Hi Guys & Dolls...

Hear the sounds of party poppers and applause because Audiation Magazine is officially 3 years old. It's always wonderfully surreal for me to think about how far we've come and know that many all over the world enjoy reading each month. Lots of thanks to the loyal readers, fantastic supporters and our amazingly passionate and inspirational team. From this edition we introduce a natural bohemian theme to reflect our style whilst inspiring creativity and positivity through our brand. In the digital edition, you shall also notice a delicate introduction track specially made by Summer & Phil M. In this issue we look at some musical inventions including the ReAcoustic and Transparent Speaker which blend together design and necessity. Our friends at Vinyl For A Cause tell us about their developments over the last year as their project comes to life. MaHA Rocks writes us a song in a new artwork piece and we celebrate Record Store Day with a small poem. Our lyrics this month are of a dark Insomnia and upbeat Sega song Li Tourne. On Screen we look at advertisements from VO5, Smirnoff and Apple as well as the eccentric realms of Little Dragon's music video. Believe in your dreams. Mauritian artists Summer & Phil M speak of their purpose to impart hope & magic through their music to the world. Don't forget to support the Young UK Rapper Of The Year competition and check out One Night In Amsterdam, Grand Bay. We've got your festival guide, radio listings and new music from Lester Clayton, Massari, Lauren Neko, Weslee, Jarrod Dickenson and HipKnoTiC.

INSPIRED

We love people who think outside the box, here are a few innovative creations which we recently discovered.

LOVE

The World's First Intelligent Record Player

The super slick and simple design caught attention, though reminding me of a glasses case. The purpose of the LOVE is to fuse the beautiful vinyl sound with the modern day era of technology. The portable player works with any size or speed record and is controlled with your smart phone. It connects to speakers/output via 3.5mm cord, RCA Bluetooth adaptor, Bluetooth or Wifi. My favourite aspect of the LOVE is that it is said to maintain the crackles and pops of records.

ReAcoustic

Acoustically Amplified Speakers

I love everything vintage, so the gramophone-head captured my interest. The simplicity of this is just wonderful. Utilising the natural acoustics, the ReAcoustic is a lovely Walnut base a 1920s gramophone horn. Place your smart phone inside and press play. The Bluetooth version is a little more technical with the added ability to add other input sources through a 3.5mm cable and has a 20ft range for Bluetooth devices. My favourite aspect of the ReAcoustic is beauty and cleverness of the manual speaker.

GUDA

More Than Instrument

The bizarre UFO design of this instrument attracts your curiosity. The GUDA drum consists of two connected steel domes with curved reeds on the top section. Each reed creates two notes - the main note, and a note one octave higher. My favourite aspects are that every item is unique with different sounds being achieved all the time as well as having lovely detailed hand-crafted designs.

Transparent Speaker

A Rich, Premium Audio Experience

Anything transparent is a fascinating thing, the trendy look made me want to find out more. The purpose of the Transparent Speaker is to fit into any home and remain there as a sustainable piece of tech. The speaker has the ability to be taken apart & put back together by the user with ease in order replace any parts. The specs include Woofer Output: 80—100 W, Sealed Cabinet Volume: 10,2 L and Frequency Response: 35 Hz — 20 KHz ± 5 Db. It also has input options for direct cable and wireless. My favourite aspect of the Transparent Speaker is that you can see every single vibration and motion inside.

Deep in the bosom of
the gentle night

Is when I search for
the light

Pick up my pen and
start to write

I struggle, I
fight dark forces in
the clear moonlight

Without
fear

The notes filled the air,
drifting through
the clouds of darkness
leaving behind a
sweet moment of bliss.

