## **Introduction**

**It's time** to stop leaving your destiny to chance, allowing the negative assumptions of the significant adults in your life betray and control your destiny. Too often, these assumptions or prophecies, like nuclear weapons, ballistic missiles, rocket launchers, unilateral disarmaments and war machines reflect the reasons why you've been hitherto cowed by fear, uncertainty, failure and thus, continue to revolve within your own limiting orbits!

And the tragedy is, why many of us are familiar with the wonders of modern science and technology, ancient antiques and discoveries that cut across many generations, nations and races, sadly, many of us are not aware of the immense power we possess. . .

If this is where you function, this book regarding the power of your self-fulfilling prophecy – the art of speaking to your destiny, demanding the best out of it and declaring it into manifestation by M.S. Joel, *Winner of Academic Scholarship Award, 2003*, is exactly the way out. . .

**If you were to read a book to challenge you to explore the intricacies of your complex nature and the power you wield on a deeper level more than what human creativity, intelligence and science can comprehend, [The Secret to Speaking to Your Destiny and Causing It To Manifest should be the one.](#)** It is profoundly written, brilliantly argued, truly thought-out and perfectly perceived by a man who understands the science of human make-up.

Happy Reading!

## Chapter 1

### **Knowing the Heart of God's Blueprint for Your Life**

*"But even the very hairs of your head are all numbered. Fear not therefore: ye are of more value than many sparrows."* – **Luke 12: 7, *Emphasis Added.***

. . .

Many of us, no doubt, grew up in a society where we have been given rules and regulations that were more than the Ten Commandments! Sadly, some of these rules and regulations, all too often, were cropped with negative antecedents in one form or the other to the point where, either consciously or otherwise, they have become the deciding factors why many of us, as it were, can't actually go beyond our limiting orbits! . . .

For example, some of these antecedents, even though they might . . . appear intellectually sound and appealing to many consequent upon the fact that they all emerged from the school of the intellectuals, the scholars and the educationists, is that [ever consistent] proponents of the *geneticists*, the *pre-destinators* and the *temperamentalists!*

For instance, while the ***geneticists*** constantly reduce the crown of God's Creation, human beings, to mere hypotheses or to the lurks, whims and draws of the genes – that if you are depressed, schizophrenic and alcoholic – all these and many more are to be attributed to nothing else than to the workings of your genes; however on the other hand, the ***pre-destinators*** constantly affirms that if you fail or succeed – it is a clear indication that you have been predestinated to either fail or to succeed, or that if you were met with a case load of bad event and tragedy, then certainly, that is what you have been predestinated to experience – bad event and tragedy!

Conversely, the **temperamentalists** left us in doubt with so much to contemplate and to argue as they, too, were not left out in this misguided proponent. Like their fellow counterparts – the geneticists and the pre-destinators – they constantly affirm that **your temperament is your destiny, and that if you must change your destiny you must first change your temperament . . .**

Thus, with all these proponents given by these triangular groups of bodies, they indeed invade and dethrone the place of man's free-will to be and to become whatever he chooses to be and to become, and strangled out the interplay of a Higher Being in the scene of human existence, life and history . . .

The truth is, whether you like it or not, we are constantly being confined within the limit of our own self-prophecy, or within the limit of the things we allow the significant others in our lives like our parents, relatives, friends, neighbors and the society prophesied into our lives . . .

Remember, therefore, that upon your belief system hangs your very destiny, and not in a liquid tube or in some propagated theory, or rather in the hand of any politician or economist. **For your possibility is hidden in what you deeply believe and in what you've placed your priority on! . . .** (I have recently written a book which I will recommend, with your permission, that you read, titled: [Donald Trump's Secret Revealed: How to Get Rich While Everyone Else is Afraid](#). This book reveals the belief system that has formed and shaped Donald Trump's business decisions, make him an economic dominance and a focus, effective and inspiring business leader).

