Not only is the *declassification of secret information of military and technological advancements* to the public prohibited in *New World Order*, but also *declassification of the secret history* is a great problem for those who want to write a *nonfiction and valuable book* like this.

Here it is, what you don't know! Where you loved to be and what you loved to learn! Your brain likes to learn something new, it is hungry to devour that kind of knowledge that is not like the ready-to-serve products that a mass marketing company would have you ingest! The Wall Street walnut, the wan and wine wandering walrus waltzing wants wanton war warble!

I remember that it was many month ago when I informed the *US President* that I like to write a *book*. *I had written to him that the subject of my book would be relating to the latest US Presidential Election* but because of the many accidents that have happened since sending these messages, and also because I received a vast variety of new information, only a very limited part of this book now is about the 2013 US Presidential Election.

I have been all around hell, all around the Globe. I have stayed in Russia, places so cold that your very bones inside of you shriek, so deep inside of its underground city, where you ask yourself "How is it possible for satellites with their warheads to track me here?" I have traveled to the Philippines with its beautiful and tasty confectioneries and its girls, inside the Manila bars and clubs. And then the Middle East, years ago, in the dark and fearful deserts along the Esfahan-Tehran highways in Iran. I recall the sensation of that cold dusty air in my lungs, but I as my thoughts drift back to those hours, I begin experiencing a different feeling in that hard and cold situation, the **animal farm** nearby, and me, **on the run**. It's about 2 AM and I am in my car. Damn it's so dark. From the side of the highway I hear something like a scream but I tell myself it's no problem, it's only a nightmare, a hallucination caused by the environmental situation of the ecosystem of my current geographical location. My mother is praying for her son to come back home soon. But I left her alone. And here, inside my car, I have only a knife and my secret documents here in my briefcase.

Right now 15/02/2014 I'm in **Turkey**. Today when I decided to write a **brief memo** about a few years of my **12 years cooperation with The White House and The Central Intelligence Agency** and many years of cooperation with **Human Rights Watch (HRW) and IFRC (International Federation of Red Cross and Red Crescent Societies)**; a few **political leaders of England and France**, agents of **NSA (The National Security Agency**, who didn't let me to submit any information before) and **CIA** agents and **Mossad** and **Shin Bet (Shabak)** and **USSS (The United States Secret Service)** and **Microsoft** and **DOJ (The United States Department of Justice)** communicated with me about what am I started to write now? While **Dell and Intel** company had some **unidentified** and **covert** communications with me and for sure they and also the **National Institutes of Health (NIH)** also **acted behind the scene** (Dell, from when I sent a **fax** to **Princeton University** many **years ago** while for

sure they **affect** the **politics** and the **events** what happens on the **Earth**) but writing this book was not such an important **complaint** for them which causes that they **find** me again and ask me about what I am started to **write** now, however I had a contact from the United States Environmental Protection Agency (EPA) about what I am started to write now!

This is **the first book what I am writing** as one of the **Secret Agents of The Central Intelligence Agency** and as the honorary **decision maker of President Barack Obama¹** (see the footnote).

For sure to maintain security and safety we must keep **international secret information** so I don't have the permission of leaking very **top-secret** information what not only going to threaten US security and also going to weaken our homeland but causes that I lose my security and safety, get torture and some hidden hands attack me. However, you will learn about lots of secret information through reading this book. You will learn more about some parts of my life and also some parts of president Obama's life, for those people whom heard my name but they like to gain more knowledge about me and also about what happened recently in Iran, Israel, England, Turkey, France, Russia, and the relations and the affections of their policy on the American's policy and the relations and the affections of the American's policy on their policy and also on their diplomacy; a limited but a concise part of our private communications. In Chapter 1 (and also in Chapter 3) I started to write about violations against humanity. In Chapter 2 I going to describe the activities of some of the enemies of the US president (also, I going to describe you more about the recent/modern medications, about when somebody gets infected by HIV then what he must do to heal his self from the viruses, using anti retro-viral drugs, and also I will describe you about what is Cardiac & Pulmonary Rehabilitation (CPR)). In Chapter 3 you going to learn more about secret history and secret technologies, you will see some secret and classified pictures of underground naval bases and also you going to learn more about what happened to me. Chapter 4 is about espionage at most. Chapter 5 is about Communications Security and on-line (Internet) privacy and also it contains the notes of president Barack Obama and Chapter 6 is about what will happen in future, Russians advancements (Aeroflot aerospace technology, etc.) and not only about US military and technological future plans but also about international technological plans such as permanent human colony on Mars what you and your children going to see in future soon, many future plans what you haven't seen somewhere else but maybe during the next few month some other authors use inside of their book for public, later. There are some parts of the secret history what remained untold forever because of I didn't receive any kind of supports (such as political support) by the people who were living during the current century!

