The Global Elite's Population Cull

By Terence A. Smart

England's Prince Philip, the Duke of Edinburgh (Global Elite), may have revealed the

Views of the global elite when in 1981 he told People magazine,

“Human population growth is probably the single most serious long-term threat to survival. We're in for a major disaster if it isn't curbed—not just for the natural world, but for the human world. The more people there are, the more resources they'll consume, the more pollution they'll create, the more fighting they will do. We have no option. If it isn't controlled voluntarily, it will be controlled involuntarily by an increase in disease, starvation and war.”

Introduction

The United States government-as with all other major governments of the world-is under the total domination and control of the Rothschild Illuminati (architects of the so-called New World Order). The Illuminati's plan is to reduce the global population by 4 billion (some say to 500 million) people before the year 2050. The amazing thing about the Illuminati is that they place all their terrible plans right out in the open for everyone to see, because this de-population agenda was laid out in the Global 2000 report assembled by President Carter's administration in the late 1970's.

You see we are a bit of a pain to the Elite because the resources of the Earth are quickly being depleted by the consumers of the Earth, (that's us) and we are multiplying at alarming rates. So they decided quite some time ago that they are going to do something about us 'useless eaters' as Rothschild stooge Henry Kissinger calls us.

So the Global Elites agenda was to bring about the destruction of us 'useless eaters' through famine, disease (AIDS, swine flu), biological warfare, chemicals, genetically modified organisms (GMOs), food additives (aspartame), tainted water (fluoride), drugs, vaccinations (mercury), polluted toxic air (Chemtrails), pesticides, pharmaceutical drugs and radiation (cell phones, smart meters, microwaves).

All the above poison and weaken the immune system which leaves the body open to disease (i.e. cancer) and death as you will now read in the pages in this book.

The Global Elite have then used its stranglehold on the Food and Drugs Administration, American Medical Association and the Pharmaceutical companies to suppress any cures for cancer that would remove the profits from their chemotherapy and radiation poisoning.

If all else fails in the population agenda the nuclear option is on the table for them:

"There are only two ways of preventing a world with 10 billion inhabitants. Either the birth rate drops or the death rate will rise. There is no other way. "There are, of course, many ways to make the death rate increase. In the thermonuclear age war can take care of this very quickly and in a definite way. Famine and disease are the oldest." Robert McNamara, former U.S. Secretary of defence and former president of the World Bank.

"One of our primary goals has been to put an end to population growth. Moreover, we had to decrease world population numbers dramatically. In order to do this, we needed methods that could kill large numbers of people in a very short time. We have financed top-secret research projects for the production of deadly viruses. Some experiments have failed but others have yielded results." Signore Massini, Freemason, Bilderberg Group.

The Illuminati Commandments

The Globalist or Illuminati have their own commandments and they are etched in granite in Elbert County, Georgia, USA. Here stands a granite monument engraved in eight different languages on four giant stones with 10 commandments or guides.

The languages that the '10 Guidelines' (or commandments) have been translated to are the following...

English, Spanish, Russian, Chinese, Hebrew, Arabic, Swahili, Hindi. So that includes most of the people in this world. It also includes short excerpts and phrases from many ancient languages such as Classical Greek, Babylonian Cuneiform, Egyptian Hieroglyphics and Sanskrit.

The origin of that strange monument is shrouded in mystery because no one knows the true identity of the man, or men, who commissioned its construction. All that is known for certain is that in June 1979, a well-dressed, articulate stranger visited the office of the Elberton Granite Finishing Company and announced that he wanted to build an edifice to transmit a message to mankind. He identified himself as R. C. Christian, but it soon became apparent that was not his real name. He said that he represented a group of men who wanted to offer direction to humanity, but no one knows who R. C. Christian really was, or the names of those he represented.

The message of the Georgia Guidestones.

1. Maintain humanity under 500,000,000 (500 million) in perpetual balance with nature.
2. Guide reproduction wisely - improving fitness and diversity.
3. Unite humanity with a living new language.
4. Rule passion - faith - tradition - and all things with tempered reason.
5. Protect people and nations with fair laws and just courts.
6. Let all nations rule internally resolving external disputes in a world court.
7. Avoid petty laws and useless officials.
8. Balance personal rights with social duties.
9. Prize truth - beauty - love - seeking harmony with the infinite.
10. Be not a cancer on the earth - Leave room for nature.

Firstly guide number one requires the removal or extermination of about 6 billion people, if the current world population is about 6.5 billion. This is some satanic wish list, how will they kill 6 billion? Obviously guide no. 2 'Guide reproduction wisely' means birth control, abortion or people only allowed one child which would be the same policy as China. Or could number 2 possibly mean only the Elite will be allowed to reproduce. Number 6 on the list is a pointer to a world government. Guide number 9 suggests we Seek 'harmony with the infinite', but who is there version of the infinite, could that be Lucifer. Guide number 3 says unite humanity with a living language and that would be the 'New World Order' the one world government. Guide number 10 aligns itself with Agenda 21 (more of that later) which states people will not be allowed to live in the wilderness. We will be herded into high rise apartments in large cities.

