well and the quality of deliverables are too good. We will definitely recommend your extended arm implementation services to other banks – **Sherif Safwat, Implementation Director National Bank of Egypt**

# Select Customer Testimonials

## Business and Technology Expertise

...I want to extend our sincere thanks for all the support given us from conception to delivery of the Oracle FCUBS and FCDB applications. The upgrade and migration has been a journey that has tested us all in the various ways of working together. The team did a great job and the results of the delivery was nothing but stellar and perfect. The team was knowledgeable, dedicated, diligent, reliable, patient, had a professional work ethic - **Umar El Farouk, CIO, GCB Ghana**

## Tangible business Results

We chose JMR Infotech because of their excellent engagement model. When they say extended arm they literally make it happen. Excellent customer service, faster turnaround times, high quality deliverables at an extremely reasonable cost. It has given us the competitive edge, helped us launch new products and services on a timely manner – **Medhat El Leissy, Ex CIO, Bank Du Caire**

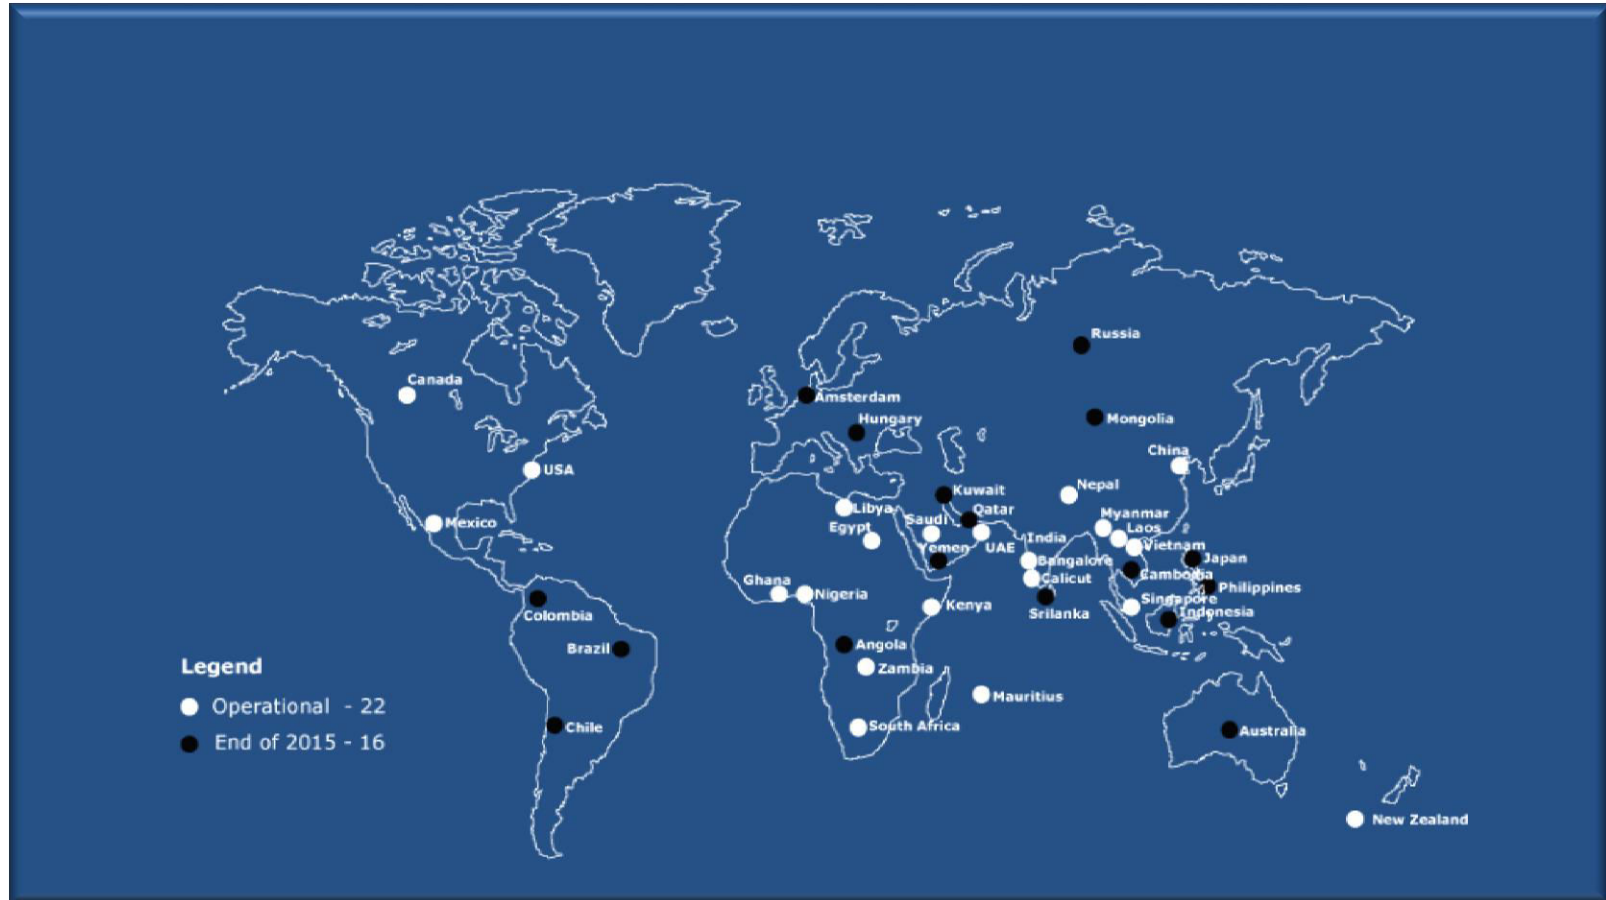

# Select Customer Testimonials

## Excellent service and domain expertise

They did quite an excellent job and had the expertise required to bring the system up and running in a very short time. In terms of consultancy they are very good as you can engage with them in different work flows. We are looking to have them on board for different kind of services besides the consultancy service that they already offer - **Carl peter Ngunuh, Manager of Business Application - IT, Family Bank, Kenya**
