Death came to a guy and said, "My friend today is your day"
Guy:- "But i'm not ready!".
Then death said, "Well your name is the next on my list".
Guy:- "Okay why don't you take a seat and I will get you something to eat before we go?"
Then death said,"All right.."

The guy gave death some food with sleeping pills in it, death finished eating and fell into a deep sleep.
The guy took the list & removed his name from top of the list and put into the bottom of the list.

When death woke up he said to the guy, "Because you have been so very nice to me, I will start from the BOTTOM of the list.."

Moral: Whatever is written in your destiny…Will never change no matter how much you try to…! No one can Escape from their Destiny

The Lucky Husband

Santa woke up with a huge hangover after attending his company's Christmas party. He didn't even remember how he got home from the party. As bad as he as feeling, he wondered if he did something wrong.

Santa had to force himself to open his eyes, and the first thing he saw was couple of aspirins next to a glass of water on the side table. And, next to them, a single red rose! Santa sat up and saw his clothing in front of him, all clean and pressed. He looked around the room and saw that it was in perfect order, spotlessly clean. So was the rest of the house.

He took the aspirins, and cringed when he saw a huge black eye staring back at him in the bathroom mirror. Then he noticed a note hanging on the corner of the mirror written in red with little hearts on it and a kiss mark from his wife in lipstick: "Honey, breakfast is on the stove. I left early to get groceries to make you your favorite dinner tonight. I love you, darling!"

He stumbled to the kitchen and sure enough, there was hot breakfast, steaming hot coffee and the morning newspaper. His son was also at the table, eating.

Santa asked, "Son, what happened last night?"

"Well, you came home after 3 A.M, drunk and out of your mind. You fell over the coffee table and broke it, and then you puked in the hallway, and got that black eye when you ran into the door."

Confused, he asked his son, "So, why is everything in such perfect order and so clean? I have a rose, and breakfast is on the table waiting for me??"

His son replied, "Oh THAT! Mum dragged you to the bathroom to clean you up, and when she tried to take your pants off, you screamed, 'Leave me alone bitch, I'm married!'"

Lawyer and Psychologist in Library

42-15933831 [RF] © www.visualphotos.com

This goes the discussion between Lawyer and Psychologist in Library.

A guy asked a girl in a library; "Do you mind if I sit beside you"?
The girl answered with a loud voice; "I DON'T WANT TO SPEND THE NIGHT WITH YOU!".

All the students in the library started staring at the guy and he was embarrassed.

After a couple of minutes, the girl walked quietly to the guy's table and she told him "*I study psychology and I know what a man is thinking, I guess you felt embarrassed right?*"
The guy responded with a loud voice: "?3000 JUST FOR ONE NIGHT!? THAT'S TOO MUCH!"

And all the people in the library looked at the girl in shock and the guy whispered in her ears,
"*I study Law and I know how to make someone feel guilty*"

Engineers and Accountants Travel in a Train

Three engineers and three accountants are buying tickets for a train ride, and the engineers bet the accountants that they can ride the train with only one ticket between the three of them. The accountants accept, and as they all board the train the engineers all go into the bathroom together. When the conductor comes by, he knocks on the bathroom door and says, "Ticket, please!" and one of the engineers holds out the ticket for conductor. Once he's gone, all the engineers climb out. The accountants are very impressed, and vow that next time they ride the train together they will have to try this technique.

The next week, they all find themselves in line for tickets once again, and this time the engineers bet they can ride the train with zero tickets between them. The accountants accept the bet and they all board the train together. This time, all three accountants climb into the bathroom together with their one ticket. After they're inside, one of the engineers comes by, knocks on the door and says, "Ticket, please!"

6 Top Software jokes images of all time

6 Top Software jokes images of all time

1. When Normal People read software jokes

2.I told him I cant open the jar he said download and install java

3.Honey there are bugs in bed.. log this bug in defect tracking system Software

Darling.. get up quickly..
there seems to be a Bug in the bed..

what is the severity?.. Can you please log it in our defect tracking system and ask offshore team to look in to it???

