INTRODUCTION

Alexander Zielinski is a Clairvoyant Medium who channels ‘CONSTANTINE’ his Master Teacher, ‘WHISPERING WIND’ his Spirit Companion and ‘ELOPHYNY’ a Collective of light beings from another Star plane.

Alexander and his Guides are providing the following information, with the desire that the knowledge provided will assist those in the human form to grow and evolve spiritually. In order to truly come to understand their connection to each other as they seek truth and peaceful awareness of; who they are, where they come from and what they seek to accomplish in their life through service to humanity.

The following information incorporates new knowledge channeled from Mr. Zielinski’s guides and combines it with material from his recently published books which pertain to the subject matter being discussed.

Prologue

The following information comes from those on the other side of the unseen veil. That dimension which seeks to help humankind expand its consciousness. They assist us not only with our individual spiritual quests, but also with our overall planetary development. Many people are now seeking to know more on how to bring peace into their daily lives. We will be more able to understand the plight of our fellow man by creating peace and understanding on a greater scale.

This will allow us to understand that each one of us is living a human experience. That there is a Soul; an energy being inside us that will one day leave our physical body and this Earth, and return to our true home in the Spirit World, that which many call Heaven.

People who feel they have grown beyond their present religious beliefs now seek the next step in their spiritual development. They have reached the point in their faith that they must move forward, yet they do not know how to break out of the knowledge shelter that has been created for them by society, organized religion and their parents. Those who have broken free have found there is very limited material to help them take the next step in their spiritual journey.

So much reading material and CD's contain the same message disguised in different terms and extra wording simply to sell another book, when simply stating the intention will do. There is no need to dress up the process or the knowledge when simply stating it will reach more people.

Many people do not need the extra decorations in ceremony and other pomp and circumstance. Using a church setting as an example; it is important to know that the idea is the reason why you attend. Not the grand story, not the robes the preacher wears, and not the decorations and ornateness of the massive cathedral.

New ideas will come to you at a time when you are ready.

Many ideas are presently available, but not in an approachable format to those who are just beginning to seek a greater sense of peace and understanding of themselves, and of those around them. The purpose of this lifetime is important to each one of us who is completing it. Knowing that there is more than what many popular beliefs hold is important also. We are all the same; there is no reason for one man to put himself on a higher pedestal than another. The man on the pedestal at some point will realize that there is greater similarity and education needed by him, just as there are those he was attempting to reach with his seemingly great and powerful knowledge.

The people should know that even without this knowledge there is still no reason to fear. There is no reason to live a negative life. There is greater joy shared in 'giving' joy to others, than in destruction and negative actions. A greater number of people benefit through small, positive actions compared to the negative impact of a small negative action. It is very important to know Peace; there are many things that will always exist. There will always be violence on Earth to some degree. Not to the degree in which we are experiencing it now, but it will be possible to move far from wars, far from mass killings, and far from what has been experienced.

There is a great change occurring as you read these words. Those who have power, control, vast riches should have the understanding no one is going to steal their vast riches. They need to understand the moral, ethical, and spiritual value in helping their brothers and sisters they share the planet with. This can be done by understanding the basic principles of human life; that all peoples should have shelter, food, water, community and companionship. It matters not what your beliefs are, for we are all the same in the eyes of God. The proper goals of mankind should be not only working for oneself, but also working to help their fellow man. This is the most effective way to direct positive energy into the world, which will bring forth the greatest change to all humankind.

PART-1

Bible Prophecy: Anti-Christ, WW-3 & 'Jesus Christ's' Return

According to some religious beliefs, the Mid-East will be the main area of focus when discussing the End-Time Prophecy; which refers to World War-III and the return of Jesus Christ.

Q. What is the main purpose of the bible?

The bible is a collection of stories. These stories were told in the form of fables or parables to bring forth a certain type of positive moral attitude that was missing in the people of that time- period. Too much negative influence was running rampant with the people, so this collection of parables and fables were assembled and placed in book form to help the people move into a more positive direction. Some of these stories were based on actual events, while others were simply handed down word of mouth as lessons for those who needed the symbolism.

