## **How To Make Money Online Without Owning A Product**

Yes it's true, I make money online without owning my own product to sell...

I will show you how I do it, just do what I'm doing and

success will come your way. Just as it did for me...

## **Here is what I do**

I'm an affiliate of 20 plus products. I get paid commission checks monthly, some I get paid instantly... I'm paid anywhere from 40% to 60% from each sell I make...

The reason I sell 20 plus products is because, you must have a multiple streams of income coming in at all times. If you don't you want make it online...

I'm always placing ads, articles and I also publish a very successful Newsletter called: **Raptor Marketing**.

I do 4 things to generate money online and they are:

1. I read and study a lot of reports, articles and ebooks about marketing online written by other Internet marketers.
2. I create my own ebooks and also I am an affiliate of 20 products. Multiple streams of online income coming in at all times.
3. I write articles and publish my own Newsletter.
4. I'm always placing ads continuously, FREE and paid advertising. Everywhere online and offline.

The reason you need multiple streams of income is because if one slows down the others will carry you through. You'll always have money coming in. These four

steps that I outlined above, is what finally put me over the top. And it can do the same for you.

## **If You Sold One Product**

If you sold one product a day for \$47 and you pocket 100% of the profit. In one month you would make only \$1457. That would not be enough to pay your bills and live comfortably. You must make more than that to retire financially secure... So, the answer to this problem is to create multiple streams of income. Income coming in at all times, 24/7 365 days per year... **This is the only sure fire way to make money while you sleep...**

Multiple streams of income will take care of you...

I receive emails from people asking, (Why am I not receiving a lot of orders all the time? I receive some days a lot of orders and some days none.)

The answer to this question is, In my 12 years in the marketing business and as with any business, there is going to be highs and lows. So except them and move on. But always continue placing ads at all times. Never, Never give up and quit because you haven't become rich overnight yet. It is a continuing step-by-step process every day. Just keep focused on becoming successful. And it will happen in time!!!

So back to retiring successfully, that is why I offer 20 plus products.

I have found that placing my ads in **ezines** gives me the

best return on my investment...

The best [ezines](#) I've found to place my ads in are, the ones that pays their readers the read their [ezines](#)... And I also rotate my ads that I place in these ezines. I let each ad run only two weeks at a time. The reason I do this because If I leave an ad running to long, people see it to many times and they'll start to ignore it.

The only [ezines](#) that gets read are the ones that pays their readers to read them, all the others fall by the way side.

**So, that is why I place my ads in [ezines](#) that pays their readers to read them. I know without a shadow of a doubt that my ads will get read...**

At my website <http://tinyurl.com/rds3p> I offer FREE Quality Articles for people to read. This makes my website sticky. A lot of my Articles that I write comes with my affiliate links in side to the products that I promote so I will get paid a commission check each month...

**Why I chose to name my website [Marketing With Excellence](#) ? Because that is what it's all about, Making Money Online...**

**[Marketing With Excellence](#)**

You are probably wondering how do I manage 20 different affiliate links at once? Well it's simple. I have all my affiliate links and log in Id's and passwords saved on a Word document on my computer and also have a back up

copy saved on a CD and Memory stick... I just click and I'm there at all the information that I need. And I can keep these files updated as needed. That is how simple all this is for me...

I can access this information anywhere I go on my laptop. I'm always on top of my online business, and this spells success for me...

**My website is set up to keep people reading all the information available...**

### **Writing Articles**

What I do is write short Articles. I don't use my products name in my articles. I let my readers choose what they think about the product before they hear the name of it. I just write about the benefits of using my product, then I enter a link to my website.

This style of writing is called pre-selling.
