Kudos, Students!

The first few months of 2016 were quite tough for our students. With the on-going brouhaha regarding the government scholarships, plus the decline in the value of ringgit, among other dilemmas, university students are left with no choice, but to fend for themselves during those difficult times.

But it was during those moments when we realised the resilience of the Malaysian students. Instead of feeling defeated and hopeless, they empowered themselves in their own ways. Our team in EasyUni have felt the youth power. As evident in the overwhelming response to our Internship Programme – which has received hundreds of applications for internship positions – it was a good testament on how students stood up and looked for opportunities, instead of just sitting and waiting for miracles.

While there are those who have successfully gotten through the obstacles, there are those who are still facing the hurdle. With this in mind, the team came up with stories to help students despite the difficulties they are facing and at the same time, inspire them to capacitate themselves, despite the crisis they are in now.

In this issue, we feature not just one, but two awesome students who have become inspiration to their peers in their own ways. MAHSA University student Kenneth Wong talked to us about leadership and volunteerism (pg 18), while Ménagement's Khairul Azim shared to us his story of how he became one of the youngest and brightest entrepreneurs in the country (pg 40).

To help educate students, we also feature stories on how to make money now. Who says you have to wait till you graduate to start earning money? From applying for your own Savings Account (pg 46) to how to sell products online (pg 50), this issue is filled with tips and tricks on how to save, earn, and enjoy life experiences for less.

Philosopher and famed author of the book *the Brave New World* Aldous Huxley once wrote, "Experience is not what happens to a man; it is what a man does with what happens to him." Malaysian students have made these unfortunate incidents as a room for improvement and means to finding opportunities for themselves – that they were able to survive amidst the confusing and chaotic world they live in, and that they are able to rise beyond adversity is truly remarkable. With this, I say well-done, guys!

PS: This is the first issue of the all-new EasyUni Guidebook team. I hope you will enjoy this one and learn from this – as much as I did.

Ivy Loh

Ivy is EasyUni's community executive. An eat-to-survive person, but nevertheless the slowest eater. and, she won't admit she eats a lot. By the way, she is crazy about anime and manga.

Caitlin Dragon

This KL-born, 17-year-old writer grew up moving around Southeast Asia. She is currently residing in Melbourne, Australia. She hopes to pursue Journalism as a career one day.

Ilyana Nazirah Rozaini

Ily is on her final year as a student in Universiti Teknologi MARA (UiTM) Melaka Kampus Bandaraya. This soon-to-be graduate of Bachelors in Business Administration (Honours) in International Business hails from Subang Jaya, Selangor. She is a poet, a believer, and a friend.

Jackson Kang

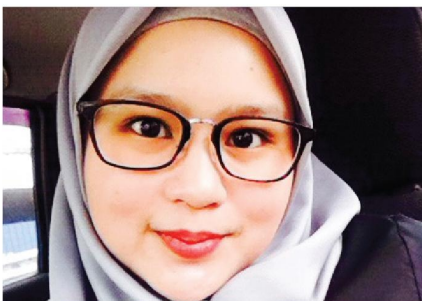

Graduating from Nanyang Academy of Fine Arts with a major in Illustration, he spent the next three years working in the Red Dot as a commercial graphic designer-dude by day and visual artist by night. That leaves him very little time for sleep. He is currently based in Johor Bahru as a freelancer and still lacks sleep.

CONTRIBUTORS

Meet the talented people we worked with in this issue

Wada Md Said

EasyUni intern Wada is a student of Kolej Poly-Tech Mara Batu Pahat (KPTMBP) in Johor. Aside from exhibiting her skills and learning more about graphic design, she loves indie music (Kyoto Protocol tops her list!), reading, and doing outdoor-sy stuff to clear her mind. She is a proud cat owner.