The original information in the bible came from many different sources; parts were received from spirit communication from those in our true home world, from off world beings from other planets, and from light beings known to us as Angels.

Unfortunately, there have been many in powerful positions that have used this book for negative, selfish reasons. They have succeeded in altering the bible throughout the centuries

in order to control and influence the mass of people who follow this book and take its meanings literally.

Q. Was the Bible meant to be symbolic or taken literally?

The original bible was meant to be a symbolic guidebook, a positive reference for the people of that specific time frame. But many powerful individuals did not accept what the original bible had to say, so they used their power and influence to make changes. Adding things, they wanted control over, and deleting things they themselves did not believe to be true for them. For example, reincarnation was deleted; those in power felt it was better if the people only believed in one lifetime, rather than many.

Jesus was added later due to the influence he was fostering with the people during the time he walked the planet. They elevated him to the false status of the one and only 'Son of God' and said he would return, therefore the mass of people should obey the religious authority or there would be dire consequences when he returned. Jesus came to be a teacher and prophet for the people of that time-period only. His true-life story was obliterated by those with religious authority so they could use their created story of him to foster their own gain and control over the people.

Many of the stories in the bible were true; healings, materialization of angels, spirit communication, levitation, positive affirmations, and many more such events occurred through the natural laws of nature put in place by God. The bible originally was to help those who needed greater instruction to know that there is a peace far greater than what they presently are experiencing in their life. The overall intention of this holy book was to unite the people. But throughout the ages, due in part to the many negative changes, it has become a tool used by the religious authority to divide the people and nations as a form of control.

Q. How should one interpret the Bible?

Those seeking guidance from the bible should simply read it as you would any other book. Much of the current bibles of today contain unimportant information that was added by those in authority throughout the last two thousand years. But the basic moral principles of the parables and fables can still be found in the overall text. Let the stories serve to teach the basic concepts of love, kindness and forgiveness.

There is no wrathful God to cower down before; this was added to the bible by religious authority figures who sought to control the people. The bible, who was written by men, seeks to portray women as subservient to men. They hold no equal status and are simply to take care of the children and household. That is not what our loving God wants for his female children. All of God's souls are equal in his eyes. God did not give mankind the 'Ten Commandments' to live by, this was added by those in religious authority to help them control the people. Organized religion also added the "an eye for an eye' concept which leads many to support capital punishment, we still murder in God's name.

Q. Why was the Bible created?

The bible was formed to give direction to those who were lost and wandering aimlessly through their lives; to provide a positive path for finding peace and love in that part of the world, at that point in history. The bible was not meant or suited for the time-period we now occupy. The bible can still be useful if you simply ignore those sections which are glaringly untrue to you and have no justification in our current time. If you feel a specific phrase touches you as an individual, then that section is true for you. After reading the bible, you should feel the love of God, the love of self, and the love of your fellow man and woman in your heart. You should not feel anger, hatred, or persecution in any form against your

fellow man. That is what the original bible intended to convey to all who read it.

It is important for each person to take the time to examine all that they know or understand, or wish to understand. You need to fully understand why you have certain beliefs about life. You need to believe certain things for your specific reason known to you, and not simply believe something because your parents, religious group, or community believes it to be so. You have the gift of free will from God, use it to decide what you believe, rather than simply following along with what is widely accepted and not fully understood by others. The original bible was meant to be used as a guide book to bring a person to foster in themselves independent thinking. Think deeper about what 'you' believe God to be, and how that affects your spiritual development. The bible's original main theme was to convey the message of love, that when one person grows, we all grow through the love of God.

