INTRODUCTION

GPT, or "Get Paid To", sites can be found all over the Internet. At one point or another, you have probably received junk mail encouraging you to complete tasks online - such as surveys - and get paid.

That being said, is it really all junk mail? The answer is no. Many of these sites offer valid ways to bring in extra income with very little work. So, how do you know if a GPT site is legitimate? Research is the key solution. Take the time to find out as much information as possible about a particular site. Read the details noted on the site itself, paying close attention to any rules, regulations, or terms of service.

One of the easiest ways to determine the validity of a site is by searching the name of the site, along with the word "scam", in Google. If other people have posted complaints about a specific site, they will show up in your search results. Be sure to read the details of each posting to make sure the site was at the source of the problem, not the customer. Sites that have received just a couple of complaints may still present great opportunities.

Various sites can be found online that give information about dishonest sites, such as RipOffReport.com and Scam.com. You can also check the database found at WhoIs.net to search the contact information and location of a site. Be wary of any site that appears to give false information.

Once your list of reliable sites (like a few of the ones I mention in this e-book) starts to grow, you'll be able to sit back and reap the rewards.

HOW IT WORKS

Get-Paid-To websites are the middlemen between advertisers and you, the end-user or consumer. Advertisers pay these companies to generate leads and attract potential customers onto their services.

These sites will pass a portion of what they earn to you when you patronize or visit the advertisers.

Once you sign up as a member of a GPT site, you will be given access to a variety of offers from many different companies. These offers can range from 30-day trial offers to signing up for new internet or cable service.

The information contained within the following pages can help you save money on products you plan to purchase or assist in making some extra spending cash or gas money. Either way, the info in this e-book will inform you *how* GPT sites work and *why* they work. It is basically a win-win situation for the customers and the companies; they take advantage of inexpensive advertising and you get a few bucks out of the deal.

This is not a scam and it is not a “get rich quick” scheme. You will make money – guaranteed – if you follow the steps outlined in this e-book.

WHO CAN BENEFIT FROM GPT SITES?

Absolutely anyone can use GPT sites to make extra money. All you need is a computer, a few basic online skills, and an e-mail address. GPT opportunities are easy and don't take up much time – unless you want them to.

Using GPT sites to bring in additional income is a great option for stay-at-home parents and home-based business owners. These kinds of tasks can be completed at your own pace, and you only need to accept offers that interest you. Best of all, the more time you spend working with GPT sites, the better your income will be.

GPT sites make the most of the Internet by allowing companies to advertise in a personal, effective way. You, the consumer, can benefit from this working relationship in many ways, from making money to gaining rewards to sharing your newfound knowledge with friends and family.

The list of possibilities is endless. GPT sites may offer product trials, or you can get paid to read e-mails, complete surveys and post blog entries. Most sites offer great referral incentives, allowing you to earn extra credit simply by spreading the word.

Whether you are shopping for a new cash source, already work at home, or have a full-time job outside of the home and could use some supplemental income, you can profit from the unique opportunities offered through GPT sites.

GETTING STARTED

You can earn cash and prizes by trying companies' products, taking surveys, signing up for trial offers, shopping, playing games, and by referring friends to do the same thing.

Large companies often spend millions of dollars on TV and radio ads. GPT sites allow them to directly pay customers to try their products, which mutually benefits both parties.

The Internet has given companies a broader audience and a cheaper venue for landing their products into the hands of the customers, a more effective method of advertising than sight or sound. Wouldn't you rather get paid to try a product than to be bombarded by TV ads that interrupt the shows you love to watch? GPT sites have teamed up with some of the biggest companies in the world to make this possible.

You will get \$38 just for signing up on the websites that I mention in the back of this guide. You can easily make an additional \$50 or more in just a few hours by doing one or two offers on each site. I have made over \$100 in an hour by completing just 5 offers and it will take you less than 10 minutes to find 5 offers that add up to \$100. I will show you how to find offers in the next few sections of this Ebook.

On the next page you will be provided with tips and tricks to maximize your profits using GPT sites.