Vinyl For A Cause

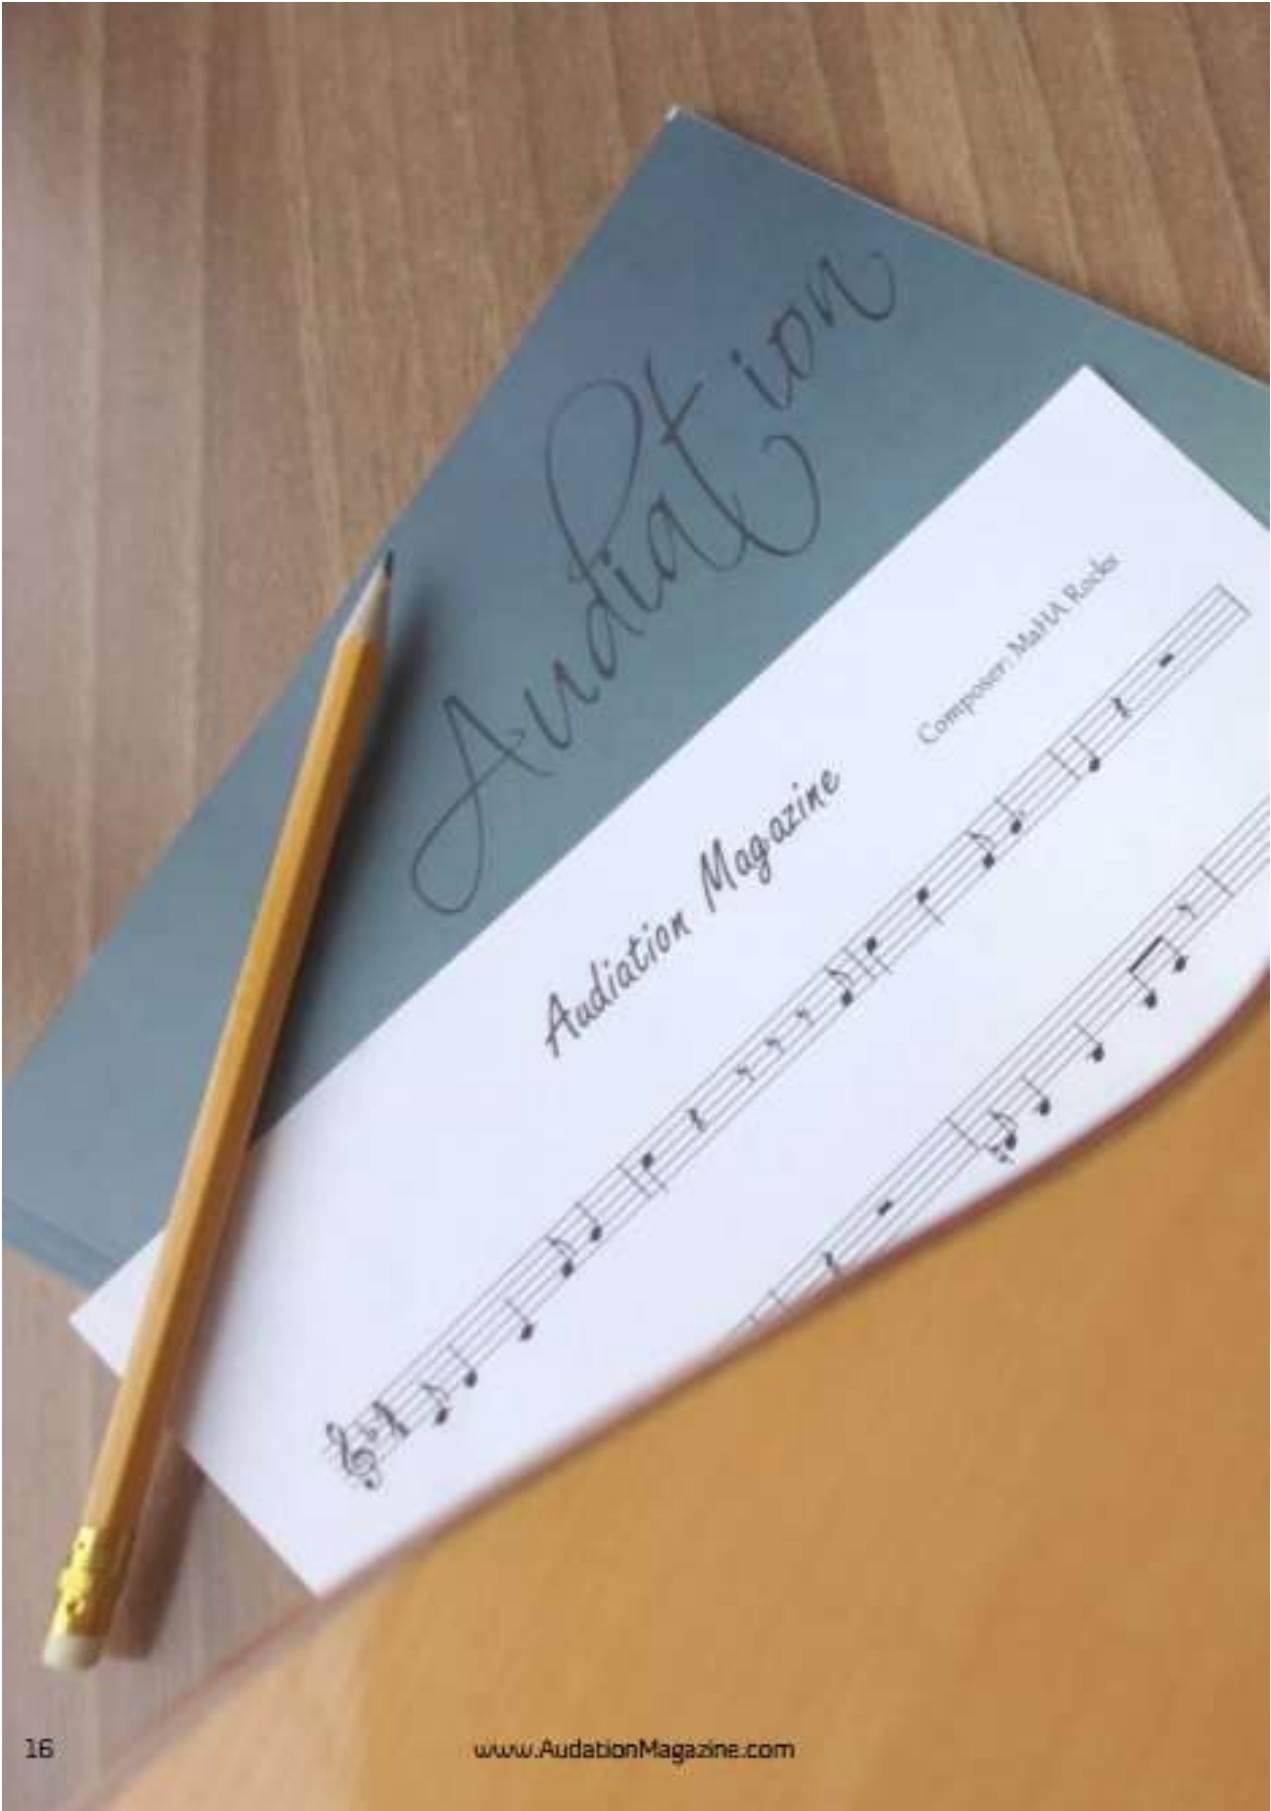

From a small seed at the ideas stage to now in full bloom of production, we've been blessed to witness Vinyl For A Cause's development from the very beginning. They are truly amazing individuals with pure hearts to aid their local city as well as breathe life into the music community. Over just a year, they have accomplished so much with their first 3 releases coming to life on vinyl and a percentage going to charities.

"Since being featured on the cover of AMO24, we have taken some big strides over the past year! It's truly gratifying what we've been able to accomplish in such a short time. We've been extremely fortunate to be in a city saturated by amazing artists, as well as where there are so many people interested in amplifying our vision for Vinyl For A Cause.

With production on our first 3 releases complete, we're now on a quest to get out in front of the community and connect with as many like minded individuals as possible. Our work is really getting fun now, and we are confident that what we've built will continue to grow. We will be selling our first three releases in our web-store and throughout Chicagoland at various festivals and events. Half of the proceeds from these releases go to VH1 Save The Music Foundation. We are also in talks with our next batch of artists and we can't wait to announce who they are and the next charities we will partner with! Follow us and stay tuned to our social media accounts for announcements/ updates and check out our website for more information on us!"