The Guidestones also serve as an astronomical calendar, and every day at noon the sun shines through a narrow hole in the structure and illuminates the day's date on an engraving. The Guidestones continue to be a point of controversy and many people believe them to be the work of Satanists or the New World Order purveyors 'the Illuminati'.

The Cancer Fraud

"From 1920 to the present time, we have made little progress in the treatment of adult cancers. So, a person who gets prostate cancer or breast cancer today will live as long as a person who got it in 1920."
(Charles B. Simone, M.MS., M.D., Founder, Simone Protective Cancer Center)

"Why are people terrified when they hear the word cancer? Because they know it [conventional cancer treatment] doesn't work." **(Dr. Julian Whitaker, M.D. Founder, Whitaker Wellness Institute)**

"To the cancer establishment, a cancer patient is a profit centre. The actual clinical and scientific evidence does not support the claims of the cancer industry. Conventional cancer treatments are in place as the law of the land because they pay, not heal, the best. Decades of the politics-of-cancer-as-usual have kept you from knowing this, and will continue to do so unless you wake up to their reality." **John Diamond, M.D.**

"Everyone should know that most cancer research is largely a fraud and that the National Cancer Institute and the American Cancer Society are derelict in their duties to the people who support them." **(Dr. Linus Pauling 1986, Nobel Laureate)**

The Global Elites Cancer Control

The Global Elite or Cabal (Rothschild, Rockefeller organisations) control all sides in the medical\cancer networks – the WHO (World Health Organisation), which they created from the start, the public protection agencies like the US Food and Drug Administration (USFDA), American Cancer Research and the American Medical Association; the Pharmaceutical cartel and the doctors' organizations. With the ownership of the media they completely control the health\cancer industry.

The Illuminati\Globalist Elite families are seeking to instigate the mass-cull of the population – by dismantling the body's immune system – the natural defence against disease. The immune system is weakened and attacked by food, drink additives, chemical farming, pharmaceutical drugs, Chemtrails, vaccinations, electromagnetic and microwave technology etc. What destroys the immune system even

quicker and better? Chemotherapy and radiation. These are poisons designed to kill cells, even healthy cells and this is the cutting edge mainstream cancer treatment and has been for 60 years.

There was a meeting of paediatricians and students which took place on the 20th March 1969 at the Pittsburgh Paediatric Society and one of the speakers was Dr Richard Day (Rothschild Zionist), an eminent professor and physician, and Medical Director of the organisation 'Planned Parenthood'. 'Planned Parenthood' was established in 1921 (then under the name of the 'American Birth Control League') in the United States by Margaret Sanger, a proponent of birth control, and a member of the American Eugenics Society. The Rockefeller Foundation (a family known to be part of the globalist elite) has funded 'Planned Parenthood' since its inception in 1921. During the meeting in Pittsburgh, Dr Day touched on the subject of cancer, and what he relayed to his audience shocked them.

Dr Day said ***"We can cure almost every cancer right now [1969]. Information is on file in the Rockefeller Institute, if it's ever decided that it should be released."*** Dr Day continued ***"But consider – if people stop dying of cancer, how rapidly we would become overpopulated. You may as well die of cancer as something else"***. He continued, ***"The plan was to control and cull the population through medicine, food, new-laboratory made diseases and the suppression of a cure for cancer."*** Dr. Day said in the lecture that he would be in real trouble if this information got out.

"Teaching school sex education would lead to more pregnancies but this would not be a problem, tax payers money would be given for abortions and homosexuality would be made legal and encouraged and promiscuous sex would be encouraged to break down family values as part of the depopulation agenda" ***"Pornography, violence and obscenity on TV and in movies will be increased. People will be desensitized to violence and porn and made to feel life is short, precarious and brutish. Music will "get worse" and will be used for indoctrination"***. Dr Richard Day 1969.

The Global Elite families want people to suffer and die earlier than necessary as a way of culling the population. This is why when anyone outside the Big Pharma cabal discovers an effective way of treating cancer they are immediately targeted by the medical establishment and government agencies.

Global Elites Control of Big Pharma

The Global-Elites controlled Big Pharmaceutical industry makes billions of dollars a year from vaccines and drugs for chemotherapy. It is a known fact that the Rothschild Zionist Empire controls the Federal Reserve in America as well as the Bank of England, IMF (International Monetary Fund), BIS (Bank for International Settlements), European Central Bank and most banks in the western world. This Rothschild Zionist Empire has used this control of the banks to create nearly every war over the past 150 years as well as events of gigantic proportions like 9/11 (details of this are in my other book) and the Global Warming scam. So this empire has slaughtered millions and millions of people throughout the decades so do you really think that their control of the pharmaceutical industry is for the benefit of the human race or is it for our demise?