GT Tan

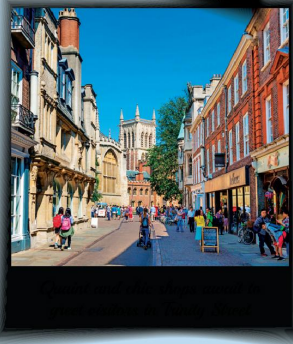

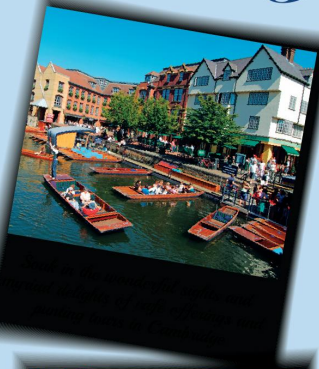

A recent graduate of Bachelor of Arts in Liberal Arts and Science from St. John's College, Santa Fe, New Mexico, USA. He is currently the managing editor of Malaysian-Student.com, an upcoming global online magazine by Malaysian students to connect all Malaysian youths together. Visit their site to read more about this initiative.

Chin Qi-Wynn

Psychology student Chin is a deep thinker. He likes to express his thoughts and ideas through writing quotes, articles and poems. Curious and easily fascinated by the surroundings and the people around him, he likes to travel and meet new people. Talk about music and sports, this young man has great level of energy and passion for both!

The Cambridge Experience with Anglia Ruskin University 3+0 Programmes

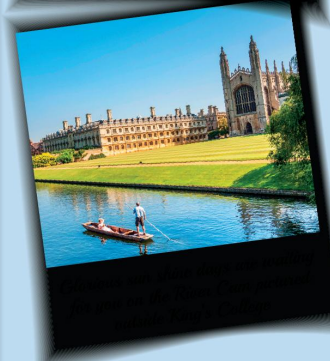

Students embarking on the 10-Day Cambridge Experience will get a chance to visit one of the largest universities in the east of England.

Here, they will walk on streets and market places where they can mingle with top academics, Nobel Prize winners and students from top universities.

Registered students will enjoy a subsidized trip (full air-fare & accommodation) to England to visit the ARU campus in Cambridge.

They will attend lectures and get to meet ARU students and academics during their study tour. Students can also develop long-lasting business contacts with industry leaders during their visit to ARU.

This visit will be an intellectually stimulating experience as students will enjoy traditional English pastime activities such as picnics by the lake or punting on the River Cam.

Beauty Hacks to Help Save A LOT!

Girls, admit it. Make-ups are just addicting! If you think you already have a big purse full of your beauty essential, maybe it's time to ditch some and maximise the ones you actually use. Don't worry, we are giving you the essential tips to save up on those purchases.

by Ivy Loh

LET THE COSMETICS MULTITASK

Be smart, girls! Go bold and experiment on what other products you can use as cosmetics.

Try using:

- Bronzer to contour your face, as well as an eyeshadow base colour
- Eyeshadow to contour, use as a highlighter, bronzer, under eye concealer, brow enhancer, eyeliner, blushers
- Lip tints as blushers

Don't forget, choose the color wisely and go for the cheapest option!

HERE ARE FEW MORE RECIPES YOU CAN DO WITH KITCHEN INGREDIENTS:

- Coconut oil/Avocado oil: moisturiser, makeup remover, frizzy hair fixer, lip balm
- Unsweetened Cocoa Powder: dry shampoo
- Toothpaste + Lemon: whiten your nails
- Honey: facial mask, hair conditioner
- Brown Sugar + Coconut oil: body/lip scrub
- Apple Cider Vinegar: toner

REVIVE DRIED UP MASCARA

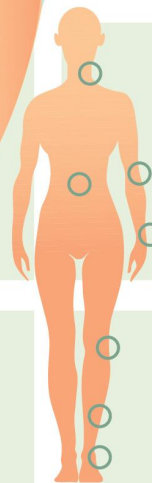

It's a rule to throw away a mascara that's used three months ago. If it dried up before the third month, dip it in a mug with hot water and let it sit. After a few minutes, your mascara is OK again!