4.Jessie I learned JQuery.. OMG What happened in the document ready ??
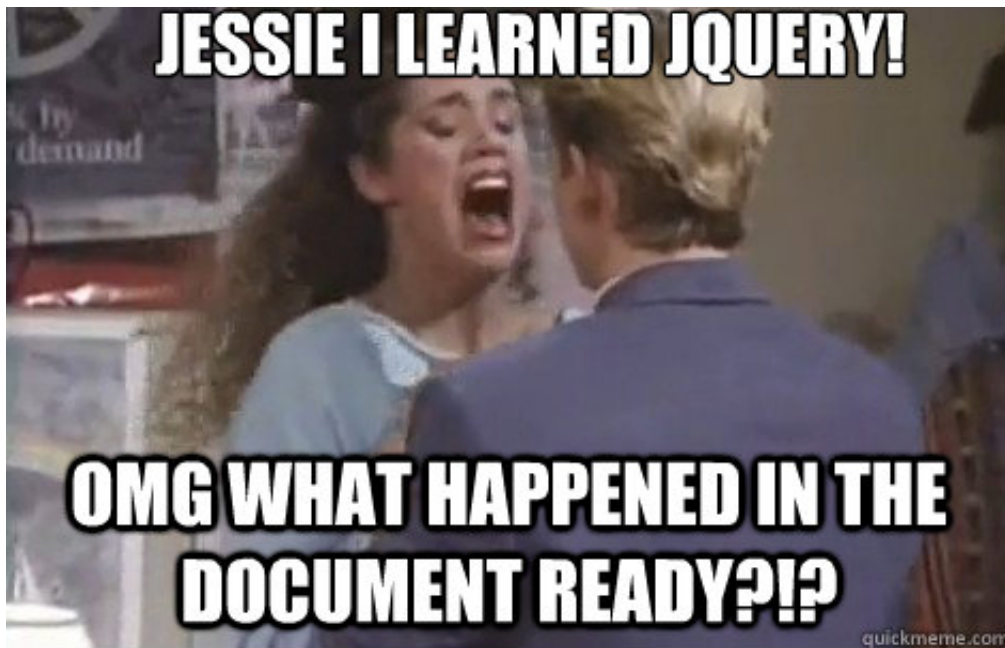

5. Copy paste twins

6. Should I remove this code or just comment it out until management changes their mind

A perfect Statistician

Three professors (a physicist, a chemist, and a statistician) are called in to see their dean. Just as they arrive the dean is called out of his office, leaving the three professors there. The professors see with alarm that there is a fire in the wastebasket.

The physicist says, "I know what to do! We must cool down the materials until their temperature is lower than the ignition temperature and then the fire will go out."

The chemist says, "No! No! I know what to do! We must cut off the supply of oxygen so that the fire will go out due to lack of one of the reactants."

While the physicist and chemist debate what course to take, they both are alarmed to see the statistician running around the room starting other fires. They both scream, "What are you doing?"

To which the statistician replies, "Trying to get an adequate sample size."

Always follow tips from Emergency Service Center

Two hunters are out in the woods of Nallamala Forest, India. One of them collapses because of restless hunting. He doesn't seem to be breathing and his eyes are glazed.

The other guy whips out his phone and calls the emergency services Center.

He gasps, "My friend seems dead! What can I do?"

The operator says "Calm down. I can help. First, let's make sure he's dead."

There is a silence, then a gun shot is heard.

Back on the phone, the guy says "OK, now what?"

How to Crack an Interview? The Layman's Way

How to Crack an Interview? The Layman's Way

Interviewer: Tell me about yourself.
Candidate: I am Rameshwar Kulkarni. I did my Tele-Communication engineering from Baban Rao Dhole-Patil Institute of Technology.