Anti-Christ:

Some speak of the Anti-Christ, and we will use that term when referenced because it will answer the belief system that supports it. It is important to say that there is not some demonic figure who will come and rain hellfire and brimstone upon the land. It is important to say that there will be figures, key figures in the opposite of the truth-providers, which trigger specific events which will at first appear to be an incredible upheaval. Tremendous turmoil, there will be many who shout that it is the second coming. This is not the case. An anti-Christ is part fear tactic but also part truth only in the sense that there will be a change in the way of living. Because there are many who see this change as a threat to their current way of living they will see him as the anti-Christ. It is important to say that there is not one single person termed this, President Obama has

triggered many events out of the public's eye which will term him the anti-Christ. Though it is important to say that to many, currently on this day, he appears to be the most un-Christian; though this too is incredibly subjective. It is not terribly relevant now. Creative thinking. All of you should create. Stop living in fear as though some being will smite you. This is not a fear worth having. Stop worrying that you are not living to some erroneous standard or that you don't deserve something because the priest or religious leader tells you that you are not worthy. Move beyond these ways of thinking. When you engage in them you are giving up power, your power. Do not entertain these thoughts.

Q. What is a truer definition of the word 'Anti-Christ'?

An Anti-Christ is truly a definition of humankind's own doing. By our standard, the standard of the universe, the standard of existence there is no Anti-Christ. This is a view taken by those who were unaware of humankind's position in existence and they were unaware that all of existence is not limited to humankind's existence and any beliefs it may have. What you can say is an Anti-Christ, and what we will use is a being who provides a great undoing. This may be positive or negative. What is the average perception of change?

Depending on your perspective the same action is held, positive or negative, not often do you hold the possibility that it is both or neither. The Anti-Christ brings change but there is not a deep religious context any longer, truthfully there never was, it was a word used to describe threats and possible fear. We will not use it in that manner. Fear of an Anti-Christ is due to a being not knowing, being unaware, being blind. This label can be used now if you choose but it only represents change. The difficulty is that it is a label given by humanity to other humans. There is no clear process for this other than fear-born reactions or some ill-gotten knowledge that is perverted for selfishness or control. Keep mindful of the fact that there is

not some greater being coming to unravel all of existence. Not in previous times, not currently, not moving forward. Moving forward fill yourself with the understanding of time, cyclic in nature, repetitive by perception. Be aware of your knowledge base and how it has grown through the ages. Humanity makes so many assumptions about the past, present, and future based on previous and current science, technology, and religious beliefs. Open your eyes to new possibilities! See how you have grown. It is not enough to welcome the ideas of others, generate your own ideas and bring them to the table. It is important that all ideas be discussed. The conversation among people, among nations, it is important. The mixing of all things, not separations.

These are questions that have been posed previously by many and they have asked them in many forms. What is important for many to understand is that there is not some anti-Christ that will overthrow the Christian religion. What must be understood is that there is a need to express energy. If you ignore a boiling pot of water, there will be reactions. And this is much the same way. Energy and the type of energy, the way it is charged, or the type of intention that has been used to charge it, it does not change simply because it is not grouped in such a large amount to make it entirely obvious to everyone no matter their belief system. Often this energy is ignored, globally, for centuries, and this is not an incorrect behavior to have towards this energy, it is simply what happens. Energy must be expressed. If many desire to reach a higher vibration, if many desire to explore and move beyond their current confines, to expand their horizons to say, this energy must be expressed and experienced. There is no physical method of dealing with the various forms of what you might call the nonphysical. There are no terms for dealing with it that are similar to physically sweeping the dust under the rug. Even in your physical world the rug will be moved at some point. You may never remove it. You may never look under the rug again. You may move and the next tenant will experience it. You may

die and your children or family or the authorities will encounter it. In this way, the energy is expressed.

Keep those thoughts in mind during these topics. We hope that you will use them to illustrate various points. Though, all points are the manifestation of energy. Fill up one cup to pour it into another, occasionally it is spilled, often a larger or smaller cup is needed, occasionally there is more or less in the cup. But nothing goes unaccounted for. There is nothing that will completely disappear from existence. You may be working with energy that is eons in the making. Not necessarily in the making, the energy is always present, but for the energy to be present in the form that presents itself to you, this current manifestation, it may have been the culmination of trillions of tiny 'energetic rain drops' that have now manifested themselves in the current way. They may have been intentionally for you, they may not. Knowing the topic deeper and your relationship to it will entrench you further in the personal meaning of the energy and the expression and the ties you may have to it.