Few month ago while I was a UN Refugee in Turkey² but I got sold so I was under attack and I got sleep deprived (as one of the methods of torture) for a few weeks every nights. One of the main causes of these kind of tortures on me was only because of that I informed The White House: "I like to write a book". Some people think one political leader of a country, alone, can maintain the ideal security for them but not only they are wrong but also every people who work for any political leader or any agency in a group, the group competitors attack him, sue them against each other, destroy their relations, then even if you don't have any complaint with these competitors they attack you.

CIA agents of the Public Affairs of The Central

Intelligence Agency, like: dear agent Shannon and my lovely friend agent Nienie Dare decided to give a foreword for this book but because of the similarity of their foreword with the contents of my book and while for public it was so hard to understand so I decided not to write what they gave me about this book but it was a foreword to describe their love to me while they liked to say: We caused lots of problems in your life, also. We are not that much cold and you are aware of that. Here in Public Affairs mistakes melting down the planet of people who are not aware. You shall know the truth and the truth shall make you free. He had his life threatened for completing this book so that he would dedicate lots of information to you.

CIA told me³ if I write a good book so they (probably) going to submit my name in The CIA World Fact Book 2035. It's interesting that I tell you, as an intelligence cooperator even when me or my friends are under attack (or harassment, while I hadn't any satellite support, I got annoyed by them, etc. What are not unclassifiable to the people of the current decades) while everyday it's like a habit for many private and governmental companies what I had communication with them before that they attack the other one, but I rarely attack the opponents diplomacy. While I have everyday communication with some security agencies and they track me and they look inside of my private life but I personally think I am that teenager student still, who must respect to some limits what is a part of public life and public culture.

And who gave you the right to shake my family tree

President Barack Obama Foreword⁴

When you succeed, America succeeded

I love to dedicate my best wishes for my friend Mr. Ghasemi who fought for humanity. This nation and the freedom we cherish can, and shall, prevail.

I remember one day you wrote for me “Dear truly winner of the Nobel peace prize”. Here in America we believe in actions and we like to stop people to act against logic when their mental system is depressed. When they think about something, we imagine for sure they will do that so we make a plan to decide about them before they do something wrong but a crying eye of a child can ruin those actions and plans! I recommend you read this book to find out how!

I remember you could not complete your university in Iran and it was necessary for you to get out of there soon because of some political complaints. There is no difference about that “am I black, white or in between?” There is no difference about that “are you from Iran or from Africa”. I'm not black, I'm not white, and so what am I?! Inside of the university you studied about the paradox of Bertrand Russell while the other students were studying it, you studied about what he did to stand against the nuclear wars, also! America is the country of immigrants so when we win America wins. Without money and food, because of the cold weather your muscles were shaking during the night and likewise what you wrote to many organizations “nobody helped you” but you wrote to The Central Intelligence Agency that “While I Receiving Money From People, To Protect US Security Even If I Died, I Died for Freedom” so you are symbol of mankind and humanity.

#Spicy sign don't hat#

USSS Foreword⁵

From The United States Secret Service:

We are responsible to maintain the author's security; Whatever the author going to write not only approved by The United States Secret Service but also we approve that from the beginning of his activities he started to work as a security agent.

The Forewords of Two US Army Members those who are Imprisoned in Iran

(Descriptions from the author):

There are two members of US-Army who militias and agents of the regime arrested them, Robert (Bob) Levinson and the other Amir Mirza Hekmati. They could not see my book but hardly we could make a short top-secret satellite communication with each other before (Because of America have a limited budget, so I was out of money to try to make them free) as you can see in my email to The Central Intelligence Agency there is a little chance for Amir to come back to his family in America, alive; while I helped Robert more than Amir, so we hope militias set him free (he don't fear of death and bravely control his stress and kept his mental situation prefect). Likewise what I analyzed when I was writing this book they kept Robert about a desert where salty waters exist around, in a geographical location about Iran (Middle East). Amir doesn't have a good emotional situation and he is imprisoned in Tehran, Iran. Even I wrote an email to their family to help them but they did not answer me but I asked Interpol to help him as much as they can.

Few days ago I heard that he (Amir) will come back to his family in America also, then he told me that I inform people "I will obey whatever they ask me to do and also there is not any guaranty about that they will let me get out of the jail." However I have never met them before personally!

Robert Foreword⁶:

When the others were getting closer to arrest me in the hotel, while I guessed that I am not threatening by violated people and when it was late, I had a contact from America but as much as they tried to make good communication privacy so I didn't understand what they meant. I could not understand they meant these peoples will arrest me. So who caused that I am arrested? For me and Amir there is a little chance to see our family again, now tell me, what have you done to help me? I don't have a good situation here but you drift me away.

I couldn't read this book yet, but reading this book is recommended.

Amir Foreword:

I didn't receive enough support. I a little got trained in America then they sent me to Iran. My interview with Iranian governmental-national TV (IRIB) made my situation worsen about supporting by west. I recommend reading this book.

