She Will Strike Back

By- Nilesh Gore.

One touch of the nature makes the whole world wise, aware & Alert.

This is how nature is? Current imbalanced Rainy & water level Situation in many parts of INDIA is an fallout of our past contribution to the nature. Every action has Reaction, we behaved very badly with nature & in response nature is doing the same.

Nature won't takes away anything form us, it only gives. But the process of giving imbalances as we imbalance the nature's property.

Nature has given us the opportunity to **THINK ABOUT TREES AS WE DO WITH TECHNOLOGIES & INDUSTRIES.**

Technologies will not help us to balance the nature. Think about the situation after 25 or 50 or 100 years, **if we are coping with technologies & forgetting the nature & environment; our child will definitely have to suffer to save life.**

Behind nature's every reaction there's a human action & Assaults. We are only the responsible for that action; An action which will affects all living beings.

Do not contribute your sympathy towards nature & to the victims of Calamity, curse or misfortune; as a consequence, contribute & serve your duty, responsibility & humanity for the Nature.

Only me can't do anything, It requires N number of nature's children. **More we exploit nature, More our options are reduced, until we have only one: to fight for survival.**

Take the nature's opportunity, make it balance..... Future will be green. Take care of nature & nature will take care of you. If you poison the Nature,
