INTRODUCTION

Internet Marketing has been so difficult for those of you who still not making any sales after trying so hard. Frustration has always been your closest friend when we talk about marketing.

Some may have lost a lot of money just by doing lots of promotion after promotion after promotion... and yet, still no sales.

I know your frustration because I've been there. Now, when it comes to promoting my sites, I never spend a dime to find some potential buyers. Let me repeat that, **NEVER**.

I will share it with you in a moment. :-)

And I'm also sure you have heard from most gurus said that, **Money Is In The List!**

In this short report, **I will reveal to you my secrets of gathering 1000, 2000, or even 5000 lists faster than you can ever imagine.** And guess what, it is absolutely **FREE!**

No, I'm not talking about Social Bookmarking which has made a lot of people talk about nowadays. I'm not talking about creating blogs or forum marketing either.

So what the heck is it? Drum roll please.... it's **Article Marketing!**

"WHAT?! That's your secret!"

Hold on my friend. Don't knock my head just yet. Let me explain a little bit more.

I'm not asking you to distribute your articles into any article directories. That would be troublesome and it may take a long time for your article to

be notice by the search engine. You may not get a lot of readers this way.

What you need to do is **combine** your **Article Marketing with Ezine Advertising**. That's my secret!

Instead of buying solo ads or any given ads from the Ezine Publisher (which is so damn expensive by the way), why not you write your articles and give it to them. Most Ezine Publisher websites want your articles and **they will not charge you for it**. In other words, you can advertise in their ezines for free. That's awesome, isn't it?

Lets say you want to promote a product on How To Lose Weight In 2 Weeks. All you need to do is write an article related to weight loss topic and find a weight loss ezine publisher.

Do you know that a well established ezine publisher have thousands and thousands of lists who subscribe with them? Some even have 100,000 lists. Why not you use this to your advantage?

I will show you how to do this.

But before that, I have to assume that you already have a product of your own or you have joined any affiliate program. I would also like to assume you know what is Article Marketing and Ezine Advertising. If you don't know, you can get the necessary information just by searching it on the Internet.

In my report, I will explain in a straightforward manner so you can start implementing my technique immediately.

Alright, with that said, lets get started right now!

STEP 1 - WRITING AN ARTICLE

This is maybe the toughest part if you hate or never write an article before. If you don't like writing, you might want to purchase a **Private Label Right** articles at

[Article Underground](#)

Or you may already have a lot of PLR articles inside your notebook that you have purchased several months ago that you never use. Why not use that articles and rewrite it a little bit so the content will be yours and original.

Honestly, I'm suck at writing articles as well. In order to solve this problem, I've bought an article writing software produced by Jonathan Teng and Calvin Woon called [Content Infinity](#) .

I like this software very much because I can easily create 10 - 20 articles per day on a topic that I don't even know about. The creators of this software are so genius since all you need to do is write your desire keyword or topic and input how many words you want for your article. The next thing you know, the software have produce you with an excellent articles. Of course, you need to change or rewrite the content a little to make it sound interesting. This is way better than writing an article yourself from start. I really recommend this software for you. You may not need to purchase it right away since it is will cost you some money, but once you have the budget, you might want to consider it to speed up your work.