IFRC Foreword(Descriptions from the author):

It was a few days ago that I wrote an email to the International Federation of Red Cross and Red Crescent Societies then I asked them to give me a hand written foreword (through sending an email to me) because of I like to submit the foreword in my book (I wrote, because of what you (the refriger***, etc.) told me was not so clear for me nor understandable to submit it (me, myself) in this book so send it to my email address but I didn't receive any answer. This is what they told me before to submit it in my book through a secret communication method:

This book is endorsed.

The author was a beginner medic⁷. When he was one of the novice intelligence cooperators of the US intelligence we were writing for each other. When he was getting torture then he wrote for me a message about some kind of information what he told that he knows about Michael Jackson death tragedy, HAARP (High Frequency Active Auroral Research Program), HIV (Aids) widespread, The United Nations members of the Security Council relations with the New World Order, etc.

We recommend to everybody about that at first they respect to their own families inside of their own country, then to the others, also. Love the others all around the globe! Nowadays lots of **satellites** surrounded the Earth, they are sending trash into space, why don't we **send nuclear waste to the sun!** When the **author** was only a **child** he was reading about mathematics and space debris using Internet in Iran, one of the developing countries in the Middle East!

NSA Foreword⁸ See the footnote

The contents of this book is the author's self-opinion but because of eleven reasons, such as when he was only 14 years old he started his political activities, at first he selected CIA and The White House to cooperate with. He was also angry with who attacked America during 11th the September. Because of that when he was so young, he loved to stand against Iranian regime's nuclear advancements and also because of that our cooperators told that we help him, etc. So the author **has the permission to publish** this book.

Introduction

**Espionage doesn't have any meaning for those who are not clever nor trained, but it's a beauty dirty play and going to make a scream like the scream of a pregnant mother behind micro monitor for who is clever and who is a professional hunted medic like you. Bestowment bet betide betrayal better betting shop
(Bill Gates note for this book)**

My life is full of espionage and political memories because of when I started my political activities and when I started to fight for freedom of people, I was only 14, a teenager boy. During that moment of time I was listening to radio news and music which western governments were broadcasting to public in Middle East against the dictator regimes but I gained a little knowledge about the policy of these regimes; I had not read some books like *The Prince*⁹, *Intelligence Analysis: A Target-Centric Approach*¹⁰, **The Road to Serfdom**¹¹, I had not skimmed the texts of Sun Tzu¹², etc. I was not an agent and I was a young **boy** who was **not** even investigative like the journalisms at first but a **naughty** American **patriot** who tied a headband with American eagle which was painted on US flag on my head to satisfy my passion to our American dream; then I became more clever naughty and **investigative university student** which **caused that I got tortured** extremely hard. They sent **EMP (electrical shock) on my testis**¹³, **I got radiation to my chest and some kind of other secret harmful radiations to my neck and my backbone and my brain**¹⁴ **but people are not aware** of that the United States has some kind of cooperation with some Islamic regimes.

Likewise what you read at the first paragraph of this introduction, my life is full of espionage and political memos but I going to write a book which a variety of audience enjoy to read, not a heavy book which dulls your brain. I got born and grown-up in Iran, traveled to Philippines and Russia then I became a UN refugee in Turkey. I could write a fiction book¹⁵, but I decided to write a nonfiction book and I describe the realities to researchers who like to learn more about parts of my life and the president Obama's life, for those who heard my name but like to gain more knowledge about me and also about what happened recently in Iran, Israel, England, Turkey, France, Russia, and the relations and the affections of their policy on Americans' policy and the relations and affections of Americans' policy on their policy and diplomacy; a limited but a concise part of our private communications and what we did behind the closed doors to change the course of the world.

When I was out of money and food and my muscles were shaking during the night because of the cold weather, like what I wrote to many organizations and also to many governmental agencies "when I ask for job, people laugh to me." But during these moments of times US president Barack Obama gave me an honor! CIA Public Affairs (through a secret and coded conversation) had approved me as an E-5 secret agent (Sergeant) of US Marine Corps to continue my cooperation (which I started many years ago) with them (with CIA) but it was for free still. Suddenly (a few month later) they approved me as an O-1 and then an O-2 secret agent (First-Lieutenant US Marine Corps). It was exactly when some others decided to kill me for what I did before! Many months passed and I completed writing this book but I was with no home still, my citizenship is delaying yet and there is a month that I could not take a shower yet! And if the big-brother took care of me not to let someone torture me using the classified methods of exposure what the governments will describe more about them during the next decades and during the next centuries, the weaponry systems what a very few nations began to use them about the 1966 (about 1960-1970 until now), and it facilitated by the UK-USA Security Agreement and specially the Great Britain and America by foundations what Winston Churchill made inside of a scientific and technological agreement with our country for us, so I could have a fine situation without stress and free of fear about the tortures! The big brother is an idiom which at first George Orwell used in his book "1984"¹⁶ to describe top-ranked intelligence commanders and agents who work behind the scenes.