I'm not writing this because I seek the glory to be place side by side with G.H. Hardy, the mathematician who was said to be "a man of passionate human and social sympathies." No! But there is one thing that I am certain of which is this: **what is true of nature, science and art is also true of your complex nature, yea, even more! . . . .**

[Back to the top](#)

Chapter 2

**Why You're So Unique and Different**

*"But even the very hairs of your head are all numbered. Fear not therefore: **ye are of more value than many sparrows.**" – Luke 12: 7, **Emphasis Added.***

**THE crux of the matter is that you're more complex than any complex organism in the Universe, and you think, act, and function far more differently than the most précised, monstrous climax of an alien invasion that has mounted since the days of science fictions and thrillers, or more than any invention ever made by a man of technical vision regardless of how complex and highly sophisticated those inventions are! . . .**

**There is something hidden below the surface of who you are, and it's as factual as the description of what you have just read.** It needs no atomic experiment, no interpretation of painting, and the fact that it's extraordinary and unbelievable cannot be overstated. . .

Man is a spirit; he has a soul (which consists of the mind, the will and the emotion) and lives in a physical body, a medium use to communicate directly with the physical World!

However, unlike how the bees signal and communicate with other bees, or how other animals uses their instincts or languages to inform and to instruct, **man is the only creature that has developed a highly sophisticated means of language and communication. . .**

This is not a scientific philosophy. . .

**The wonders of nature, its freedom and unity are no match with the wonders of the human complexity - its nature, freedom and unity. Its power and influence cannot be fully grasp and comprehend by the concept of science, by the brush of a painter or by the skilful hand of an artist, or by the pen of a poet!**

Like the unity found in nature, it can make the society and keeps it in the bound of peace, or it can disintegrate the society, and like the atomic bomb in Nagasaki, massacre the whole of human life and existence. . .

[Therefore], **Like the practice of mathematics, a language spoken and expressed in numbers and figures rather than in words - you must learn how to speak, express and comprehend the language of the human mind, how to pleurably engage yourself in its activity.** Only then can you, like the scientist, discover the mysteries that have been long buried deep down within you, and that you're more than the content you

now carry – your physical being – and that nothing can stop you if you set your mind to accomplish what you want or desire. . .

[Back to the top](#)

## Chapter 3

### **The Power to Do More**

“Wherefore I put thee in remembrance that thou stir up the gift of God, which is in thee by the putting on of my hands.” – **II Timothy 1:6**

**What you don't value would never value you, nor would it add value to your life . . .**

**Nobody can give you a stable life more than the one you desire for yourself.** And when I talk about having a stable life I'm not talking about the dogmas that the society offers, or some of the argument and theory by the significant few in your life.

**There is a level of attainment that no one else can give to you but yourself! . . .**

Thus, as men had protested against “the big wheel[s] of scientific progress”, part of which had led to great destructions of life and properties, nature and other existing elements and planets; as they had protested against the domination of tyrants and terrorists attacks – even so must you stand your ground against every marching enemies with the intention of dominating your life with all that is damaged, wrecked, reduced to rubbish and debased!

You must rebuff, repudiate, turn down and refuse to perish under their marching wheels and idols even if it means declaring a war! And if this be relevant to the fulfillment of your destiny or survival, though the Sun be down, the sky falls, nature trembles and flashes its rage and anger with proliferations of great confusion and destruction – still you must stand your ground and never bulge! . . .

[Back to the top](#)

## Chapter 4

### **Imminent Barriers to Your Brilliant Creativity**

*"The husbandman that laboreth must be first partaker of the fruits."* – **II Timothy 2:6**

. . .

**The reason why the essence of your life will die off is when you conform to the negative prophecies others are speaking into your life. . . But if you accept these negative prophecies into your life, like hydrogen bombs they would invade and devastate your entire life into million particles. . .**

Negative affirmation or assumption, for instance, and too often are what stunts our productivity, progress and achievement or the very power we possess!

The Word says, *"Thou hath snared with thy own mouth"*. That is to say we have become prey to our own words; we set our words against ourselves, against the very laws which were designed to work to our favor and not against us; hence, the need to constantly feed our minds with strong, positive affirmation! (I've written a book on the efficacy of the power of your spoken words called, [\*How to Turn Words into Money\*](#), which I will suggest you order so as to improve how to coordinate the power of your spoken words in order to get whatever you want out of life, since it takes a deeper look into the efficacy of the power of words and how often we trivialized with words. *Tragically, many of us don't even know that words are gift*). . .

