Tired Of Struggling To Make Money Online?

**Discover The Simple, Step-By-Step
Method To Make Thousands Of Dollars
Per Month, Or More, With
Affiliate Marketing!**

From: Spencer Coffman

Dear Friend,

Are you looking for a proven roadmap to make a lot of money online?

Although there are all sorts of methods that you can use to make money online, many are difficult, require a lot of time and effort, or even require a substantial monetary investment.

The big reason many people fail online is because they don't make money fast enough so they give up.

To build a REAL, online business, you need to get some BIG wins very quickly.

**The best way to do that is with affiliate
marketing!**

- You can get started with affiliate marketing as soon as today.

- You don't have to do a bunch of market research or even create your own product or service... you get paid for promoting someone else's product.
- Getting started is as easy as choosing a market and promoting it.
- Many affiliate programs pay commissions as high as 75% That means, you're often getting paid more than the product owner.
- It's easy to quickly scale up your income to \$10,000 per month or beyond!

So, if affiliate marketing is so easy, why isn't everyone making 5 or 6 figures per month or beyond?

To Succeed With Affiliate Marketing, You MUST Consider...

- Finding the right affiliate products to promote.
- How to get approved for the affiliate offers that you want to promote.
- Getting everything setup the right way without wasting time and spinning your wheels.
- How to get online traffic easily and start promoting your first affiliate product while making a profit.
- Tracking everything so you know when to scale a campaign up and take it to the next level.

Most People That Try Affiliate Marketing... Fail.

Why?

Not because it's hard, but because they try to "wing it" and just figure it all out.

In many cases, they look at free resources that may be outdated or simply don't work.

Many people that try to figure things out on their own with affiliate marketing end up losing money...

Although it's hard to put a price on **NOT** losing money and **NOT** wasting time, that's exactly what you're getting when you make the wise decision to take action today!

The Key To Success With Affiliate Marketing Is In The Details...

To see success with affiliate marketing and make the kind of money that you want to make, you need to follow a proven roadmap to online success.

You need to “plug-in” to a tried and tested method that has been used before!

Not someone that was seeing results last year or the year before...
Someone that knows what's working TODAY!

Chapter 1: The Life of an Affiliate Marketer: What to Expect

If you're looking to make a ton of money online, then the best option for the widest selection of people is undoubtedly affiliate marketing. This is the online business model with the fewest barriers to entry that anyone can learn and anyone can master. At the same time, it is potentially one of the most profitable business models you can use online and is certainly much more profitable than blogging for AdSense revenue, or some other similar market.

The fact that it is much more profitable than blogging is a point that advertisers on Facebook love to present. Chances are that you have already seen millions of advertisements for online money making schemes and 'programs'. You may not have recognized them as such, but nevertheless, they were there all along. The crazy fact is, that nine out of ten times, those ads are solely based around affiliate marketing.

You'll know these ads when you see them. It is the type of advertisement where people talk to you from their private yacht and tell you how they make a 6-figure salary in only a few hours of work each week. It is the type of ad that sounds too good to be true. Often times, they are written off as a pyramid scheme or some form of multi-level marketing.

In addition, you have probably have seen the videos of online 'billionaires' talking about their money-making systems while wearing smart suits in very pimped-out offices. They've created a 'digital empire' all on their own using affiliate marketing techniques, and now they're rich and powerful and you probably want to be them...

But is this all true? Can you really accomplish all that through affiliate marketing? Is it really that easy? Or is there more to it than that?