"We mostly control this money, but our real influence consists of the huge debts we basically force upon all governments in order to deal with the economy, and therefore in the social field — in the way we like it. This is basically the main target for which we founded two high financial structures in the world: the World Bank and the International Monetary Fund (IMF). But the strongest stroke which made our greatest success was getting the USA into debt so that they completely fall under the financial politics we arrange, this is

how we control the economic world and we direct it where we please ", Signore Massini, Freemason, Bilderberg Group.

Let us look at the links between the Rothschild's banks and the Pharmaceutical companies.

Most Americans believe the Federal Reserve is owned by the government. It is not. It is a cabal of private banks created and controlled by Rothschild's. These are some of the major Rothschild banks that own the Federal Reserve: Bank of America; JPMorgan Chase; Wells Fargo and Wachovia; Citibank; PNC Bank; Bank of New York Mellon; US Bank; HSBC Bank; Goldman Sachs. Other families who own the Federal Reserve include Rockefeller, Kuhn Loeb, Lehman, Goldman Sachs, Warburg, Lazard and Israel Moses Seif. The Federal Reserve controls the printing of America's currency, and then charges the US government interest on those loans. The interest is growing each year (20 trillion), making it difficult if not impossible for the American government to pay it. How do American's pay this interest? By the US Personal Income Tax. This tax goes to the Rothschild family. American's did not pay income tax until 1913, the year the Fed was illegally created on Jekyll Island. People might then ask why the U.S government doesn't print its own money to run the country instead of borrowing from these private bankers and then being forced to pay them interest. Two presidents (Abraham Lincoln and John F. Kennedy) have tried to remove the Federal Reserves or the Private Banks hold on the American Government but they were assassinated for it. Hitler and Germany was also targeted for destruction in the 1930's because Hitler removed the Rothschild (Jewish) central banks from Germany and that's why the German economy flourished after their removal (more of this is in my first book).

These same banking families also own the major oil companies: Exxon Mobil, Chevron Texaco, BP Amoco and Royal Dutch/Shell. These oil companies then reaped the rewards by taking over the oil reserves in Afghanistan and Iraq after Rothschild's intelligent agencies (Mossad, CIA, and FBI) had instigated 9/11 to bring about the wars in Iraq and Afghanistan. If you think Bill Gates (\$70 Billion) is the richest person in the world then you need to think again, that's just loose change for the Rothschild's. It is difficult to estimate exactly how much the Rothschild Family are worth. Higher estimates have placed it in the region of \$100 trillion USD, making them by far the wealthiest family on Earth.

Novartis International AG is a Swiss multinational pharmaceutical company based in Basel, Switzerland, ranking number one in sales (57.9 billion US\$). Novartis owns 33.3% of Roche. Roche is one of the top sellers of Oncology (cancer) drugs. Among its products Novartis produces vaccines and Chemotherapy drugs.

Wells Fargo & Company (Federal Reserve) is an American international banking and financial services holding company. It is the third largest bank in the U.S. In February 2014, Wells Fargo was named the world's most valuable bank brand for the second year running. Wells Fargo & Company owns over 7 million shares in Novartis as does Bank of America.

Dodge & Cox has by far and away the most shares in Novartis with over 40 million shares. But who has the most shares in Dodge & Cox? It is the same companies again. Bank of America has most shares in Dodge & Cox with 5 million, Wells Fargo & Co 3.7 million, Goldman Sachs 3.5 million, Bank of New York Mellon 2.5 million shares. All of these banks are part of the Federal Reserve

AstraZeneca is a British–Swedish multinational pharmaceutical and biopharmaceutical company. AstraZeneca acquired US Company, MedImmune for about \$15.2 billion to gain flu vaccines and an anti-

viral treatment for infants. In 2015 AstraZeneca also acquired ZS Pharma for \$2.7 billion. In fact AstraZeneca has acquired over 15 other companies since it was formed in 1999. These companies make huge profits from selling these vaccines to governments. As of 2008, David Brennan was paid \$1,574,144 for his role as chief executive officer (AstraZeneca). AstraZeneca manufactures Crestor which is one of the world's leading statins, with global sales of more than \$5 billion (£3.4 billion). AstraZeneca made pre-tax profits in 2015 of £3.07 billion.

The main shareholders in AstraZeneca are Wells Fargo & Company, JP Morgan Chase & Co, Dodge & Cox and Bank of America. As you can see this is a recurring theme now.

Another pharmaceutical giant GlaxoSmithKline reported a 4 per cent rise in annual turnover to £23.9 billion. Profits jumped from £3 billion in 2014 to £10.5 billion in 2015. FMR LLC own over 20 million shares in GlaxoSmithKline worth nearly 1 billion. Fidelity Management & Research Company (FMR) is a US investment management company and has assets worth a whopping \$2 trillion. Wells Fargo & Company owns just over 11 million shares worth nearly \$500 million in GlaxoSmithKline

Other companies who own shares in GlaxoSmithKline include Bank of New York Mellon, Bank of America Corporation, Goldman Sachs group Inc., Royal Bank of Canada and JPMorgan Chase & co.