Listening to yourself ramble on and on about topics you know nothing about is not doing any good for anyone. What is appropriate is that one must focus themselves. There is a great deal of 'chit chat' or idle conversation. This has always been the case but you are seeing that there is a great deal of words, words being energy, that mean nothing, that carry no weight, that offer no real purpose. These words only fill the space where insecurities of the person might otherwise be forced into the open.

There are no single reasons for these conversations and there are no single groups of insecurities that cause them, but in a general way this is true. Many humans, at present, do not handle solitude or their own minds with any degree of comfort. They do not understand that ability that they hold nor do they necessarily want to think or understand. Many are frightened, many do not understand so it is much easier to view the television and other media. Some will open to deeper logic,

even deeper understanding of simple physical word discussions, but they must see that they are not the only one. Many do not wish to be first. Many will follow. It is often spoke of as though it were a terrible act to carry out.

Following, when you of your own volition choose to do so, is no different than choosing to lead or choosing to have studied the anatomy of the human body or the decision to drive a vehicle to retrieve food compared to making in your own kitchen.

All decisions should be made of sound mind, it is when these acts are trivialized, why they are blindly carried out, when they are entered into with no real concern, with no awareness, that is when they are detrimental.

This 'awakening' can begin with one person. A single molecule can start a landslide and many will explore once they see the possibilities. Now there are many things blocking their path. Now there are many things that they do not wish to see because they do not wish to understand. It is often because they are afraid and there is no teacher with which they can seek this information. For many of your popular schools of thought do not address actions, feelings, emotions, or energies, or extra sensory skills. They do not acknowledge them. They do not acknowledge what cannot be felt. They acknowledge what can be touched, what can be measured with current tools. They measure only that which directly benefits their current way of thinking.

This world needs greater numbers of pioneers. They need someone to stand up and say that this is another possibility! You don't need to follow me but you may! You have this option! You have this option to follow me or segments of this information and I will not judge you!

If a person can do nothing else in this world it is to master the art of love and removing judgment, keeping judgment from entering your mind. Do not use judgment as you currently see it now. Judgment is judgment but human judgment is not fluid, it does not often change, it is not open to new information and it must be! You must allow new light in

before old dark can be extinguished! Please grow beyond your current shells and move into the freedom of the limitless being that you are designed to be! Ensuring your survival is not a race between you and your neighbor. It is success when you AND your neighbor are at peace! When the neighbor is satisfied, it is then that you should fill your cup. Help those who need it and rise above the current state of things! Do not become trapped by comfort, by the familiar. Explore! If your life is perfect, then you have no excuse! If your life is not perfect, then you have no excuse! Challenge your perception. Do not be content to have mastered, by your own judgment, all the methods of the world and all of the world is now summed up in your being. Explode the walls that confine that thinking and seek to challenge your own thought patterns!

There is a great deal that attempts to explore the amount of brain power a human being uses. It is far greater than what many believe.

MABUS:

There was a judgment by many that this eloquent speaking man, Obama, was going to pass unreasonable judgment on too many. In many cases, he has done so, not because this is his wish. This is not his purpose; he did not assume power because he wished to receive all those things that come with it. He had the intentions at his heart to do many good things for the country and for our involvements worldwide. It is difficult to remove oneself while in the presidency, from the controlling powers and considerations of those who wish to pad their pockets and make their backroom deals. It is possible that he will be considered by many to be the Anti-Christ, because he has yet to enact the power of removing war, and he has the authority to take the country into war on a much broader scale. There is much he has done and there is much he has allowed to occur, turning a blind eye to the plight of others. Thus, causing great divides in humanity that are imprisoned as well as those who are living with assumed freedoms in

relation to America. There is much that is done with the attempt to free his mind, he attempts to do good but there is much fighting between political parties when these are not entirely part of the political plan. There is much done, much that is seen or much that is given as public information that is meant to sway the opinion of many people. There is not an accurate depiction within the media of the President, his actions, or the actions taken by those in government.

