

Sexnovella's Poetical Love

Act of love

I am not alone

The empty hands speaks with silence

They are longing

They caress you and me

The wave of desire grows

It moves gently into the river of desire

The neck gets stretched out when we are kissing

The lips vibrates with my answer

You will take me

I will take you

All the obstacles are gone

I want to give me to you

Enchant and bewitch you

Enjoy your love

Our bodies are carried away to a world of dreams

It is so simple

It is so complex

I want you to love me

I want to love you

Acts of love

At first their lips met

Gentle like a shy wing of a butterfly

The sweet glimpse of desire turned to pure desperation

It is there

In that single breath

With the hunger of a predator they tore their clothes off

They drank each other's pouring fluids

Breathed each other's steaming lust

She became he

He became she

They felt where their bodies ended and started

They almost melted together skin to skin

They shared their fragrance

They shared their taste

They shared their urge

They found the rhythm of their wild dance without words

He was leading

She was leading

They both eagerly followed it with excitement

Their faces got changed by the crescendo

The eyes with naked purity met the eyes of the storm

Their lips met in the trembling rhythm of the aftershock

At first gentle like a shy wing of a butterfly

Then bursting like euphoric hearts

The smiling lips met

His lips to her lips

Her naked body against his

His calming breath against her forehead

Her breath against his chest

Her peaceful hand held his erection

His peaceful hands held her warm breasts

As if life was playing

I try to remember

I remember the tracks of my lips on your body

The silence when the time stopped

When we had loved

I memorized it with my fingers

I caressed your face

I kissed you lightly when I really wanted to

I nibbled you playfully when I really wanted to

I straddled you

I wanted you to do more

Yes, I remember

I remember everything we said

I remember all I thought

I remember each line I saw around your eyes when you lay there with closed eyes

I remember the little happy smile around your lips

I remember all the words and dreams

I remember how it felt to smile together with you

I am confidential

My lips remembers

My skin remembers

My tongue remembers

Darling I forget nothing

But I really want more

I really wish for more playful nibbling

I want to straddle you

I want to tempt you

As if life was playing

Again and again

Another reality

There are moments There everything means nothing

There nothing is right then everything is

There the fingers are hungry and the tongues licks insatiable

The kisses are filled with longing and thirst

The fire of desire burns inside the bodies with endless trust

The fear of sweet lust gives blindness

This attracted the hidden playfulness from the secret of the darkness

The naked bodies blotted the truth

The laughter is mixed with the roar

The boundaries are gone

There, between the breaths

A piece of the universe

There, in another reality

We love each other

Eye shadows that carries our fire

In my eyes you found me

The spirits danced in my hearts halls of fire

When my mouth met your mouth

A flaming tongue played against your skin

My hands touched you

Caresses like a thousand butterfly wings

You saw how my soul ignored the glowing well

I dared to fall for your deep eyes

There we became one with our longing

That was what we were for a moment of life

I breathe you

The hand on my belly makes me feel good

In every breath I breathe you

I listen to the heartbeat and hear you

In each pulsing motion, you touch me

We look into each other's eyes to see the love between you and me

In each eye there is a shine that glitters only for you

I part my lips to be able to taste you

I fill my memories with lust

In the everyday monotony you make me burn like a fire

It burns like a lava river inside me

I breathe you into me

The hand on my stomach loves me

I miss you

My body feels empty

It is untouched

Without your hands

I miss your hand in my hair

Your whispering lips that tickles on my throat

I feel the smile of happiness in my heart

That feeling fills my body

When you hug me with your arms

I want to fall for this safe intoxication

I want to surrender myself

Only you can find the keys to my trust

You are my code

I get my life from your oasis

My body is quiet

It feels cold without you

I miss the moment when our lips met

The hot fire from our kisses

I want to feel how my heart roars

I want to get burned by the lava river

When you excite me

I want to feel how much you miss me

I need you

Only you have this absolute power