GlaxoSmithKline produces vaccines for HPV (Cervarix), Hepatitis A and B, diphtheria, tetanus, pertussis, Flu, among many others.

If you or your child suffers harm or death due to a vaccine, then you cannot sue the manufacturer of the vaccine. You must sue the Government and try to obtain compensation from the Vaccine Injury Compensation Trust Fund, which is funded by taxes paid on vaccines. The global elite have got laws passed so that these pharmaceutical companies are not liable for vaccine injuries. We the tax payer have to pay for the injuries our children receive from their vaccines made in the labs of companies such as AstraZeneca, Novartis or GlaxoSmithKline.

Monsanto, the company behind genetically modified food is owned by various companies but the biggest shareholder is the Vanguard group which consists of, yes you guessed, Bank of America, JP Morgan, Citigroup, Wells Fargo, and Goldman Sachs etc. Also George Soros (Rothschild Zionist) own 500,000 shares in Monsanto as does Bill Gates. George Soros is the man who "broke the Bank of England" on Black Wednesday in 1992 and is one of the top thirty richest people in the world, and a political activist who is of Hungarian-Jewish ancestry, holds dual citizenship in Hungary and the United States, and self-proclaims as a philanthropist, while contributing massive funds to eugenics programs and population control through toxic food and toxic vaccines. Soros also funds (\$33 million) race hate groups (to stir up racial unrest across America) such as the Ferguson protest movement, after the death of Michael Brown. Michael Brown was an unarmed 18-year-old black teenager shot dead by a white police officer on a street in Ferguson, Missouri, August 2014. Soros has stated he was responsible for establishing a foundation in the Ukraine that ultimately led to the overthrow of the country's elected leader and the installation of a puppet president handpicked by the US State Department, at the time headed by none other than Hillary Clinton. This revolution in the Ukraine has led to the deaths of over 10,000 people and the displacement of over 1.4 million people.

As you can see this Rothschild Empire controls all the banks, oil companies and most of the Pharmaceuticals companies but it goes much deeper than that because they also control the media and governments in the western world. But going further into this subject is beyond the scope of this book but

other books cover this Rothschild\Illuminati control in more depth, books by men such as David Icke, Fritz Springmeier, Jim Marrs, Henry Makow, John Coleman and Jordan Maxwell to name but a few.

In the pages ahead you will find a recurring theme, doctor's or people come along and find a free, cheap way of curing cancer with no side effects and then the global elite's puppets (government, medical associations, pharmaceutical companies, ACS, FDA) come along and shut down or force out of business or even jail the people who are curing the masses from their cancer. Because they need the status quo maintained were they make billions of profit every year by giving poison (chemotherapy) to cancer sufferers and because the global elite own the governments, big Pharma, the medical associations and the media the masses of people are easily brainwashed in to believing that Chemotherapy and radiotherapy are the only solution to cancer. That is the big lie. In fact there are many alternative cancer therapies which are far better than orthodox treatments and they also have no side effects. Let's look at some frightening statistics to back this up.

Cancer Statistics

5 Billion Per year has been spent on Cancer Research in the USA alone since Richard Nixon declared war on cancer in 1971. That is over 200 billion dollars and yet over 550,000 Americans die of cancer every year, over 150,000 people in the UK die from cancer every year, worldwide the total deaths is about 7 million each year. So in the past 40 years 20 million Americans have died of cancer. But why is this when the American government has spent \$200 billion on cancer research in the past 40 years. In the U.K, Cancer Research's income was £621m in 2015. **This is a massive failure by any account and I would go as far as saying it is fraud. It is duping the masses out of their money to line the pockets of the Elite and Big Pharma.**

The current path of drug company research will not lead to a cure for cancer (it has not in over 40 years) but it will lead to all the research dollars going into the coffers of the pharmaceutical companies. Just think of them sobering statistics when someone is holding out a tin for cancer research when you next visit your local store and think where that money is going and for what purpose. The myriad of charities and research institutions that make up the 'cancer Industry' exist only to support the profits of the criminal, Elite-controlled pharmaceutical industries.

The American Cancer Society (3% cure rates) receives more money in contributions, **every ten minutes**, than the Independent Cancer Research Foundation (ICRF) (90% cure rates) receives **in a year!!** That gives you an idea of the power of the media to control the minds of the general public. Yet, after 60 years of "looking for a cure for cancer," the ACS still doesn't have a clue what really causes cancer, much less how to cure it.

Let's look at the percent of cancer patients who live for **5 years** after diagnosis. If you studied the American traditional medicine "5-year survival" charts. The 5-year cure rate in America is 2.1%. In other words, in five years after diagnosis, 97.9% of the cancer patients treated with traditional cancer treatments, meaning those who trust the media and pharmaceutical industry, are dead.

