The Art of Photography

Photography is the art of capturing a moment in time where both the image itself and its message meet to create art and engage the viewer into a desired storyline that the photographer wishes to create.

Essentially, the aim is to create a moving experience through using stills of real time events and accompany the messages of an addiction and the processes of treating that addiction appropriately and effectively.

To lose oneself in passion is an art, one that creatives wish to use as an inspiration to deliver the best product and message possible. While the concept of "Drugs & A Camera" is the mixture of photography with creative writing evoked by the photography itself and the thoughts, feelings and emotions that are derived from everyday experiences.

"A thing that you see in my pictures is that I was not afraid to fall in love with these people."

— *Annie Leibovitz*

THE 12 PRINCIPLES OF
HIGHLY SUCCESSFUL
LEADERS
STEVEN R. SHALLENBERGER

It was an innocent spark that first ignited a fire deep within but it eventually grew into an inferno. Turning winter nights into bright summer days. From ice cold hands to warm bodies wrapped in each other's warmth amongst the bed sheets. A beginning to a story that was written in the stars from the beginning of time, all from a tiny spark.

The beginning of time began the moment he first laid his eyes on her.

“Goodness, your eyes.”

That mysterious feeling was spreading all over him again.

“What about them”? she said.

“I bet the compliments never end”, he replied.

The way the light hit her eyes did wonders for him.

He leaned in towards her with the camera, but then he pulled back.
