I regularly win books, CD's, DVD's, movie tickets. I sell them on eBay.

This month I also got free coffee, lasagne, cream and champagne.

This last year my sister won tickets for a spa treatment (3 days !), a holiday for her and her husband to Morocco (plane, hotel, food : everything paid for), a holiday for 4 in France, a money prize (+/- 2000 US \$), tickets for Eurodisney Paris...

We won't get rich taking surveys, but we get paid in cash and win nice stuff !
Excellent Reasons To Take Paid Surveys !

Paid Surveys, Focus Groups and Mystery Shopping

Paid surveys and focus groups are a little known way for individuals to make money for free. There are businesses ranging from Fortune 500 companies to advertising agencies and market research organizations who look for the opinions of regular consumers and business professionals for their product lines or customers. What is great is that a good number of them pay cash to the participants and it is free of charge to join these types of studies. Paid surveys are generally given online.

Focus groups are closely observed

groups of participants and mostly pay lots more than surveys.

Mystery shopping assignments: you are paid to shop at the mall or to eat at restaurants! All you need to do is filling out a questionnaire on your customer experience. It's a fun job that pays real cash !

Anyone can join up with these organizations that provide survey opportunities, and people with specialized business professional backgrounds such as IT, business management, law, accounting, etc. are ideal for this line of research. Average consumers who drink coffee, taste ice cream, buy power tools or electronic products, watch television or own a certain type of car can benefit from numerous surveys and focus groups. The possibilities for different types of surveys being offered are as endless as there are ways to create and market products to the public. The Internet is your best source of finding places to join for either one of these kinds of surveys, free of cost. Some businesses advertise to do all the footwork for you and will charge a fee for doing it. So it's a good idea to learn as much as possible on these services in order to understand what you will receive if you decide to pay for the information.

Here's a list of companies :

These paid surveys are mostly given over the Internet. With this method you will receive an e-mail most of the time with links to the survey being given. Because they are given over the Internet, it will take generally between 2 to 4 weeks for your check to arrive either through the mail or by an online payment solution like PayPal. Signing up with as many survey organizations as you can find can result in a stream of invitations. When filling out their online forms, give as much information about yourself and your background to maximize your chances. And if you are married, have your spouse sign up if they are interested. Sometimes if one doesn't qualify for a survey, the other may! Plus when filling out the forms for signing up, if they ask if you can be contacted by phone for opportunities, say yes. This can help to expose you to higher paying focus groups.

A focus group survey is generally performed with a number of participants consisting from 5 to 50 people that meet in a designated place to give a more in-depth opinion on tasting food, driving SUV's, drinking certain brands of water or the like. Sometimes they pay cash on the spot after you are done. One can sign up online with some of the focus groups that have websites. Remember that most of the time they call you at home, so if they do call take them up on the offer. You will enjoy it and get paid too!

From time to time you will also receive an invitation for a 1-2 hours focus group.

Top performers that stick with it for long and work full time can make up to \$3000 per month!

For all these reasons, your opinion is in high demand and you can make a difference when you participate in paid surveys.

3. It is Fun

Participating in online paid surveys isn't a boring job requesting every day to complete a routine task.

With focus groups, you will be invited to spend some time with a small group of people to discuss a product, a service, a brand or any other marketing concept. The meeting is typically held in pleasant surroundings and refreshments are served. During this group session there is interplay of thoughts and ideas to get insights on attitudes and perceptions held by consumers. These discussions are very animated and very interesting. That's real fun and great money!

Frequently Asked Questions about Making Money with Online Surveys

1.) Can I really get paid just for taking surveys online?

Absolutely, surveys are an excellent way to make money online from the comfort of your own home. There are over 7 million companies that actively survey consumers to find the best way to promote their products. These companies are willing to pay you to give your opinion. Your opinion allows them to get in touch with consumers and their views, habits, and opinions.

2.) What is the difference between a survey and a focus group? Can I participate in both?

A survey is normally a page or two of questions. Surveys can range from 10 to 30 questions. They are normally short and take little time to fill out. Focus groups on the other hand are normally longer forms that can sometimes follow you for a few days about a particular subject. They might ask you a series of questions, receive your response and then ask you another series of questions. Because of this they pay much more. You can participate in surveys, focus groups or both depending on the time you have available.

3.) Can I do this from any computer? Do I need to download anything?

There is nothing to download. You do not need any special computer or operating system. You simply log in and find surveys. This can be done from any computer, at any time. You can work from anywhere that you can establish an internet connection. This gives you the freedom to work from a variety of locations, including coffee shops

4.) How many surveys can I take? How much income can I earn?

You can take as many surveys as you want. The amount of surveys taken, and income earned will depend on how much time and effort you put into the surveys. Average monthly income will depend on each individual, and their effort put forth. Fill out more surveys and you will get paid more money it is as simple as that. A person who checks their email often and responds to surveys invitations quickly, or logs into the members area to see what new surveys are available often will obviously make more than someone who only logs in one a week. Income is solely dependent on an individual's effort and attention to survey offers. The only thing that will limit you is certain survey companies will only let you participate if you come from a certain country.

5.) How am I paid and how often? Am I sent a check by postal mail?

The company you will be doing the survey for will pay you by company check sent by postal mail. Some companies will allow you to be paid by Paypal online. Paypal is a online payment center which you can use only if you choose. NO, you do not have to accept PayPal for paychecks. You can specify you only want payment sent postal mail by company check. Most paychecks are sent twice monthly .. some will pay once a month.