Let's look at things another way in 1900 1 out of 24 Americans had cancer in their lifetime. Think about that for a while. In the 1940s it was one out of every sixteen people. In the 1970s it was one person out of

ten. Today the cancer rate is 1 out of 2 for men and 1 out of 3 in women. According to the American Cancer Society, **Forty-one thousand (41,000)** Americans (64 people per 100,000) died of cancer in 1900 (compared to **550,000** per year today). The conclusion is people were much healthier 100 years ago than we are today. We lost the war on cancer a long time ago.

The fact is much of the food most of us eat today is not healthy for our bodies and does damage to our internal cells and organs. Add to this fact we use far more chemicals in our household than we did back then plus, we have been forced into mass inoculation programs over the past 60 years plus some of the deadly additives put in our food such as aspartame, sorbitol, monosodium glutamate, fluoride in our water and toothpaste, chemicals sprayed into our atmosphere (Chemtrails) and Genetically Modified Foods. It then becomes clear why 1 in 3 people now get cancer.

The simple truth is that there are cures for cancer but we are not allowed to know about them.

Cancer Cures Suppressed

"There is not one, but many cures for cancer available. But they are all being systematically suppressed by the ACS, the NCI and the major oncology centres. They have too much of an interest in the status quo."--Dr Robert Atkins, M.D.

The pharmaceutical industry has a powerful hold on the entire medical system in the United States (and the world), and they are not about to let alternative cancer therapies be established because they make too much money from their orthodox poisonous treatments such as chemotherapy.

In the 1930s a remarkable scientist by the name of Dr. Raymond Rife was professionally discredited and ruined for claiming to discover a cure for cancer and other diseases. Dr. Rife demonstrated the ability of specific radio-wave frequencies to disrupt viral and bacterial cells. Cells and bacteria are susceptible to disruption by radio frequencies and if the frequency is amplified the cell can be shattered and broken up. A crude analogy to this effect is a glass shattering when a singer sounds a high note.

A Special Research Committee of the University of Southern California confirmed that Rife frequencies were reversing many ailments, including cancer. In 1934 Rife opened a clinic and he isolated and bombarded cancer cells with radio frequencies and he was successful in killing cancer cells on tests on over 400 animals and within 3 months he cured 16 terminal cancer patients with his electronic Rife machine. These so-called hopeless cases were signed off as clinically cured by a staff of medical doctors.

In 1956, Dr. James Gouche made the following declaration:

"I would like to make this historical record of the amazing scientific wonders regarding the efficacy of the frequencies of the Royal R. Rife Frequency Instrument."

"In that period of time I saw many things and the one that impressed me the most was a man who staggered onto a table, just on the last end of cancer; he was a bag of bones. As he lay on the table, Dr. Rife and Dr. Johnson said, 'Just feel that man's stomach.' So I put my hand on the cavity where his stomach was underneath and it was just a cavity almost, because he was so thin; his backbone and his belly were just about touching each other.

"I put my hand on his stomach which was just one solid mass, just about what I could cover with my hand, somewhat like the shape of a heart. It was absolutely solid! And I thought to myself, well, nothing can be done for that. However, they gave him a treatment with the Rife frequencies and in the course of time over a period of six weeks to two months, to my astonishment, he completely recovered.

Independent physicians utilizing the equipment successfully treated as many as 40 people per day during these years. In addition to curing cancer and other deadly diseases, degenerative conditions such as cataracts were reversed. Rife had been able to determine the precise electrical frequency that destroyed individual micro-organisms responsible for cancer, herpes, tuberculosis, and other illnesses. His work was described in Science magazine, medical journals, and later the Smithsonian Institution's annual report.

It was not long before the secret elite got wind of these cures by Dr Rife and they realised this would wipe out their pharmaceutical profits so they did what evil people would do and shut Dr Rife down.

Unfortunately, Rife's theories and treatments conflicted with orthodox methods. But that should not matter as he was curing people without any side effects. His work was stopped and both the research and the treatments were forced underground. The health authorities made false claims against him, his lab was ransacked on several occasions and he was also harassed by health officials. One of these "authorities" was Dr. Thomas Rivers of the Rockefeller Institute (again). Baseless and costly lawsuits were brought against him resulting in his bankruptcy. The American Medical Association took him and his associates to court and all doctors working Dr. Rife were told they would lose their licence if they used the Rife machine again.

In the 1950s, John Crane, engineer, health researcher and inventor became Rife's work colleague and learned all of Rife's secrets for curing cancer and together they invented better machines. Again the medical authorities struck and Crane was jailed, equipment was smashed, and records were destroyed. Dr Rife died an unhappy and broken man in 1971. God bless his work.

Now if all that cancer research money went into Dr Rife's work I don't think somehow that 7 million people would be dying of cancer every year. But that's what you get when evil people and corporations run the world and the governments let them. Instead they pour all the cancer research money into a new drug that can be patented and then sold for huge profits. It's all about the money and not about helping people or healing people.

This story just demonstrates how sad, pathetic and evil the elites who own the medical establishments and pharmaceutical companies are and the governments who support them. Here we had a man (Dr Rife) who was on the threshold of a cancer cure and if more money and research was poured into his work then they would possibly have been a lot less dying of cancer on this planet. Think of the many, many millions of people who have died of cancer over the last 60 years and the suffering the families have went through especially the suffering of the children and to think that many of those lives could have been saved.