USE CONDITIONER FOR SHAVING

Substituting shaving cream with hair conditioner not only helps save some bucks, but it also leaves your skin feeling moisturised. Repeat the process after shaving and you'll "shave" away your dead skin, leaving your legs feeling silky smooth.

USE PETROLEUM JELLY

Prolong the perfume scent by applying petroleum jelly on the desired points before spritzing it on. The occlusive ointment will help retain the fragrance longer. Here's a pulse point illustration for reference.

YOU CAN!**

Erican College comes from a rich legacy of teaching, learning and innovation. It is a member of the Erican Education Group, a comprehensive education provider founded in 1990 with the aim of providing learning with a difference. Located at a brisk 3-minute walk away from Malaysia's iconic KLCC Twin Towers, Erican College's city campus is home to students from over 41 countries. It emphasizes on creating a learning environment that is engaging and motivating while offering relevant and high demand courses taught by industry professionals for maximum learning outcomes and professional development.

Results driven education

Erican College currently offers courses in Interior Design, Graphic Design, Creative Design, Business Administration, Accountancy, Tourism, Hotel Management, Culinary Arts, Mass Communication, Psychology and more. Tailored to meet the needs of today's industries, these relevant and up-to-date programmes groom students into well-rounded individuals even as they hone their own specific talents under guided tutelage.

Facilities and services available on campus include a multimedia lab, iMac lab, photography studio, broadcasting studio, mass communication lab, material room, workshops, design galleries, learning centre, tourism mock-up room and more.

The Erican Difference

A key difference of Erican College is the added value to its study programmes. Students will find a transformational experience in its Success Programme, a unique bimonthly forum conducted personally by the enigmatic founder of the Erican Education Group, Datuk Eric Chong. Students are taken through 100 hours of success strategy learning and are coached in entrepreneurial, management, communication and personal development skills.

Students will also get a chance to learn from an exciting ensemble of the most prominent names in the country's leading industries, called the Success Icons. Among the past guest speakers are Malaysia's first astronaut Datuk Dr. Sheikh Muszaphar, Founder of Secret Recipe Dato' Steven Sim, CEO of AirAsia X Azlan Osman-Rani, Founder of Lewre International Dato' Lewre Lew, and many more. Their organisations become preferred industry partners for internship and job placement opportunities, giving students a head start on their career pathway.

The Erican brand was first established by the college's sister entity, the Erican Language Centre. With a reputation for providing high quality and specialised English language training to learners of all ages, Erican has helped more than 200,000 students improve their language skills. Erican College students will enjoy complimentary English courses and workshops, all of which would prepare them well and give them a solid edge for careers in both local and international environments.

All these programmes, worth RM15,000 in total, are complimentary for each student regardless of their field of study. This comprehensive approach to education has developed Erican College students into wholesome and highly competitive graduates capable of entering and excelling at any profession they set their minds on.

Intakes are ongoing until September. Erican scholarship funds worth RM10 million are available for students who have done well in their SPM exams or who are in need of financial assistance to pursue their tertiary education.

WHY STUDY IN France?

Bonjour! The mere mention of France speaks of high class and glamour. Just think of all the top brands such as Chanel, Dior, Cabernet Sauvignon, Merlot, Peugeot, Citroën, Brie, Roquefort, etc.

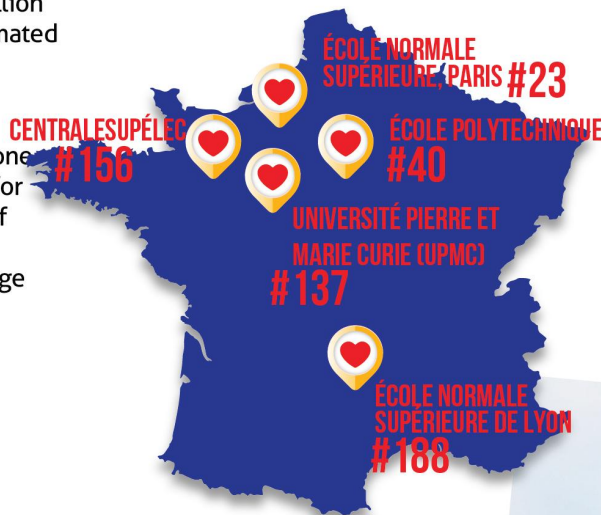

Its world famous marker, The Eiffel Tower, has attracted almost 7 million visitors per year, and has an estimated 250 million visitors since it was built in 1889.

