*A lustful seduction...let there be no more assumptions*

*I can whisper...*

*Whisper...*

*Just because I grew up...you think I forgot...I'll make it hot*

*Like picking the last rose from the bush like a soft squeeze on your tush*

*Whisper...*

*Just because my pen done stop...you think I forgot...I'll make you hot*

*Like a cherry on the lips or the soft breath from your kiss*

*Whisper...*

*Just because I'm family don't mean a damn thing*

*So many libretto's so grand leaving audiences to stand*

*Intertwined in candle light under moon light*

*Making love till dawn's light...away do I whisk her*

*Let Me Whisper...*

[Arouma Raza]

Beneath shimmering moonlight, our first traded glance

With unheard whispers flowing, two souls start to dance

Two bodies rise and fall entwined with the bells starting chime

Please send me a signal or flash a sign, let me know that you are only mine

A need in me begin to rise when hands meet skin with heavy sighs

Beautiful arms that couldn't grace like leaving a man breathless in embrace

When fingers find that sanctified place, I feel that flush on my face

With every heartbeat thrashing in my chest, I gasp and moan with a ragged breath

When our lips fuse our souls, faster and faster our heart explodes

As we reach our final peak, ride the wave that let us weak

*Whisper...*

Your name on my lips to feel your need with mine to kiss

*Whisper...*

With every contact that made you frozen putting you in a spell to swear that you are chosen

*Whisper...*

My love in your ears with every pleasing scream for the world to hear

I'm no longer insecure as I know it's true

I'm where I belong and that is with you

*Let Me Whisper...*

*On the shoulders of giants walking in women like clients*

*Disses like knives taking stabs at tyrants*

*A lustful seduction you think this writer knows nothing*

*Money equals love and love is like money*

*From girls that make bands all from a lap dance*

*Who better to understand*

*Just because I'm an anarchist don't make me new to this*

*That heart in your body keeps urning me into your silk sheets*

*With a body which treats, keep you tingling to your feet*

*From a love that sill speaks*

*A lustful seduction...finger to the lips, shhhhh...no more interruptions*

*Whisper...*

*Kiss away your pain under a pattern of rain*

*Whisper...*

*Rose petals on the sheets to a song on repeat*

*Two Souls that meet joined by this heart that beats*

*Let Me Whisper...*

[Muhammad Adil Javaid]

Hey honey, stare at me

That instinct force me to fall inside...just come a little closer

Let me whisper in your ear, you...me...and the lonely night

The heart stops for a while as you smile

Slowly approaching to you so close

Oh, the aroma makes me crazy

*Whisper...*

I wanna drown in your eyes

To feel you till last breath

*Whisper...*

Your flaunting hairs touching me

Having sensation of killing romance

I silently grab you in my arms

*Let Me Whisper...*

*It was me you left...both parts of me*

*Both parts of my being...my heart and soul*

Two legacies that make the best of me, legacies you left me  
A heavenly father or a hellish mother  
Who will coincide...who will concede...in defeat can one truly succeed  
Which has the offer I need  
You left me broken in the rain...you left me to embrace the pain  
Commodious as the Burj Khalifa  
Stand tall in the face of a devil that may call  
In the darkness of eternity as infinite as your grip that clings for me  
Is what you left me...a whisper from the best of me

Whisper...

My image of you...the imagination of the moment  
Wider than the sky...wider than all outside  
My urning for you uncaged inside

Whisper...

Let me comfort those hands that are shaking  
Repair that heart that is breaking  
Vain is the name to cure all of your pain

Let Me Whisper...

In time watch me shine...the past is the past you can't rewind  
So you don't think I'm a poet, but I know it  
My mighty pen is your happy dagger have you ascend Jacob's Ladder  
When this pen is released do it find thy strength  
With a bite like a Death Adder descend down your own Jacob's Ladder

*All in like a backer...Mad like a hatter  
My tongue and my word play...plays Wicked Games  
Hold you like a Jewel...no Foolish Games  
From hands gripped on keg stand ends  
To the whispering making your hair stand on end  
How can I resist her...let me whisper*

*Whisper...*

*Mesmerized by your eyes...experience paradise between a pair of thighs*

*Whisper...*

*All problems stopped when I gaze at your mountain top*

*A glass of wine, nothing but time for you and I*

*That's sounding hot...hot like a whisper*

*Let Me Whisper...*

[Ellis G. Tilley]

The feel of your satin skin flicks my leg  
Your inviting touch tenderly teasing my whirling pulse  
Velvet curls entice me to my knees to beg  
For a love so blessed; an intense, pleasurable impulse  
My mind dances with fantasies...your curves of beauty before me  
Cheeks the color of rose and an intimacy aglow like sunflowers