For more information on Dr. Rife see the video below:

Dr. Ernest Krebs and the Apricot Cure

“A control for cancer is known, and it comes from nature, but it is not widely available to the public because it cannot be patented, and therefore is not commercially attractive to the pharmaceutical industry.”

-G. Edward Griffin

Dr. Ernest Krebs was a biochemist in the early 1950s and his research led him to believe that cancer is ultimately a metabolic reaction to a poor diet. Dr Krebs began studying the lifestyle habits of the Hunza people who lived in the remote parts of Northern Pakistan. The late Sir Robert McCarrison believed that the most important factor in restoring health is healthy nutrition and when he worked in India in the 1930s he wrote about the Hunza people and how they enjoyed nearly perfect health and some of them lived beyond the age of 120. He observed there seemed to be no evidence of diabetes, cancer, obesity, or heart attacks among these people. Their diet was simple. According to McCarrison, it consisted of raw milk, the occasional meat and broth, fresh grains and veggies. They ate very little sugar and their lifestyles as nomads and herders meant they got plenty of vigorous exercise. One other thing they did eat in large quantities was apricot seed kernels. Dr Krebs research led him to believe that amygdalin could shrink or eradicate cancer tumours. Amygdalin (vitamin B-17) is found in over 1000 plants but its highest concentration is found in apricot seed kernels. Dr Krebs created laetrile which is a concentrated form of amygdalin which is extracted from the apricot kernels.

How does it cure the cancer? Vitamin B-17 is a molecule made up of four parts: 2 parts Glucose, 1 part Benzaldehyde and 1 part Hydrogen Cyanide. Don't worry about the cyanide as many foods such as bitter almonds, millet, sprouts, lima beans, spinach and bamboo shoots actually have quantities of cyanide in them, yet they are still safe to eat. Rhodanese is an enzyme found everywhere in the body except for cancer cells. Beta-Glucosidase is an enzyme found only in and around cancer cells. The glucose delivers B-17 to the cancer cells, but cancer cells do not have the enzyme Rhodanese to neutralize the cyanide. Instead they have a unique enzyme called Beta-Glucosidase. This “unlocking enzyme”, found only in cancer cells, releases the Benzaldehyde and Cyanide from the glucose and each other creating a targeted poison that kills the cancer cell. It's kind of like “natural chemo”.

Dr. Dean Burk, Director of the Cytochemistry Section of the federal government's National Cancer Institute reported that, in a series of tests on animal tissue, the (Laetrile) vitamin B-17 had no harmful effect on normal cells, but was deadly to a cancer cell.

In another series of tests, Dr. Burk reported that Laetrile was responsible for prolonging the life of cancerous rats eighty percent longer than those in the control group that were not inoculated.

Dr. Burk was one of the foremost cancer specialists in the world. He was the recipient of the Gerhard Domagk Award for Cancer Research.

For five years, between 1972 and 1977, Laetrile was meticulously tested at Sloan-Kettering under the direction of Dr. Kanematsu Sugiura. *“The results clearly show that Amygdalin significantly inhibits the*

appearance of lung metastasis in mice bearing spontaneous mammary tumors and increases significantly the inhibition of the growth of the primary tumors... Laetrile also seemed to prevent slightly the appearance of new tumors” Dr Sugiura.

“After more than twenty years of such specialized work, I have found the nontoxic nitrilosides-that is Laetrile-far superior to any other known cancer treatment or preventative. In my opinion, it is the only existing possibility for the ultimate control of cancer.” Dr. Hans Nieper of West Germany, former Director of the Department of Medicine at the Silbersee Hospital.

Manuel Navarro, M.D., of the Philippines is former Professor of Medicine and Surgery at the University of Santo Tomas in Manila. He has been recognized internationally as a cancer researcher and has over one hundred major scientific papers to his credit. In 1971 Dr Navarro wrote *“I have specialized in oncology [the study of tumours] for the past eighteen years. For the same number of years I have been using Laetrile–amygdalin in the treatment of my cancer patients. During this eighteen year period I have treated a total of over five hundred patients with Laetrile & amygdalin by various routes of administration, including the oral and the I.V. The majority of my patients receiving Laetrile–amygdalin have been in a terminal state when treatment with this material commenced.*

It is my carefully considered clinical judgment, as a practicing oncologist and researcher in this field, that I have obtained most significant and encouraging results with the use of Laetrile & amygdalin in the treatment of terminal cancer patients, and that these results are comparable or superior to the results I have obtained with the use of the more toxic standard cytotoxic agents”.

Despite the hard proof of its efficiency to cure and prevent cancer, the FDA (The Food and Drugs Administration, USA) banned laetrile in 1971. This wasn't a surprise because the discovery by Dr. Krebs posed a serious financial scare to the Elite and their Cancer Industry profits.

