### **Introduction**

Affiliate programs are the quickest way to make money on the Internet. And they can make you great money - in some cases around a million dollars a year! Here you'll see how affiliate programs work, including an example based on the popular all hidden secrets affiliate program. You will also discover the method I take to generate sales.

### **What is an Affiliate Program?**

Thousands of companies have put up websites where people can buy their products and services. However, those websites are only useful if they get visitors. No visitors equals no customers. To solve this, many companies have created affiliate programs. The idea is that you attract customers to the company's website. In return, they pay you an affiliate fee for each purchase made by customers you referred. Depending on the product, that fee can be up to 50% of the sales price! Later on you'll see exactly how to attract customers.

Joining an affiliate program is easy and always free. First, select one you like. Then complete a simple form with your details (so the company knows where to send your checks). In return, they give you a unique affiliate ID.

### **Making money with an affiliate program**

All you have to do now is to get people to visit a special website address. That address contains your unique affiliate ID, so the company's systems can work out that someone was sent by you, rather than by another affiliate. That way, you get proper credit for each sale.

To help you attract visitors, most companies give you colorful banner ads. Banner ads ("banners" for short) are those rectangular images you see everywhere on the Internet. Later you'll see how you can put your banner on thousands of pages.

Some companies also give you hints and tips on how to attract visitors. But because they are not in the business of Internet marketing, these tend not to amount too much. You really need specialized sources such as this e-book to make it work.

You can do this from most countries. You don't have to live in the United States to make money with an affiliate program. Most companies will be happy to send you your checks wherever you live. You simply bring those checks to your local bank, which will convert them to your local currency. Lots of Europeans, Canadians and Australians are doing very well.

**How I Made over \$1,000 With One Article In Under 3 Weeks!**

This is a very quick step, but it will show you exactly how I earned over one thousand dollar in the first few weeks since I started promoting affiliate programs.

I started off promoting an affiliate program. I then wrote articles based on the affiliate programs and put a direct links to them in my article. Mind you I did not have a web site or anything sophisticated like that :)

I submitted my article to hundreds of ezine publishers using my **Article Submitter Software** and sent them out in one day.

**[Click Here To Get Your "Article Submitter" For Only US\\$27.95 Now!](#)**

These articles produced over \$1300 in sales in three weeks. In my article by-line I also placed my autoresponder link so they could sign up for my free course. With these names, which were just over 500, I gave them the chance to buy another product from me that I happened to buy the resell rights to. I earned another \$1500 from these people as well in that initial 3 or 4 week period.

So that's just a bit over \$2800 in sales in 4 weeks work. I was also getting checks every month for doing nothing as other people began promoting my articles with out me asking them. I also ended up getting my name blasted all over the search engine's as people who published my articles put them on their web sites.

I also signed up quite a lot of people under me, who are now selling these products and I'm still earning commission from their hard work. I love 2-tier affiliate programs, they bring you in just a little bit extra every month for nothing with no permanent web site.

That's it. It cost me nothing to set up and the advertising was free, so it was all PURE PROFIT. My only investment is only for my Article Submitter Software and I do the same thing now every month without fail.

While what I made in that month is small compared to other affiliates, it goes to show you how putting a little hard work in your first month online can bring you amazing profits. The longer you keep promoting your affiliate programs and trying new methods, you will constantly see increases every month in your commissions.

Good Luck!