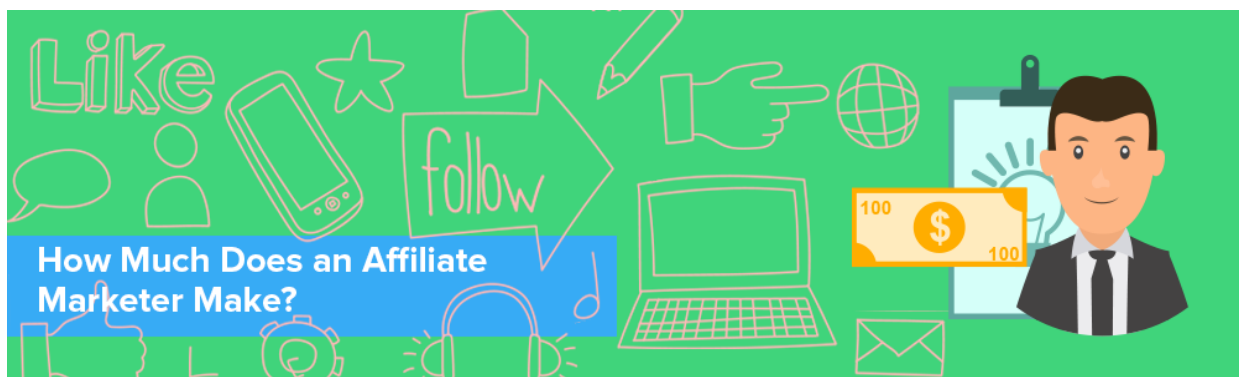

Well, I'll tell you right now, so that you don't read the whole book waiting for the answer. Unfortunately, the answer is not a simple yes or no. It is both. First off, most of the billionaires out there with their private yachts claiming that they make tons of money from working only a few hours a week are probably telling the truth. The part they leave out is how many hours they had to work before they were able to only work a few hours a week. Yes, you can make tons of money with affiliate marketing. It is a very safe and reliable business to

get into. You don't have to worry about it being a pyramid scheme or some form of multi-level marketing. It is much more than that.

Affiliate marketing is your own personal business where you earn as much, or as little, as you want. It is pretty much a commission-based job. You promote someone's product and they pay you. The more you promote, the more you make. It is that easy. So when you see all of those ads telling you that you can become rich. Remember, that you *can* become rich. But you won't "get rich quick". It will take a detailed plan, some time, and an investment. You need to be committed to success, and willing to see the big picture. Luckily, you have found this book. That means you are already dedicated and willing to put in some time and effort into building your business.

You have made a wise choice because, in this book, you are going to learn lots of valuable information that took years of time and experience. You are going to have a leg up on millions of people who are also trying out affiliate marketing. The information in this book is written based on years of trial and error in affiliate marketing. Fortunately, I have the kinks worked out, and know what works and what doesn't work, and I'm willing to share that information with you. Therefore, get ready, grab your notepad, and read on. This book is going to be your number one guide to making your affiliate marketing business a success. So read on, and good luck!

How Much Does an Affiliate Marketer Make?

First of all, let's assess the claims about earnings. We don't have to guess at this because there are real-life conventions for affiliate marketers that collect

and report data. During the 2014 Affiliate Summit, over 1,800 affiliate marketers answered a survey describing everything from their methods to their earnings.

How much were they bringing in?

Well, only 46% earned less than \$20K while 8% earned \$50K-\$100K and 12% earned \$100K+. At the very least, this shows it's certainly very possible to earn big money. (The rest were around the middle, but note that 19% elected not to answer at all.) Therefore, it is clear that you can make some money and the idea of having your own yacht is very achievable.

What's also interesting here, though, is the sheer spread of earnings. Affiliate marketing is bringing in from \$20K to \$100K and beyond, which is something that you don't find in traditional careers. The reason for this spread is because some people work harder on their affiliate marketing business than other people. It is like anything, the more practice and effort you put into it, the more you will get out of it.

However, it is a lot more than simply effort. There are many large factors that go into the reasons behind this data. So what's the big difference?

It's the *skill* of the individual.

As an affiliate marketer, you're self-employed and working alone. There's no need to 'climb the corporate ladder' or to compete for promotions. You can get to the top overnight if you have the right skills because it's *all on you*. In addition, you have to have the self-determination and the self-discipline to make it work. You need to be motivated to work hard and spend those long hours building your business. No one else is going to do it for you. This book will help you get started, and other online resources can help you get ideas. However, the implementation is all on you. You need to put the time into it because you will reap what you sow. This book is your owner's manual and guide. It isn't going to make you rich. You are going to make you rich by applying what you will learn in this book.