Therefore, ***free up yourself from too many activities by which you have entangled yourself which often brings little or almost no result, and concentrate awfully hard on those little things that brings enormous results and high returns!***

**Successful result is not the result of so much activity, strain, or by constantly being busy as a bee; in fact, it has never been the result of much work and activity.** *"Not by might, nor by power, but by my spirit, saith the Lord of hosts"* (Zachariah 4:6). . .

**. . . to solely believe the lie that hard work alone is the key to the life you desperately aspire for is just as useless as trying to light up**

**the sky with a torch! "Wisdom is profitable to direct", says the Great Book.**

Thus, it suggests that real success is all about insight and intuition or rather, the product of wisdom and the workforce of a dedicated, creative mind! ]In the book, [Donald Trump's Secret Revealed: How to Get Rich While Everyone Else is Afraid](#), I reiterated that, ". . . **anyone can master their financial life, anyone can be financially successful and have more money so long as their belief does not contradict their actions and they have a clear-cut plan that tells their brains what to do and how to avoid certain challenges, difficulties and obstacles that can prevent them from having excess money beyond their wildest imagination . . .**

[And] . . . you've got to understand that **this is a generation that responds positively and rapidly only to those who work smarter and not to those who work harder, or who spend so much time working their fingers to the sun, thus breaking their spinal cord to survive!"**

[Back to the top](#)

## Chapter 5

### **You're Judged by What You Accept in Life**

"Jesus saith unto her, Said I not unto thee, that, if thou wouldest believe, thou shouldest see the glory of God?" – **John 11:40**

**YOU** have been edited by God long before you were created in His own judgment – judgment that involves His character, personality and divinity; judgment that involves His intellectual depth, complexity and formation; judgment that involves His mercy, grace and love.

Like the scholar who fills his library with collections of literatures and journals, like the artist who fills his studio with great work of arts, and like the scientist with his work of great discoveries and findings, even so you have been filled with all the wonders of the Universe, yea, even much more than the wonders of the Universe! You have been filled with His divinity, strength and wisdom! . . .

William James was right when he wrote, "The greatest discovery of my generation is that human beings can alter their lives by altering their attitudes of mind." How true!

It is your state of acceptance, or in a word, altering the attitude of your mind that determines where you'll operate, function, and the direction your life will take!

[Back to the top](#)

## Chapter 6

### **Understanding the Wonders of Your Complex Nature**

*"And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth." – Genesis 1:26*

**NEWTON** with his Law of Gravity, Einstein with his theory of General Relativity, Shakespeare with his writing of *Macbeth*, Leonardo with his prediction of the steam engine, Kepler with his fanciful analogies, Aristotle with his four elements even though there were theories that later brought them to an abrupt end, Plato with his *Republic*, and Alexander Pope with his graphic poem – these and many more were great minds who were fully absorbed and riveted into their daily activities and preoccupations, constantly laboring night and day with patience, and grossly immersed in what they do and believe; these were people who were able to discover the gravitational force of the mind and were able to experience it just as much as you experience the behavior of your bodies.

Listen to me now, folks: **there is nothing that exists without the creation of your mind. If you want something to exist in your life which has never existed you will need to engage your mind . . .**

To begin with, you must realize that you're far more than a creature of intellect, will and emotion; far more than a creature of experience, thought and of great imagination. . .

You must understand that like water, according to Lao-tsu, 600 B.C, that you can be "fluid, soft, and yielding", and like a rock you can be strong, turgid, rigid and unbending; that you have enough tissues in you to challenge, to face, and to find solution to your problem and harness its opportunity; that you don't have to be beaten down by life and "struck down by some awful affliction." . . .

To be honest, many of us are familiar with the wonders of modern science and technology. We are awe by ancient antiques and discoveries that have outlast thousands of years and the people of that era despite ragging storms, devastating earthquakes and other harsh, natural disasters. . .

What sense of freedom will you enjoy, what great personality will you exhibit, what dignity and value will you possess without the use of your creative mind, without exploring and using its gravitational force to discover, as George Sartoon, on 1 January 1801, discovered the eight planet Ceres?