Interviewer: Baban Rao Dhole-Patil Institute of Technology? I had never heard of this college before!
Candidate: Great! Even I had not heard of it before getting an admission into it. What happened is – due to cricket world cup I scored badly in 12th. I was getting a paid seat in a good college. But my father said (I prefer to call him 'baap') – "I can't invest so much of money". No, baap actually said – "I will never waste so much of money on you". So I had to join this college. Frankly speaking this name – Baban Rao Dhole-Patil, can at the most be related to a Shetakari Mahavidyalaya.

Interviewer: Ok, ok. It seems you have taken 6 years to complete your engineering.
Candidate: Actually I tried my best to finish it in 4 years. But you know, these cricket matches and football world cup, and tennis tournaments. It is difficult to concentrate. So I flunked in 2nd and 3rd year. So in all I took $4 + 2 = 7$ years.

Interviewer: But 4+2 is 6!
Candidate: Oh, is it? You know I always had KT in maths. But I will try to keep this in mind. 4+2 is 6, good, thanks. These cricket matches really affect exams a lot. I think they should ban it.

Interviewer: Good to know that you want cricket matches to be banned.
Candidate: No no, I am talking about Exams!!

Interviewer: Ok, What is your biggest achievement in life?
Candidate: Obviously, completing my Engineering. My mom never thought I would complete it. In fact, when I flunked in 3rd year, she was looking for a job for me in EST (Bus corporation in Maharashtra) through some relative.

Interviewer: Do you have any plans of higher studies?
Candidate: He he he, are you kidding? Completing 'lower' education itself was so much of pain!!

Interviewer: Let's talk about technical stuff. On which platforms have you worked?
Candidate: Well, I work at SEEPZ, so you can say Andheri is my current platforms. Earlier I was at Vashi center. So Vashi was my platform then. As you can see I have experience of different platforms! (Vashi and Andheri are the places in Mumbai)

Interviewer: And which languages have you used?
Candidate: Marathi, Hindi, English. By the way, I can keep quiet in German, French, Russian and many other languages.

Interviewer: Why VC is better than VB?
Candidate: It is a common sense – C comes after B. So VC is a higher version than VB. I heard very soon they are coming up with a new language VD!

Interviewer: Do you know anything about Assembly Language?
Candidate: Well, I have not heard of it. But I guess, this is the language our ministers and MPs use in assembly.

Interviewer: What is your general project experience?
Candidate: My general experience about projects is – most of the times they are in pipeline!

Interviewer: Can you tell me about your current job?
Candidate: Sure, Currently I am working for Bata Info Tech ltd. Since joining BIL, I am on Bench. Before joining BIL, I used to think that Bench was another software like Windows.

Interviewer: Do you have any project management experience?
Candidate: No, but I guess it shouldn't be difficult. I know Word and Excel. I can talk a lot. I know how to dial for International phone calls and use speaker facility. And very important – I know few words like – 'Showstoppers ' , 'hot fixes', 'SEI-CMM', 'quality', 'version control', 'deadlines' , 'Customer Satisfaction' etc. Also I can blame others for my mistakes!

Interviewer: What are your expectations from our company?
Candidate: Not much.

1. I should at least get 40,000 in hand.
2. I would like to work on a live EJB project. But it should not have deadlines. I personally feel that pressure affects natural talent.
3. I believe in flexi-timings.
4. Dress Code is against basic freedom, so I would like to wear t-shirt and jeans.
5. We must have Saturday and Sunday off. I will suggest off on Wednesdays too, so as to avoid breakdown due to overwork.
6. I would like to go abroad 3 times a year on short term preferably 1-2 months) assignments. Personally I prefer US, Australia and Europe. But considering the fact that there are Olympics coming up in China in the current year, I don't mind going there in that period. As you can see I am modest and don't have many expectations. So can I assume my selection?

Interviewer: Ha ha ha ha ha ha. Thanks for your interest in our organization. In fact I was never entertained so much before and that is why I kept on asking you questions. Welcome to INFOSYS.

NB: This fellow was appointed in a newly created section 'Stress Management' in the HRD of Infosys.