You are my seducer

You are my lover

My body feels cold

Nothing has changed

I miss you

I miss your hands everywhere

Your tongue against my steaming skin

I want to feel your raw love

I want to get sucked into passionate lust

When we please each other

I want to feel the growing lust

Together with you

Only you can excite all my senses

You are my partner

You are my passionate mate

I miss you

I miss the juices that we drink from each other

I miss everything

You give me liberation

In the Goddess's kingdom

I walk naked to the calm lake in the moonlight

I dance to the Goddess's beautiful vocals

You seduce me in my dreams

I stand in a bouquet of silver light

A light for every dream about you

They spread out like the rose petals

They glitter on the longing shiny water

The foggy dew caresses all of my body

The elves meadow is wet at night

The absence of you makes me cry tears of agony

I collect all the scents and impressions of the night with my senses

The love elixir drips out from my body when I breathe

I fill my thirsty soul with lust and greed

My mind gets intoxicated by the Goddess's power

I wake up with an embrace of emptiness caused by a noise

My body rests with loneliness and silence

I let the dream begin by closing my eyes

A night of Eden instead of the emotional desert

I get carried away back to the Goddess's realm

I want you

I want to feel your tongue taste my warm skin

Your hand decided to search for my hottest place

The breath increased with glowing lust

I want to feel how our bodies gets drawn together like a magnet

My neck has the impulse to bend for your lips

The soft concrete of the brute equality

I want to know how to control my flow

I want to lose any shred of desire for self-control

I want to get intoxicated by our combined bodies smells

I want to hear our voices scream out the climax

I want to hear all the forbidden words

I want to liberate our hearts with the innermost truth

I want to see right into your naked when you have reached your climax

I want to feel how the waves pulsates inside our bodies

I want to feel your familiar breath against my neck

If I were the night

If my days were quiet nights

I would fly among the stars in the sky at night

I would attract the forest fairies with the fog of ecstasy

I would dance naked to the seducing music

I would feel how the silence gives my skin shivers

My tears sweeps like a comforting hand around my heart

My body rests in silence

I let my mind free to find the fire in the desire

Somewhere in the universe that I cannot reach without you

It is like the mother that give loving care and lets her children live their own lives

If I were the night

A part of me will always be free

In a dream

There everything is allowed

You forget the unwanted

You belong to the desire

In a dream

There everything is allowed

Shout out my truth

Live my truth

Love my truth

In a dream

There everything is allowed

I am with you

In every of your kisses

Everytime you kiss me

I want to kiss you again

It is like the autumn air

It is moist and wet

You intoxicate me with your essence

The sound of your movement

The movement of your breasts

The movement of your hips

The movement of your trembling lips

Your longing embraces and your naked skin

It is like the wild dance of fairies

You fill my body with desire

The waves from the oceans brings our bodies together

The moonlight of a thousand nights

They show us the way through the dark

Your hands cannot get enough of me

Everytime you make love to me

I want to make love to you again

Inconsiderate

You asked me what I thought about

I never think

I always feel

I want to remember

Nothing is forever

My feelings are the tattoos of my soul

I carry them through my life

I love to feel your tongue against my skin

I love to feel your lips

I love to feel your hands everywhere

The thought ruins the present's memory on the soul

The thought realizes the unreal

The thought creates the wrong emotions

I never think

I always feel

I want to remember

Nothing is forever

Innocence

When he took her hand in his hand

He pulled his thumb over her lips

He breathed her for the first time

When he leaned over her face

His lips met her lips while their hands explored each other's bodies

She kissed him for the first time

When he put her down in the grass

He pressed himself against her shaking body

She wanted him for the first time

When he looked into her eyes

Their bodies united

He loved her for the first time

They breathed each other's scents

They let the ecstasy come and get witnessed by the sky

They smiled for the first time

It should always be so

My lips kissed your lips

Our bodies got connected with each other