Your world is place, and by extension rule by your [own] personal conviction and belief [system] far beyond animals of any kind guided by "undirected adventure" which invariably does not lead to any future fulfillment!

[Remember, therefore, that], **Your existence does not lie between the boundary of fantasy and illusion, rather, your very existence lies within you and it is real!**

[Back to the top](#)

## Chapter 7

### **Your Survival Instincts**

*"And they said, Go to, let us build us a city and a tower, whose top may reach unto heaven; and let us make us a name, lest we be scattered abroad upon the face of the whole earth. And the Lord came down to see the city and the tower, which the children of men builded. And the Lord said, Behold, the people is one, and they have all one language; and this they begin to do: and now nothing will be restrained from them, which they have imagined to do." – Genesis 11:4-6*

. . .

You see, **the greatest work of art in any human history is you, and not the one found in Greece, Italy or in England during Elizabethan's era!** You are the most advanced invention with better, sophisticated equipments ever to be found anywhere in the World to better the human race . . .

**So if you must be famous like the artist on a stage, if you must be respected like the scientist with his findings and if you must live your life to the full like the most successful businessman in his enterprise, then you must be convinced and be willing to die for what's worth it. . .**

**The World has no place for the timid, the fearful and the insecure! . .**

[Back to the top](#)

## Chapter 8

### **The Power of Your Thought-Words**

*"In the beginning was the Word, and the word was with God, and the Word was God."* - **John 1:1**

**MOST** of our thoughts are words, though they are commonly known and referred to as *thoughts*. But in the real sense **thoughts are words; they are the inner voices of our longing, of what we desperately want, desire or detest.**

**They are the words of a thousand experience, incidence, background, training, trauma, expectation or desire!**

**They are the words of those things that have predominantly dominated our subconscious mind, or what we've forced upon our minds, either consciously or otherwise.** That is why your thought-words are so powerful! . . .

[In the book, [How to Turn Words into Money](#), I said something which I believe to be very interesting, at least judging from my vintage point, thus:

"When Peter stood and preached on the Day of Pentecost to 3,000 people it was *words* he used, and not magic! Not gun! Not gimmicks! Not hypes!

He got into their souls with *words!* He got into their spirit with *words!* He broke every walls of resistance to the gospel with *words!*

The Bible says, "*Then they that gladly received **his word** were baptized: and the same day there were added unto them about **three thousand souls***" (Acts 2:41, *Emphasis Added*).

How could Peter have used the power of the Word to convert three thousand souls to Christ, and not miracles or the spree of a gun shot? Isn't that incredible? Doesn't that pontificates to the fact that *the power to effect lasting change, whether positive or negative, is encapsulated in words?*

**Words are powerful!** And according to Rudyard Kipling, "Words are, of course, the most powerful drug used by mankind."

Little wonder companies could make millions by just putting the right words together in form of an ad or sales copy!

Little wonder a young man could set out to conquer the love of his life and make her tender herself to him by using the right words!

Little wonder an employee could talk or write his boss for a pay raise and get it the moment he wants it badly enough, using the right words!

Little wonder a speaker could use the same words to motivate and inspire his audience, like Peter did, and get the right results by *using the right words!*

The truth is, if you want to sell more, if you want someone you love to fall in love with you the more, if you want a pay raise as soon as you want it, if you want to inspire your audience (as a speaker) or reader (as a writer) into buying your work or whatever it's you want to achieve with words, then you **MUST learn how to use the *right words!*** Not just words, but *the right words!*

That means you must get into their spirit! You must move into their soul! You must appeal to their appetite, ego and emotion! You must transverse from their conscious mind into their sub-conscious mind by using the right words!

If you want to negotiate successfully for a business deal, if you want to bury the hatchets between you and your family, friends, and loved ones or between you and your lover, if you want to speak convincingly in order to get people to believe in you, in what you're saying and represent, or to get them to do your bidding without any resistance, then you must *learn to use the right words!*

Hence for me to have implore the word, **the right words**, it therefore suggests that there must also be **wrong words** which often lead to unpleasant results!

