Introduction

This is an in-depth guide that reveals the secret to successfully attracting love and manifesting a specific person.

It's time to write your own love story and start living it!

Alright, so you want to manifest a specific person. You've got your eye on a special someone who you can't stop thinking about. *You're crushing hard!*

This person makes your heart go pitter-patter. And you know with every fiber of your being that you're meant to be with them. Your mind is absolutely made up and no one else is going to cut it.

It HAS to be this person.

Well, then my love-struck friend, this guide is your golden ticket to happily ever after with the prince or princess of your choice.

So, buckle up and get ready. Because that special someone you've been pining over is about to fall six ways to Sunday, head over heels in love with you!

Think of me as your fairy godmother, here to share with you how to attract love into your life with the Law of Attraction. *And more specifically, how to manifest love with your specific person.*

Before we get started bibbidi bobbidi booing your wishes into reality with our magic wand, let's answer the question that led you here to this article in the first place.

Is it really possible to manifest love with a specific person? Your ex, a crush, a friend you'd like to turn into your lover, or maybe someone that doesn't even know you exist?

YES! You Can Absolutely Manifest A Specific Person!

First let me say that yes, it's absolutely 100% possible to manifest your desired person. Because **ALL THINGS ARE ABSOLUTELY POSSIBLE. PERIOD.**

Manifesting anything is easy. It's our natural-born, God-given gift and we're doing it all the time. *Every second of every day.*

But I'm not going to lie to you.

If you have a lot of self-sabotaging beliefs lurking in your subconscious, or find it hard to maintain high-vibrational emotions, there may be a bit of work you need to do before you're able to successfully manifest exactly what you want.

You'll need to commit yourself daily to developing new habits.

But once you clean up your vibration, clear out old limiting beliefs, and follow the steps outlined in this article, you'll be able to manifest instantly.

Nothing in This Universe Is Coincidence

The universe operates on a set of laws. Laws that everything must follow. *And when you understand how those laws work, choosing your reality and what you attract into it becomes a very practical concept.*

Because nothing in this universe is coincidence. And so, there's nothing woo-woo about attracting a specific person into your life.

When you stop to think about how reality works, it makes perfect sense.

We just never knew how to play the game before. How to use these universal laws to our advantage. No one ever sat us down and gave us a rule book.

Until now...

It's been hidden from us for far too long. And it's time you took back your power and start designing the reality you actually want...including who you want in it.

So, if you follow these steps, the person you have your eye on will have no choice but to be magnetically drawn to you. *It's the law.*

No More Hope Manifesting

This is not about giving you false promises of overnight manifestations or a gimmicky technique.

I'm all about lasting results.

So, what I can promise you is **no more failed or half-manifestations**. I'm going to show you how to successfully and accurately manifest a loving relationship (*perhaps even marriage, if that's what you want*) with the love of your life.

But you have to do the work.

If that's what you're looking for, then stick with me. Because in this article, we're going deep guys!

First, we'll cover all the necessary prep work you need to do before we even begin the 7-step process of manifesting your dream partner. And ask some hard-hitting questions like...

Are you really ready to invite your perfect partner into your life?

If so, we'll move on to the next section where I'll teach you step-by-step how to change your mindset, eliminate limiting beliefs that may be blocking your desire, properly set your intention, and become the perfect match to the love you desire.

Finally, I'll reveal how to connect with the power of creation, properly visualize your desire for the most accurate results, and ignore your current reality until your desired relationship with your SP materializes before your very eyes.

And to make sure I answer all your questions, I've even included how to remove any third parties and how to look for signs that your manifestation is on its way.

Over time, manifesting a desire won't be such a lengthy process. It'll be as easy as setting an intention, relaxing into a meditative state, visualizing your desired end scene a few times...and *voilà!*

Just like in the movies, you'll be aimlessly walking down the street or into a café and the love of your life will magically appear before you, sweep you off your feet, and fall head over heels in love with you.

But before you can manifest your 'happily ever after', we've got some work to do!

How to Use the Law of Attraction to Manifest Love

The Science Behind the Law of Attraction

Quantum mechanics research shows us that the act of observing reality creates it. Focusing on something draws it to you and causes it to appear in your reality.

Here's a quick summary of how quantum physics and the law of attraction relate:

- Quantum physics is the study of the smallest particles of energy.
- Physicists have discovered that energy particles behave differently when being observed (*when we focus our attention on them*).
- Everything in the universe is connected according to the theory of quantum entanglement, which states that two particles act as one despite the distance that separates them. This physical phenomenon shows us all things in this world are linked together. *One thing can't be influenced without influencing the other, even if separated by great distances.*
- The Law of Attraction states that we attract what we focus on and what matches our vibration.

