

Love and Hope

By

Malin Hallgren

Siira

A journey inside of my soul

Unify

Unify

All of the world

In the name of love

Hunger after freedom

Hunger for peace

Starvation in the world

War and panic

Everywhere

I long for brothers

And sisters

To be unified

With the Lord

It's been so long

Since the earth had peace

I want to see

The smile of the children

Arguments and torture

Going by

In an endless stream

Unify

Unify

I want us all to be

We have wasted

So much time

Now we must come together

To mend it all

Magical child

Coming from the heavens

With love you came

To give us hope

For the future

You are only an ordinary child

But you carry

The spiritual heritage

From my side

You will be of great help

When you have grown up

To talk the voice of peace

I'm so proud

Feeling joy

That I'm not alone

In this world

Working for love

In our hearts

Welcome child

To me

Magnifying my soul

To spread love

Over the earth

Magnifying my heart

To reach you

Whom I love

Sun of creation

Hitting my mind

Making me speak

About my life

All the good things

In my life

Takes me a step further

My goal is to reach out

Give thoughts of exploration

Tell me what world do we want?

We must decide that now

World in flames

Lies and illusions

We have to listen to

The wake-up call

To find divinity inside

To grow forever in wisdom

Spirit of love

Surrounding us

Giving us hope to live

Beautiful

Embracing love

Keeping us alive

Through long winters

Until the warm spring comes

No one can see who you are God

But I know that you are a she

A female fighting for all of us

Trying to open up our eyes

To walk the way of love

Even when the road is hard

To the feet of the soul

We are many around the world

And we love you

Whole heartedly

Family

What would I be

Without you?

Just nothing

Blood is thicker

Than water

And I can't live alone

On my own

That could be scary

When bad times

Are coming

When enemies

Knocks on my door

You are there

To support me

To do the right choice

Now that I met you
Is the greatest thing
That has happened to me

I was so lonely
It ate me the emptiness
Every day
I felt lost

Surround me
Hold me
Take my soul away
To a distant place
Where only you and me
Can live

Let us build
A life of our own
And never get parted
Because you
Is my true soul mate

Our love is sealed
By our souls

Fragile

Oh fragile love

So easy to hold

So easy to loose

You were mine yesterday

So easy you flew

Out of my life

Fragile

Oh fragile love

So easy to break

A heart into pain

Mysterious love

I wonder where you went

Another woman you met

Fragile

Oh fragile love

I set you free

But my friend you always be

Love is free
Has its own will
Through us humans
It's wonderful to
Feel its light

But love is not
For us to tie it down
Don't try to say
You own a soul
Can't keep a person
Like a bird in a cage

Love is warm
Full of colours
If you lock me in
Swallow the key
I would starve and die

I would disappear
Like a dead corpse
Only the ashes
Should remain

As a warning to you
Don't kill love

You should stand there

All alone

And I'd be gone

For good

A tone is coming

From the core of the earth

Mother earth

Was calling my name

Told me who I was

Through another person

It's a blessing to read

Feels like a soft feather

To my soul

Rejuvenating me

To be whole again

Mysterious being

Keeping us together

How long will it take

Until we understand

That we are slowly

Killing you

Spirit soul

Please stay

With us

We who knows you

Loves you

Depth

I want your depth

To compare it with my own

Deepest corner of my soul

Here and now

You can feel the depth

From my soul

Listen to its deepest tone

I'm alive

And I've been living forever

Thousands of years

In this universe

Feel its pulse

From the Milky Way

From every corner

Comes new life

We have not seen yet

It will one day

Be life from many planets

And look up

We are never more alone

Thank you

All my friends

From earlier lifetimes

You have helped me through trouble

Helped me to find hope

In the darkest of nights

I couldn't have made it

Without you

I had my challenges

To go through

And you led the way

Sometimes we argued

But we got to the point

Love heals everything

If we just give it time

And I hope that you agree

To take my hand

Please forgive me

What I did wrong

Because what really drives me

Is pure love

Sending you love

Through all incarnations

Just human

But I'm never giving in

I want to do the right thing

Lost in time

Lost children of the humans

Insecure working for the day

Coping but falling into selfish traps

I'm stuck in my own

Troubles too

Sometimes

Which I got to solve

Other people are playing

They are so sure of themselves

But they are not

I get inside in the darkness

Of my soul

I take the grip of my personality

I do not fear

I am listening to the child

Inside of me

**Bittersweet is life
And it wants to wake us up
To shake us
Where am I going
In the right direction?**

**Pure love
My delight
Friends forever
Angels surrounds us
With their mighty touch**

**When we melt together
We two will be as one**

**I want to stay
The rest of my life
Diamonds crowns us
On my finger**

**I stick to your wisdom
Telling me the truth
I don't want to listen to fairytales
I listen to reality**

**Wise and steady
Leading us right
Knows what is needed
Without you
I had no compass at all
You are our protector
With your shield and sword**

**You are my lighthouse
Leading the way
To the future
In every step I take
Without you I would be lost
I couldn't find my way
In the fog
My man
You are everything to me**

Intimacy

You know

The deepest corner

Of my soul

Intimacy

I trust you

Never leave me behind

And whisper

Softly lies

You are my

True soul mate

In this life time

Deep communion

I feel for you

Deep deep communion

I drink our holy grail

Full of secret wine

You are the only one

I want to share it with

Only with you

I feel the sunshine

From our souls

With you

I feel peace and safety

Our sacred love

Fills my soul

With blood from the heart

Humility

We got to learn it

Through our challenges

In life

Someone comes

Knocks us down

And we got to listen

Or we will never learn

What we need to know

Vulnerability

Is in you and me

We are not confident

In ourselves

Always showing up our smiles

Covering up

Our misbehaving

We are so incomplete

Please let us be complete