Maybe you don't know this: **every word you utter is an asset, and as such has the potency to enrich you financially and increase your affluence.** No, you don't have to be an orator or a genius before you get to that stage. You don't need to have 4 PhD's or several medical degrees either].

Therefore, I pray that your soul, according to Bronowski, will not be in the age of famine because of what I called the wrong use of your thought-words, but rather, that through its perfect use you will "come to terms with the prospect of plenty."

[Back to the top](#)

## Chapter 9

### **Hitting Your Golf Ball**

*"And David said to Saul, Let no man's hearty fail because of him; thy servant will go and fight with this Philistine. And Saul said to David, Thou art not able to go against this Philistine to fight with him: for thou art but a youth, and he a man of war from his youth." - 1 Samuel 17:32, 33, **Emphasis Added.***

. . .

**Your belief can liberate you; and if you can master your thought and imagination your creative mind will provide you with [enormous] powers more than the one extracted from electron and nucleus by scientists.**

You will double your expectations in life, you will eradicate, more than half, the unnecessary woes and ills that have burdened and bedeviled many a soul; like a speed of light you will create for yourself that leisure, that comfort and life that many hope and desperately aspire for; you will live and function according to your original plan in Creation.

Too often, we have carried out the task imposed on us by the society, most of which were negative and totally uncalled for, and without knowing that we have the potential to live far above animals, to deepened our sense of personality and value, and to attain to our own human fulfillment which depicts the glory and wonders of our making or complex nature!

Listen, there is a personal relation between your talent and the life you lead; there is a personal relation between who you are and who you will become, between what you believe and your core value. If these are "destroyed" nothing meaningful will be inputted into your life. Your life will be blank; it will never command attention, and worse, unlike a faulty television that would be better off going blank, your [life] would be worse than that! . . .

This is not a step by step classical, revolutionary concept from Aristotle to Newton to Robert Hooke. Rather it's real, as real as the book you're now reading.

[In chapter six of the book, [\*Donald Trump's Secret Revealed: How to Get Rich While Everyone Else is Afraid\*](#), I expounded on some of the limiting beliefs that has confined us within the circle of our limiting orbits in contrast with Trump's unlimiting beliefs. Like I said in the book, "You can't divorce the success of Donald Trump from his belief and conviction, the sources from which his strength, ability and fortitude emanates from, which has enabled him to face tougher challenges, take greater risks and to remain committed where others have been swayed by the same challenges and risk.

Believe it or not, Trump is a man of great beliefs which has empowered him throughout history, the one force behind his great achievement. However, this does not mean that he is always right"].

[Back to the top](#)

Chapter 10

## **Your Freewill and Its Power of Initiation**

*"Then said they unto him, What shall we do, that we might work the works of God?" – John 6:28*

**THE** idea that you're a free moral agent is not an empty phrase. That means as a free moral agent you have a will, and with that comes great power and responsibility to direct your *thought, action and reaction* the way you desire; with that comes the ability to consciously initiate a plan and work positively towards it; and with that free will comes the force to determine the direction and the shape your life will take.

Perhaps that is why **you're more than the wonders of the workings of nature, more than the fascination of the work of arts, more than the inspiring awe of science and invention, and more than the expression of words in figures and numbers! . . .**

Hitherto what we have accomplished thus far with our free will is debase. . . [Tragically], . . . **unlike Jesus who was crucified between two thieves by His enemies, the problem is, for most of us, we are the one responsible for own our crucifixions. . . [We are our own enemies].**

Often when you are taking a decision, you don't think about your will power. You just take that decision having weighed the pros and cons. That is how you have been programmed; you just will yourself into taking a decision without any external effort.

If most of the decisions we take are often based on strenuous and conscious effort, then even some of those simple, daily acts or activities such as walking, talking and other general activities of life would be extremely difficult, multi-tasking and would perhaps demand much of our effort. But thank God they are not! . . .

**Your decision will always follow the leading of your willpower, and your willpower will always follow the leading of your decision.** It is vice-versa. . .

*No one has ever attain the level of success he (or she) so much desires without his (or her) decision and will coming together, agreeing and working towards the same goal!* Every decision-making must pay attention to the will, and every will must invariably pay attention to the process of decision-making [if there must be a positive outcome] . . .