It is important to know that the Anti-Christ, the actions of that assumed title, will be the actions of many. These are not decisions of one single person or entity. There are many that pull strings; there are many who push buttons behind the curtains, though Mabus will be seen as the Anti-Christ because he is the figurehead leading the battle at the time. He is the person seen on the poster, the television, the person who is the spokesman for this ideal.

It is more abundantly popular in thinking that there is reason for mistrust of the government; these beliefs are not spread through public media because dissent will have those ostracized from information. There is much done to lean on those, as it were, to obtain the desired result. Those who subvert the desired ideal that those in power wish you to hold, they will punish those who seek to obfuscate this information. It is important to realize that much work can be done to prevent this. Major uprisings will stop the masses from readily submitting to those in power, but there will be many clashes between those in power and their mercenaries, those who are hired or volunteered to maintain order. It is important to know that this information will take place, has taken place, and will take place on greater scales; once more people become involved in the future. There will be fracturing reports; incidents will be isolated through public information or there will be attempts at first to not report these incidents across the country so that there is not fuel added to the flames of dissent. Control, in their eyes, must be maintained. A great upheaval will come when more will take their efforts to the

streets, and see that when there are greater numbers there is safety, and there are accomplishments. It is important to know that all who are in these positions, the controlling government positions, the president, they are not all evil. They are only being manipulated by those who seek power or those with intentions for only their personal interest. They too are good; they too will see the problematic system that is in place. Unfortunately, some will not make that judgment until they have crossed over from your physical lifetime. Many will feel powerless when there are uprisings because they feel that their voice cannot change the machine that has been created and called government, they too can join the streets. Many shakings, rumblings, and giant acts will take place to cause further fracturing of the society so that no one person maintains large control. Those who are not ready for this information will follow the widest held belief, but those who are dissenting will soon grow in numbers and become the widest held belief. Their attacks on these that stand for true freedom and peace will be attacked though these will not be permanent ways because the tyrants will fall. There is no need to worry at this time because of the ability of many to seek out truth on their own. There will be change, many will come to it, some by force, some by having their world, as they see it, turned upside-down. It is when they are fearful and their sense of reasoning and the basis for it has been shattered that they will begin to work in harmony. There is no reason to fear, protection will be with those who need it, changing the ways of the militant leaders is not a simple process but there will be an uplifting time of peace and tranquility once this shift takes place. It, in comparison, will be much different than what you know today. There is reason to believe that you are going to involve yourself in these actions directly. Peace will come to you by doing this. Strength on many levels is needed by you to do this. There is no reason to fear the president directly, he is not the one who is directly responsible for the decisions, and he only appears to hold the keys to unlock these

devastating beginnings from taking place. He is only the figurehead and there will be blame placed on him for his actions, which are only the true actions of 'many' for their own selfish reasons.

HITLER:

Q. Did he commit suicide in his bunker or did he escape to South America?

Yes, Adolf Hitler committed suicide. This would be one of the many times that a being was in favor of exiting this plane in order to save the ego-driven mind, or the ego-driven world it had created. Much of the information about history is not being distorted, it is intentionally being misrepresented to bring doubt into minds and entertain masses. Hitler did not escape.

Q. Energy Beings like Hitler and Napoleon; are they aware before incarnating of what impact they may bring into the world? How are such beings chosen to live such lifetime's?

In some cases, there are specific instances that are defined for individuals but there are also, as you would explain them, 'generalities.' An example would be that you will be the leader of a government. Something specific in that sense is quite frequent but also there are those that are more prevalent and are not based on specific positions. We mean to say that your goal is not always tied to specifics because your free will may take you in a path completely different from leadership. Even if that was your plan it may be altered. A general objective or experience would be that you would wish to experience life as one who caused great suffering. There may be greater depth of specificity or there may be none. This type of goal is one that can be met no matter where your free will may lead you and this, quite often, is the type of path or plan that is set forth. This type of experience can be brought into your existence no