TIPS TO HELP YOU MAXIMIZE YOUR PROFIT THROUGH TRIAL OFFERS!

1. Register for a free email account through Yahoo or Gmail, in addition to your personal email account, because you will receive a lot of advertisements. However, if you're not interested after you've finished trying the product, the delete key works fine. Many other sites offer free email accounts as well.
2. **Never** give out your private phone number. The best alternative option is to set up online virtual voicemail with its own phone number. Use that number when signing up for offers. For more information, search "virtual voice mail " in Google.
3. In order to pay the shipping cost, you can use a credit or debit card. However, I would recommend picking up a disposable prepaid card for a couple of dollars, in order to avoid giving out your regular credit card number online. You can get a Virtual Visa or Master card at [Green Dot®](#), [EPassporte](#), or your local drug or grocery store.
4. Stay organized. Keep track of each offer you try, the amount you will be paid, and the date to cancel, so that additional products won't be sent out to you. Track this information using Excel (or a Word doc if you don't have Excel), like I do.

Here is an example:

Offer name	Date	Profit after shipping cost	Cancel/Decide to keep by
Face wash	7/01	\$18.05	8/1

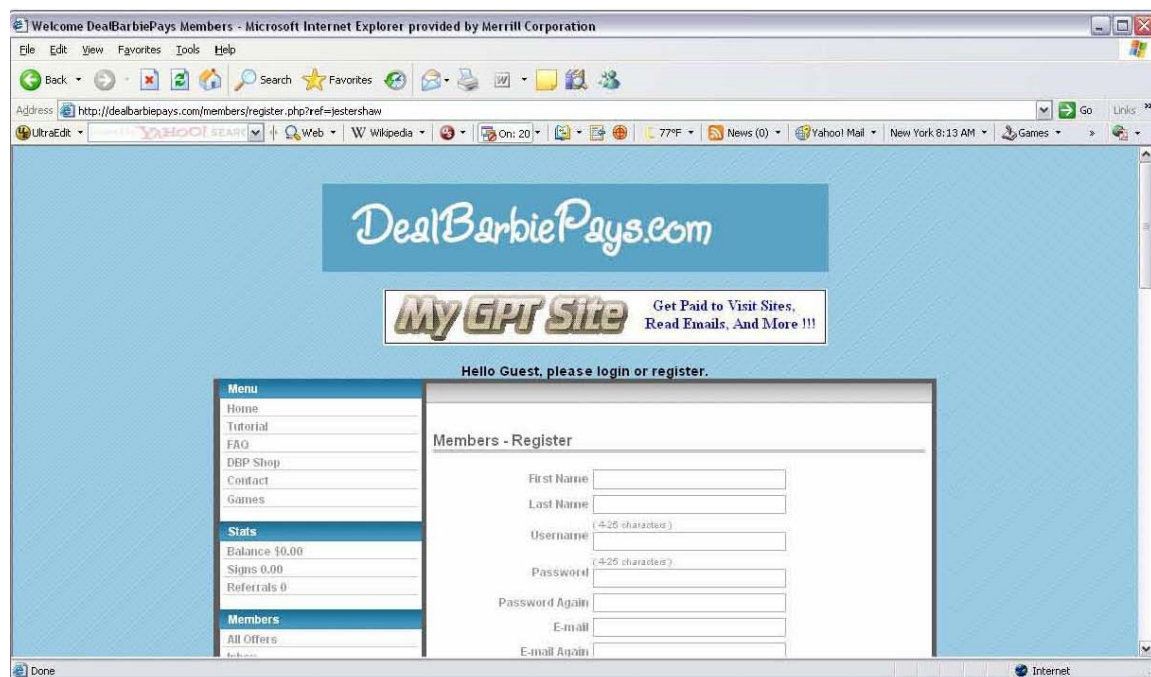

5. Download "C Cleaner", a freeware system optimization and privacy tool. It removes unused files from your system -allowing Windows to run faster and freeing up valuable hard disk space. It also cleans traces of your online activities such as your Internet history. You can download it at <http://www.ccleaner.com/>.
6. Read the guide to getting credit. It will help you understand how to get "offer" credit for every offer you complete!

