

THE BOOK

OF

AURAS

José Cruz

Synopsis

For those who still do not know me by what I write, I can only illustrate this work about the Auras, reflects a stage of my Spiritual development, and therefore do not have much regard for many years. And much less turn it into the Book. But as a result of numerous people as knead me, in watching lectures and witnessing some knowledge in practical terms to my part, for human Auras, the making known to all, for the uses in its own benefit without. I felt I should move to the role that knowledge. Who presented issues? If only that each individual Aura, are aimed at people who felt that they needed help in their lives.

Always with the therapeutic purpose, giving only as a gift, but after writing "Reunion of Light", an early self-help books and personal development, my Spirit Illuminated, asked me to bring all these issues in a just, in Book,

Faced with such a request had to gather all the previous descriptions of Auras, this same work. Preopening to even more knowledge, which has since been acquired? For the purpose of people if they can rediscover themselves and identify their intimate, seeking and learning to relate for they.

For those already familiar with previous work in this follows the same term. To make known the true dimensions of the Sacred, and that touches the heart of each one.

Who knows a little about me, nothing is there to add just feel. For people who still do not know me. I comment that only have a 9th schooling completed about half a dozen years ago. And I present this humble form, stripped of what you want dogmas, prejudices and rationalism in a frank and pure, giving me complete freedom to address issues more complex the mind and the Human Spirit.

Due to not be religious or have to express myself through academic learning, give me the natural power of sharing the knowledge of my natural essence without taboos, as well as the Universe, only then, it is possible in an innovative, simple front and pass this message to ordinary people like me. Having the experience as the only Master and Spiritual Ground. In this life and previous Reincarnations, I have the ability to reach me only where this is required by the Universe, just using me the inspiration that is given me by my Spirit Illuminated, in times of No-Mind, as well as the Power of Intuition, without the need that many people feel to have a job, having to rely on doctorates, straws, etc. And then some of them and with respect for others just write straw or use vocabulary often incomprehensible for many readers, the so-called intellectual's vain academics, who write for fame or money.

Grateful

A Light of Wisdom

Throughout my life I got to know all kinds of people, and how to save me the target is something unknown to me at first. I was always taking notes through my consciousness, people who feel attracted or repelled that interact with them in many different aspects of my experience Ground. At that consciousness, were retained for many years of memories and behaviours of these facts people.

Up to that from the time that I began to feel enlightened by the Spiritual Light, now I feel Lights. I began to identify the colors of the Auras of things, animals, and plants through the 3rd Vision. The soft and squishy I felt compelled to unravel, to the extent that my view would be increasingly widening.

How I began to identify the colors of Human Auras.

Resembling as something sacred, by my Spirit, which began identifier intuitively these Auric colors. With the people I had been dealing, live and deep knowledge, either externally or internally for many years as a puzzle to treat you. Once through this Union of Spiritual Consciousness and the Universe went through the process of refinement that I was imposed by the Universal Law. Moving later to feel entitled, and never before to spread such knowledge and to whoever it was.

One could add that there is much that is described in this work, was acquired along the earliest times, through physical practice, meditation and Astral Travel. What is the result of the same can visit any part of the Universe, in times past, present or Future.

Thus it is possible to visit many places of learning, including any Universities Spiritual where you can read whatever it is related to Humanity. And then bring back to the Ground Dimension.

Introduction to Aura

The Aura is made up of four layers or fields.

1 st of the Physical Body Aura

2 nd Astral Aura

3rd Mental Aura

4th Etérico Body Aura

What I will mention is the Astral Aura.

During in your life have been the experience may have been dealing with someone or known about a person. When they get near them, you feel very close to that person, it appears Peace and Light, and his energy is contagious, it could almost be touched.

Others however, felt an unpleasant sensation of malaise, as if to suck our own energy.

This is where having the power to delete or Illuminate the environment, reflects the power of Aura. The Aura is made up of one or more colors.

Hence the essence of the Aura, all human thoughts and actions belong to good and evil. The thickness of the Aura and its color is proportional to the quantity and quality of good and bad thoughts. Inside when a person does well, feels a Conscientious satisfaction. These thoughts are converted into light, adding to the Light of the Spiritual body.

When the reverse, the thoughts and acts are evil, become dark clouds in the Spiritual body, so what changing the basic colors of Auras. It is due to such a person starts developing problems, mental and physical in the form going so slow its development Physical, Mental and Spiritual.

A brief Explanation of the Astral Aura

The Aura is made up of the vapors that rise from the physical body through breathing pores, which can get around the physical body, or up and focusing on the top of the head or around her. This movement is due to physical exertion, thoughts, emotions, and other sufferings. So that in contact with the heavenly light is reflected. Becoming a field of Light Aurica It can also be considered as magnetic field.

This is the Light that when they come into contact with other Rays of Light coming from the Cosmos, intensify type magnifying glass. Getting exposed so that they can be seen by people who have developed this ability!

The diameter of Auras as well as its thickness and color, which in many beings of Light cannot pass only a few centimeters, while other meters or kilometers as even possible to cover an entire Planet, as with Jesus, Buddha, Mother Teresa of Calcutta, among other beings of Light

Application of the Book

The Book of Auras is taken into account for various applications. In governing the welfare of people in any aspect, depending only and solely the good use, and a proper application that people want to give him consciously.

Whether a query to the person, to better recognize inwardly or outwardly, problems related to Health in general, or how to feel the quality of people that surround it, leading to figure out how to think, feel, and the form and manner to interact on a daily basis with them in a healthy way without them realizing it, thus adopting a way of being and interacting with these people, in many cases helping one way or another, to understand consciously to themselves, going somewhat against the Supreme Power that governs all. It also applies to personal and spiritual development. If extending to all Humanity.

Recognizing a certain color of right and Aura. Of anyone including the person himself, later I shall explain, the way it is possible to access this technique can be through the View or not that same Aura.

Is extremely important to identify a particular color of Aura, for a variety of applications that you want to give that a major and much attention to it, is intended only for the recovery of people, sick or otherwise destabilized, always aiming to do well. And never the other way around, but could be seriously hurt.

I repeat not want to be boring and very Careful Attention, as apply what is described in this Book, Going all the responsibility rests with each of you so sharp and aware.

When you access such a color Aura and the same exists or points in the same dark clouds.

It means, to the extent that those who are darker, the greater the problem the person has, whether physical or mental in the forum.

That person to develop the ability to view, and then correctly identify by focusing only on the affected area, or the problem itself, is likely to remove, depending only on the ability of each one, whether for your own sake or for others.

Meaning of the Auric Colors

The colors in the Rainbow are the same basic that can be found in Human Auras. And it is about those same colors which I will clarify their meaning, which they propose manifesting in person. There will be some doubts about the significance of people, and matching colors to themselves. This is only due to the fact that people were away over the life of your base color from birth. Like its natural essence.

Because of egos, intellectualism, malice, pride, addictions, social status, among other dependencies. If you should just forget that the person who was as a child, thus changing their behavior patterns and thus changing its basic color Consciously or unconsciously, allowing other colors to join this.