Laetrile (i.e. amygdalin or Vitamin B17) therapy is one of the most popular and best known alternative cancer treatments. It is very simple to use and is very effective if used in high enough doses and if the product is of high quality and if it is combined with an effective cancer diet.

Most people take laetrile in the form of apricot kernels. In the middle of a peach or apricot is a hard shell. If you break open the hard shell you will find a small seed/kernel in the middle. It is this seed that is rich in natural laetrile. The highest form of concentration of B17 is in apricot seeds but other fruit seeds also have B17 including cherry, apple, peach, nectarine, plum, pear & prune and contain good amounts of laetrile.

According to Dr. Krebs one apricot or peach per 10lbs of body weight is more than enough to be used as a cancer preventive. So a 200lb man can eat 20 apricot seeds per day.

There has never been a verified case of anyone ever dying from eating apricot seeds.

In the book “World without cancer” written by Edward Griffin, he wrote about this discovery and he went on to say how the cancer industry buried this information so as to preserve their 200 billion dollar profits.

Dr. Kelley's Cancer Cure

During the 1960s, a Texas dentist named William Donald Kelley discovered a way to cure his terminal pancreatic cancer. He then went on to cure thousands of people from cancer until Big Pharma and the medical associations shut him down. One of those patients included a woman diagnosed by DR. Kelley with stage four pancreatic cancer who had been given six months to live. She'd learned about Kelley's program through a local health food store. She completed his treatment and is still alive today, 29 years later.

When Kelley was diagnosed with cancer his mother came to help and she threw out all his junk food, red meats, and anything with sugar in and fed him fresh grains and fruit and vegetables and after 3 months he was feeling better. This gave him the clue that diet was to help with cancer recovery. Although his cancer was still there he did more research on pancreatic enzymes.

Pancreatic enzymes help break down fats, proteins and carbohydrates. A normally functioning pancreas secretes about 8 cups of pancreatic juice into the duodenum, daily. This fluid contains pancreatic enzymes to help with digestion and bicarbonate to neutralize stomach acid as it enters the small intestine.

He started to take large doses of pancreatic enzyme supplements. He then noticed his cancer cells were diminishing but then he would start to feel sicker and this was because dead cancer cells were floating around his system and he needed a way of flushing them out. This is where he came up with the idea of using coffee enemas to flush out the toxins and dead cancer cells from his liver.

"As time passed, I realized one of the basic laws of cancer: Wrong foods caused the malignancy to grow, while proper foods allowed natural body defences to work and the malignancy was absorbed a little. This is one reason some people can live so long with cancer, while others succumb very quickly". **Dr Kelley**

Soon word got out about Kelley's miraculous cure and people started flocking to him for cancer cures instead of going to him with problems about their teeth. He went on to treat over 30,000 people with cancer.

A Dr. Gonzalez reviewed and interviewed more than 400 of Dr. Kelley's patients, he concluded that the treatment worked. Hundreds of people who supposedly had terminal metastatic cancer had lived for five, 10 or more years.

Of course as normally is the case when the American Medical Association found out that a dentist was curing cancer they tried to close him down. The AMA suspended his dentist licence and threw him in jail for a short time. He had to carry on his cancer practice in Mexico. Dr. Kelley died in 2005 aged 79.

Dr. Simoncini and Baking Soda

Italian doctor Tullio Simoncini realised what cancer is and how it can be cured. His crime was to discover that cancer actually is a fungus caused by Candida, a yeast-like organism that lives in the body in small amounts even in healthy people. Dr. Simoncini has been persecuted in his own country and was even thrown into jail.

Tullio Simoncini realised that sodium bicarbonate kills the fungus and consequently the cancer.

In 2012 University of Arizona Cancer Center received a \$2 million grant for researching the effects of baking soda on cancer. "Drinking baking soda shows great promise as a way to reduce or eliminate the spread of breast cancer to the lungs, brain and bone, but too much baking soda can also damage normal organs," was the final conclusion.

Phillip Rowe, a driver from England, accounts how he had skin cancer in 2010, and the mainstream oncologists told him he was cancer free after removing one malignant mole. But in 2012 he noticed a lump on his leg, and a scan showed two tumours. An Italian friend at work told him about Dr. Simoncini, and Rowe was soon treated by injecting sodium bicarbonate straight into the tumours. He has since made a full recovery and said that multiple scans show he was completely cancer-free. Other testimonials for Simoncini's treatment include success stories with prostate, ovarian, uterus, breast and other cancers.

Doctors Doug Kaufman and Mark Sircus both advocate using sodium bicarbonate to treat cancer. Dr. Kaufman agrees with Dr. Simoncini's theory and writes that cancer is a fungal infection in his book *The Germ that Causes Cancer*. And Dr. Sircus writes on his website that baking soda is powerful in treating many illnesses, from cancer to the common cold.

This treatment is primarily used for cancer of the digestive tract, including cancers of the throat, colon, intestines, rectal area, and other cancers in between. Cancers outside of the digestive tract generally need a health practitioner to inject the baking soda solution.