The rest of the e-book will give you details about where to get started. I will also provide a list of great GPT sites that I have used to make thousands of dollars.

SITE REGISTRATION

I will take you through the steps to sign up for a site and complete your first offer.

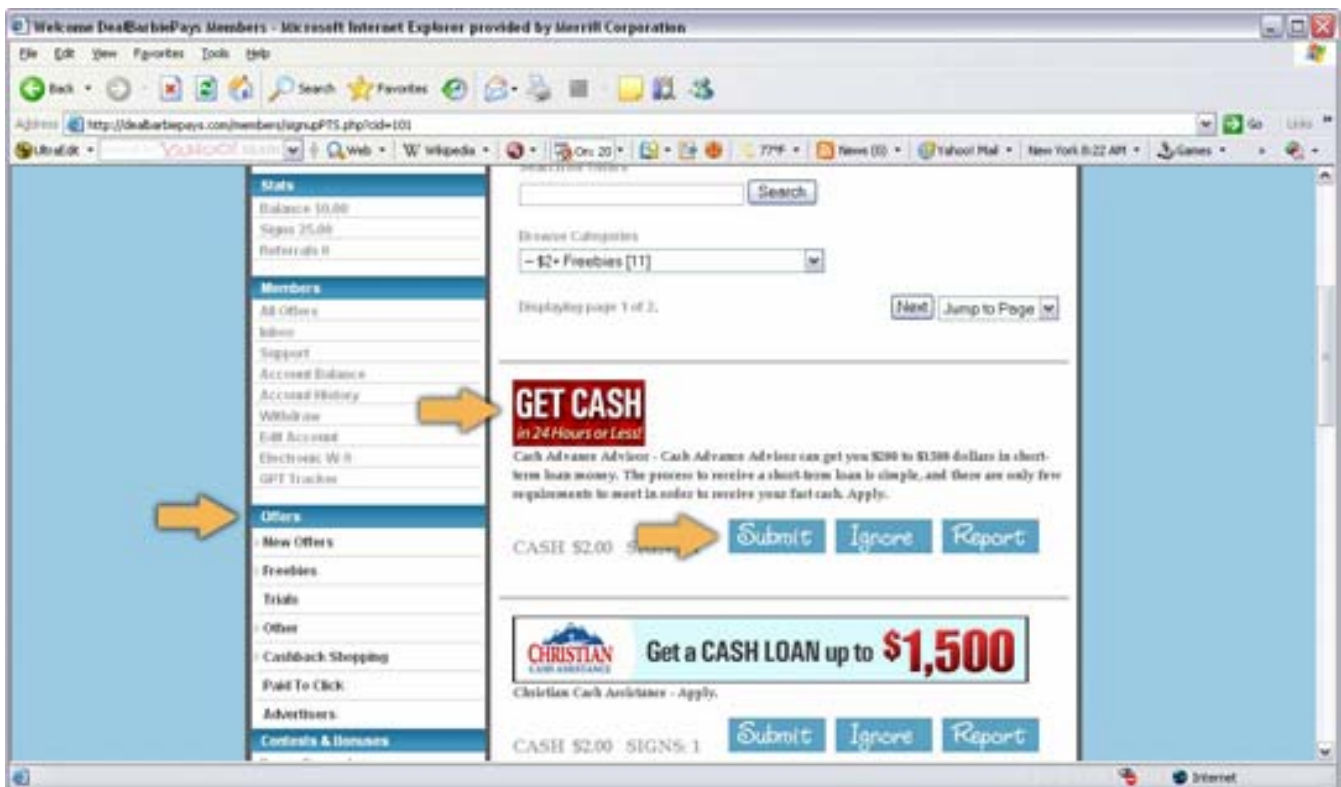

You first need to choose the site you plan to use. I will use dealbarbiepays.com for this tutorial. Click on the link, which will bring you to the "Register" page of the site.