- And so if energy behaves differently when observed and everything is connected, then the vibrational frequency of your thoughts (which are also energy) has the power to change your environment. *In other words, you create what shows up in your reality with your thoughts or whatever you focus on.*

So, what did you learn here today? That the Law of Attraction (*the universal principle of magnetism*) is actually very real and has the power to change your life.

Now let's look at HOW it operates.

How the Law of Attraction Works

According to one of the 12 universal laws, the Law of Energy, everything in this universe is energy. EVERYTHING.

Every plant, animal, person, object, all the way down to the smallest particle moves and vibrates at a particular frequency.

Even your thoughts and emotions are energy.

And through the Law of Attraction, which simply states that 'like attracts like', *you're radiating a signal (or frequency) that in turn attracts anything that matches that signal.*

We're like magnets attracting whatever we give our energy, focus, and attention to — *whether it's negative or positive.*

The universe is neutral. It's only operating in accordance with these laws.

So, it's not punishing you.

If life isn't going the way you'd hoped and your love life has been more tragic and less happily-ever-after, then it's because you've been unconsciously attracting low-vibrational circumstances into your life through negative thoughts, limiting beliefs, and lower-level emotions.

Now, let's take a deeper look at how your vibrational frequency is affecting your manifestation and how to raise it.

What's Your Vibrational Frequency?

Let's face it, we can experience a wide range of emotions on any given day. So, our frequency is constantly changing in response to our thoughts and emotions.

When you feel good, you vibrate at a higher frequency. And when you feel bad, you vibrate at a lower frequency. *Seems pretty simple, right?*

Well, yes and no.

You can't just flip a switch and be in a good mood all the time, thinking the fake smile you've plastered on your face will raise your frequency and instantly attract your dream life.

It's a little bit more complicated than that.

Because it's our dominant emotional vibration, where we find ourselves most of the time, that determines what we attract into our life.

And that, my friends, is determined by the mountain of limiting beliefs, memories, emotional triggers (all your baggage) that you've unconsciously accumulated over the course of your lifetime.

Let's take a look at the **Emotional Vibrational Scale** (also known as the scale of consciousness), developed by **Dr. David Hawkins**, *a psychiatrist and widely known authority within the fields of consciousness research.*

This chart can give you an incredibly deep understanding of yourself and the world around you so you can begin to deliberately attract more quality experiences into your life.

You Must Be An Energetic Match To Your Desire

Why is this important?

Because to manifest anything you have to energetically match the frequency of it.

And if your desire is to attract love (*whether with a specific person or in general*), you're going to have to radiate the frequency of love.

And that may be leaps and bounds from where you are right now.

But until you match the frequency of your SP (get on their wavelength), you CAN NOT manifest a lasting, loving relationship with them. *You will only repel them.*

So, how do you increase your energetic vibration to match that of love?

In the simplest terms, your mind, body, and emotions all need to be in full alignment with your desire.

And what many people fail to tell you about manifesting a specific person is that if you're not in alignment with your desire, then no amount of LOA techniques are going to make your desire materialize into your reality.

Let's be honest. The only reason you actually want to attract this specific person is because you believe that in the having of this relationship with them, you'll finally be truly happy.

But in order to 'have' them, you have to be truly happy first. *It won't work any other way.*

Now you're probably asking yourself, 'How do I get into alignment with my desire?'

Well, let me explain how this works.

How To Get In Alignment With Your Desire

Whether there's a huge energetic gap between you and your desire, or just a small hop, skip, and a jump to where you want to be, you're reading this article because you have your eye on a specific person that you'd like to manifest a relationship with.

And if you're not in a loving relationship with your SP already, then there is something blocking you.

The first step is to figure out what that is. (*Oooh, and it could be a whole bag of negative ninnies holding you back!*)

Then we're going to have to rip apart the unruly jungle you've got growing in your subconscious, pull out all the weeds, and plant a whole new garden.

Get ready to dive deep! *And grab a cute pair of gardening gloves while you're at it.*

'Cause it's about to get a whole lot of messy up in here...and I am not even close to being done with the whole 'garden' metaphor.

Ok, so if you want to become a match for your desire, you're going to have to change your current thoughts, beliefs, and habits.