This treatment should not be used for more than three weeks at a time. During the first week, no more than two teaspoons a day of baking soda should be taken orally. During the second and third week, no more than one teaspoon a day of baking soda should be taken orally. Juice from a lemon can also be added.

You can learn more about Dr. Simoncini's cancer treatment and read patient case files on his website at www.curenaturalcancro.com

Baking Soda is one of the most alkaline ingredients you could put into your body and so as cancer can't survive in an alkaline environment then this becomes one of your top ten foodstuffs to use to prevent or help cure cancer.

Vernon Johnston was diagnosed with class IV Aggressive Prostate Cancer that had spread to the bones. He decided to treat himself with a protocol called the "Baking Soda / Black Strap Molasses. This a bit like the Trojan Horse protocol. You can use Molasses or maple syrup. Simply mix two spoons of maple syrup with two spoons of baking soda and then eat it. Basically the cancer cells take in the sugar of the maple syrup but they also take in the baking soda which then changes the cancer cell to alkaline and therefore killing the cancer cell. Maple syrup acts like a Trojan horse to allow high pH bicarbonate of soda to enter cancer cells and shock them with a sudden surge of alkalinity to oxygenate them and lead to their demise.

After a few weeks, Vernon received a medical examination that confirmed his complete reversal of prostate and bone cancer. His 2008 story was written up in a local Anza area California newspaper, *The Valley News* in 2009.

COUNTRY DOCTOR CURES CANCER — WITH BAKING SODA & MAPLE SYRUP!

By GEORGE SANFORD/Weekly World News

ASHEVILLE, N.C. — "There's not a tumor on God's green Earth that can't be licked with a little baking soda and maple syrup!"

That's the astonishing claim of controversial folk healer Jim Kelmun — who says his simple home remedy can stop and reverse the growth of deadly cancers.

The 75-year-old former truck driver has no medical degree and authorities are demanding that he stop dispensing his "wonder drug" — or face a prison sentence.

But his loyal patients swear by the man they fondly call "Dr. Jim" — and say he's a miracle worker.

"Dr. Jim cured me of lung cancer," declares farmer Ian Rodhouse, 54. "Those other doctors told me I was a goner and had less than six months to live."

"But the doc put me on his mixture — and in a couple of months, the cancer was gone. It didn't even show up on X-rays!"

The gentle, silver-haired grandfather — who has been preparing home remedies since 1884 — says he first hit upon the miracle cure in the mid-1970s, when he was treating a family plagued by breast cancer.

"There were five sisters in the family and all of them passed away from the big C by age 50 — except one," he recalls.

"I asked if there was anything different in her diet. She told me she was partial to sip-

ping maple syrup and baking soda.

"I figured, let me try it out on some of my other patients."

Since then, "Dr. Jim" has dispensed his mixture to more than 200 patients diagnosed with terminal cancer. Amazingly, he claims that of that number, 185 lived at least 15 more years — and nearly half enjoyed a complete remission of their disease.

"You tell me about another treatment that works that good!" he demands proudly.

Medical experts are less enthusiastic. "This man is a quack, plain and simple," blasts an official at a state medical association. "We intend to see that he is arrested for practicing medicine without a license."

Until that happens, Dr. Jim vows to keep prescribing his treatment. "I'm just going to keep on saving lives."

Harry Hoxsey and his Herbal Formulae

Harry Hoxsey used what some claim to be an old American Indian herbal formula treating cancers. His great grandfather observed his favourite horse recover from cancer by eating certain flowers and weeds, which he formulated into a liquid concoction. Soon people began turning up asking for Hoxsey's formula to cure their cancer. Chicago policeman, Sgt. Thomas Manix was cured by Hoxsey's herbal treatments in three months and wound up living another 10 years. The AMA offered to buy Hoxsey's formulae but he refused and the AMA then declared war on him. The AMA did everything it could to condemn and marginalize Hoxsey's operation despite many patients healing completely or at least improving considerably who had been abandoned by mainstream medicine. The AMA took Hoxsey to court in the 1950s but they lost because the evidence was so overwhelming that he was curing people of cancer. Hoxsey's attorney managed to get the presiding judge to allow testimonies from 50 cured cancer patients who had been treated in Hoxsey clinics.

Hoxsey's was eventually forced to shut down all his clinics throughout 16 different states in 1960 and move to Tijuana, Mexico in 1963 where it now treats cancer patients at the Bio-Medical Center.

Rick Simpson and the Cannabis Oil Cure

Rick Simpson is a medical marijuana activist who has been providing people with information about the healing powers of cannabis oil medications for nearly a decade now. Rick underwent conventional treatment and surgery. The Western method of 'treating' the issue, however, it did little to benefit his condition.

Rick cured himself of a metastatic skin cancer back in 2003 after applying cannabis oil to his skin cancer and has since then devoted his life to spreading the truth of hemp oil. He has met an absurd amount of opposition and lack of support from Canadian authorities, as well as pharmaceutical companies,