A pearlescent radiation between bodies and a kiss so feathery

*Whisper...*

Who delicately dropped the twinkle in your eye

A trickle of lust shall set my body ablaze

A dreamy daze will cloud my amazed gaze with your body upon me

*Whisper...*

Did you know your allure alights a spark within

Your silky silhouette mesmerizing under starlight

Lost...excited in the maze of your body in the night

I will love you into the sunrise

*Whisper...*

Is it often you leave strangers starry eyed

I wander, spiritually, your intricate soul, and onto you I bestow

A romance as breath-taking as a blooming floral meadow

For you I give anything

*Let Me Whisper...*

*As a poltergeist comes in my life...touch thy hand on the shore sand*

*The clench of your hand...love is the grip...the hand of my love*

*Not from above from a phantom memory of love*

*But that memory that walked with me, breathed with me, enveloped me*

*By the shade did it dare love me, shimmering off my face*

*Whisper...*

*A love that set free...born to fly free...to live care free*

*Enduring more than personal qualities*

*Whisper...*

*Resistant to your touch...can't resist much*

*The committal of my kiss...makes the skin ripple...it obeys little*

*Let Me Whisper...*

[Eleanor Poirier]

Red, Yellow, Blue, White

My heart beats in time with the strobes as your fingers graze my thigh

The air sticky and sweet...I press my lips to your slick skin

And try to taste your heat, do you like my perfume

*Whisper...*

I felt time slow when you entered the room

Dragging on till I get to see your clothes strewn

*Whisper...*

Your name into your neck

Stifling spontaneous pleasure

For the sake of the neighbors

*Let Me Whisper...*

*I trudged deep streams to chase these dreams*

*Drowning from the water I wade these seas*

*I chased gold with no pen, pyrite in my hand*

*Fool's gold at the ideas I've shown*

*Lament at the misjudged images of the writer I know*

*The writer I am...I ran too fast with ideas with no hush*

*Stumbled...fumbled...believe me, I'll recover*

*I'm that good Ol' boy with a good Ol' toy*

*Noticed skills first day, and I've grown this way don't fall for my ploy*

*I can still wet tongues that leave the skin numb*

*And I mean that as a writer in more ways than one*

*Glisten...deep breath whistling to leave your desire insisting*

*Why do I kiss so slow...is it that little moan*

*A memory to keep us company when we're all alone*

*Whisper...*

*Grin as my fingertips slid between them hips*

*But we'll keep it shuttle I think...wink...you know what I mean*

*Real low key, a desert to make you scream like peaches and cream*

*Whisper...*

*So just because I've made mistakes or taken breaks  
Don't forget about the writer I am...the art I make or ideas I create*

*Let Me Whisper...*

*Under star light's mist do we taste true love's kiss  
Let this tingle persist...a touch I can't resist...the lost tales not missed  
On our moment to reminisce relieve the stress that tries to coexist  
My life or my dream to tame the writer in me, my life's eternal conflict  
This is my round 2...Rocky 2...your luv'in' is not the only title I pursue  
And just like the sequels you never know when I'm through  
Write with a bite, I can go all night belief in this pen of might  
Cling to my dreams that make you cling to your sheets...so tight  
Fight back the pleasure by that lip you bite  
Compliment your figure...I kissed her and she whimpered  
She loves it when I whisper...so let me*

*Whisper...*

*When I taste your oasis you're left in a comatose stasis  
Helpless to the shuddering that keeps your butterflies fluttering*

*Whisper...*

*Let the feelings I chase lead to a sweet embrace  
That smile on your face that lights my days clears the dark like sun rays*

*Let Me Whisper...*

*Grip your stars before they fade*

*Life in light through dark can't fly*

*I will not play tug of war with your heart*

*It's what I struggled for without you capsized on life's shore*

*Where parents can cuddle and lovers can snuggle*

*Instead of struggled*

*Trouble in the making, I can stop one heart from breaking...is that vain*

*You to have and me to hold, you feel so alone...no woman is an island*

*No need to wander lonely as a cloud in me your better half been found*

*My voice filled her...gripped her with one whisper...*

*Whisper...*

*Two naughty paths on your body to leave you unraveled*

*I took the one least traveled*

*Due to your persistence and that has made all the difference*

*Whisper...*

*This little death escapes in one little breath*

*this piece of me remember only this of me*

*Let Me Whisper...*

[Alina Cosmina Ciocan]

My sultry voice, an erotic song tickling your ear

A dance, before the melody will disappear

Out of all your curves, your smile's the best

The hot flesh of mine warming your cold skin

Two fingers gripping your chin, let the dance begin

*Whisper...*

Let me be the one that dances through your dreams

My fingers painfully trickling down your throat

Suffocating, making your mind float

*Whisper...*

Your clothes, crumpled on my bedroom floor

Our lips melted together like mountain snow

Touched by the sun, you let yourself flow