No doubt that France made it to one of the most popular destination for international students because of such prestige and prettiness. Even their language is so subtle and beautiful that saying words in French is like a melody to the ear.

WHAT IS STUDYING THERE LIKE?

While there are many courses to pursue, Engineering and Management Studies are the top courses of choice for international students. It is preferable for students to take a French language course before studying abroad, even though there are approximately 700 English courses and available in Master's Programme.

Studying in the native language will not only add value to your resume, it will also make you fit into the culture easier. But don't worry, people in France are very helpful. For sure, your generous and friendly French friend will show you around.

WHY STUDY IN Germany?

35 Universities in Germany have made into QS World's Top 500 Universities (2015/2016). Here are the top five.

Guten Tag! We are pretty sure you've heard of Johann Sebastian Bach and Ludwig van Beethoven. Germany, the beautiful land that gave us these two great musicians, is also the fourth most popular destination among international students in the world.

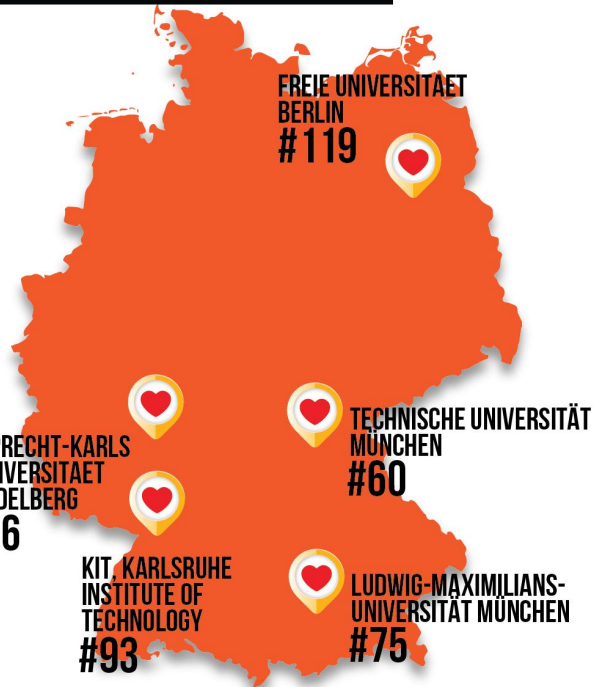

It is also well-known for its government subsidised tuition fee for international students and its highly respected university degrees. Even though most free higher education is conducted in German, there is an increasing number of renowned private institutions providing courses in English.

WHAT IS STUDYING THERE LIKE?

The Engineering, as well as Business and Management fields are more popular among international students. As the official language is German, students are required to learn the language as most of the classes are conducted in this.

Depending on the course you are taking, a proof of language proficiency is needed, TestDaF/GDS/DSD for German, IELTS/TOEFL for English.

Also, studying in an environment with more international students means higher chance of making new friends with students around the world! You and your friend can practice and learn language together to improve your skills.

MOST TAXIS IN GERMANY ARE MERCEDES.

WHAT IS STUDYING THERE LIKE?

Education is highly regarded in Japan. There is a need to prove your English or Japanese proficiency before you start studying there. Here's a tip, it is advisable for students to always bring along a notepad and a pen as the Japanese understand a lot better to written English compared if it's spoken. The top courses for international students are Business and Management, Humanities, and Engineering.

15 Universities in Japan have made it into QS World's Top 500 Universities (2015 / 2016) - shown are the five from the Top 100 list.

THERE IS ALMOST NO IMMIGRATION IN JAPAN. THE POPULATION IS 98% ETHNIC JAPANESE