Complete all the required information and click "Register". The site will track your IP address, so you will only be able to do offers and sign on to the site from that IP address - this protects the safety of both you and the site. In the past, individuals have tried to sign up for the same offers more than once by using different computers and false information.

Once you have finished, you will receive an email to verify your account. Click the link provided in the body of the message to gain access to the site and begin making money.

COMPLETING YOUR FIRST OFFER

In the screenshot above, you will see an arrow pointing to the offers. In this section I picked "Freebies" as the category. I am now going to choose the "Get Cash" offer. Click on the banner and it will take you to a different website where you will complete the offer. You will then return to the original offers page and click the "Submit" button. After it clears, \$2.00 will be added to your account.

Once you have accumulated at least \$20 in your account you can request a payout (may differ between GPT sites). If you request a withdrawal by the last day of the month, your payment will be issued by the 20th of the next month.

For example, if you earn \$20 and request a payment on July 31st, your payment will be sent out to you by August 20th.

Make sure you read the "Guide to Getting Credit" before you move on- it's great for making sure that you get the credit you deserve from the offers that you complete.

TRIAL OFFERS

If you choose to sign up for a company's trial offer, it usually works like this:

A company will give you a sample to try for free (we will use "Face Wash" as an example). You pay \$1.95 to have the face wash shipped to you, and if you love it, the company will ship you the face wash every 30 days and charge you \$19.95.

You can go to their website, send an email, or give them a call and tell them that it's not something you want to continue to receive. As long as you have done so within the time frame they gave you for the trial offer, you will not have to pay another dime.

So, you have paid the \$1.95 for shipping of the product and the offer is a thirty-day trial. The company pays \$20.00 for the offer and if you don't like the product, you can return it before the 30 days - but you keep the \$20.00. You had the chance to try the face wash and profited \$18.05 for doing so. I am sure you are already beginning to understand how doing 5-6 trial offers per month could easily bring in an extra \$100.00.

GUIDE TO GETTING CREDIT

1. ALWAYS enable cookies before logging in to any GPT site.
2. Right before you log in to a site, ALWAYS clear your cookies and temporary internet files! The C Cleaner is great for this!
3. ALWAYS keep your cookie acceptance and/or privacy settings at a bare minimum! All tracking for offers is done using cookies, so if a site is not allowed to set a cookie by your browser, it will result in no credit.

Before I login to a GPT site, I go to my tool bar and select Tools-Internet Options—Privacy and slide each bar as low as possible to accept all cookies, click Apply, then OK. Once I am done with the GPT site, I restore the previous settings back to medium until I am ready to return to a GPT site.

4. WAIT on the confirmation page for AT LEAST 3-5 minutes. If you close this window too early, it will not provide enough time for the tracking to work. Exiting out of the page after a few minutes allows time for it to fully load, and will help you get credit.

I HAVE LISTED MY FAVOURITE GPT SITES BELOW:

These are tested and among the best GPT sites on the Web.

Click on the links or the banners provided.

1. DealBarbiePays.com

2. Cashcrate.com

3. Squishycash.com

4. Treasuretroopers.com

5. Swatcash.com

6. Hits4pay.com

7. Cashtroops.com

8. Instantprofitz

9. TheDragonsGold.com

10. PocketChange.com

11. Truefreemoney.com

I have personally used these sites with great success!

Go to each website I have listed and sign up as a member. Some websites will give you incentive to recruit more members to the site. It is not mandatory to recruit to make money on these sites. It is just the way GPT sites advertise and it is not indicative of a scam or a requirement that you must draft your friends and family (unless you want them to make a few extra bucks).

Thank You for previewing this eBook

You can read the full version of this eBook in different formats:

- HTML (Free /Available to everyone)
- PDF / TXT (Available to V.I.P. members. Free Standard members can access up to 5 PDF/TXT eBooks per month each month)
- Epub & Mobipocket (Exclusive to V.I.P. members)

To download this full book, simply select the format you desire below
