7 Reasons Why You Are Not Attracting Beautiful Women!”

Author: Chris Tyler

Article: Fellas, let's admit it. If we could have our way, we would be able to attract just about ANY woman that we wanted to. And of course, we wouldn't be going after the ugly Betty types. No, not at all. Like it or not, as men, we want to be with BEAUTIFUL women. Women with sexy curves and pretty faces. Yet, for most guys, this seems to be an impossibility. There are a multitude of reasons for why this is, but I have compiled a top SEVEN list that I am sure every man can relate to. So, here it goes:

1. Lack of confidence. This has to be the number one reason. Think about it. If you had all of the confidence in the world, wouldn't you [approach any woman](#) that you wanted? Sure, you would. Lacking confidence is not just a turn off for most women, it's also the number one inhibitor between you and the life that you REALLY want to live.
2. Poor conversation skills with women. If you cannot [talk to a woman](#) the right way, you are not going to be able to get much further than a friendly and totally non-sexual conversation with her. You have to be able to spice it up a little, unless you really BELIEVE that deep down, all women want a boring and bland kind of guy. (They don't.)
3. Using pickup lines. Sure, there are some guys that claim this is the KEY to attracting beautiful women, but in reality, this hardly ever works out all that well. Just think about it like this, a beautiful woman gets hit on all of the time. And guess what most guys try to use on her? That's right! Pickup lines. so, she naturally has learned how to shut them out of her head. In short, they won't work on her at all.
4. Following the advice of your buddies. Unless your guy friends are out there picking up magazine centerfold models, chances are pretty good they don't know much more than you already do. And that's a GOOD reason NOT to listen to them. After all, why get advice from another guy who's no better off than you are?
5. Poor hygiene. You don't have to turn into the pretty boy, almost feminine kind of guy to attract women. You DO have to be able to look presentable and come across as being able to go out in public and make a good impression. A little basic hygiene (cologne, clean hair, clean clothes) will go a LONG way!
6. Using gimmicks and routines. This is along the same lines as dropping pick up lines on a woman. With routines, not only do you have to learn them and memorize what to do, they also have to come across natural and most of them do not. Try hypnotizing a woman in a loud nightclub with flashing lights and people bumping into you. It's not going to work. And also, just as with a pick up line, a routine or a gimmick can come across as CHEESY just as easily as it can be seen as cool.
7. Showing desperation. When you give off the vibe that you are desperate to hook up with a

woman or to get attention from her, that is like an instant turn off. Being desperate to get laid is something that women usually see as PATHETIC and being desperate for her attention makes you seem like less of a man. Pretty blunt, but also pretty true.

In a little while, I will be posting quite a few more, until then, tackle these 7 and you will be able to improve YOUR [success with women](#).

“Attract Women Using Pure Personality!”

Author: Robert Buford

Unfortunately for them, more than 70% of men will never have the kind of success with women that they should be having, do you realize why that is?

The main reason is that they have no clue about to attract women. They keep trying the same techniques over and over that aren't working! This makes them think that attractive women are never going to be interested in them and that they will never attract the kind of woman that they think they want, so they settle for who ever will pay attention even if they're not really interested in that particular person.

The other and most important reason is that they will do absolutely nothing about the main reason! They just sit back and trust to luck and the law of averages! Look, I'm telling you, this is the wrong attitude and will surely lead to a less fulfilling life and into the hands of a partner who is not as emotionally strong and physically attractive as the kind of woman that I'm sure you want to have.

If you are now listening to advice from your friends, no matter how well meaning, they aren't only preventing you from getting the results you should have from your time spent trying to meet and attract women, They are also putting you at high risk of depression and lack of fulfilment that is the final result of having a less than satisfactory love life. Not to mention the joy and satisfaction, and the great life you'll receive by being with the right woman of your dreams!

Do you ask yourself, how does a semi-fat, balding, ugly jerk like me get a gorgeous girl to look at

him, much less date him?

Well, before you spend too much time being down on yourself, remember this. Everyone is aware that there are big differences between men and women, but the main one is often over-looked, and that is how women's and men's brains function differently.

Reading from the New England Journal of Medicine, they say that a women's brain is more attuned to emotional responses than men's are. And, this is because of the "maternal" instinct of women. After a woman gives birth, she needs to be able to understand the needs of her children, so she is then more attuned to emotions of everyone around her.

Without this ability to feel "empathy", she would not be able to properly care for her child.

Men, on the other hand, are more logical. This is the trait that helped men to provide for the home, and to survive all the dangers they faced in doing so, and it also allowed them to be better at hunting and providing protection.

This doesn't mean that women aren't logical and men aren't empathetic, but it does say that we naturally lean one way or the other. Truth is most guys' do all they're not supposed to when it comes to attracting women. Then, all they know what to say is "what's wrong"?

Does any of this sound like something you do?

There's looking attractive, and then there's BEING attractive.

These are two very different things. Besides your personal hygiene and the wardrobe you wear, there's nothing you can do about your looks. Nature and your parents have decided if you're stuck being short, bald, or whatever. That's not going to change any time soon.

But you DO have 100% control over how you act. You have complete control over what you do, what you say, and how you perform in front of others!

Because women are more driven by their emotions than men, if you are able to evoke powerful, fun, and exciting emotions in women, they WILL be attracted to you, no matter what you look like.

But you DO have everything to do with how you act. You have the last word over what you do, what you say, and how you act in front of or treat others!

Since women are driven more by their emotions than men are, if you are one who is able to evoke strong, enjoyable, and exciting emotions in women, they WILL be very much attracted to you, and it makes no difference what you look like.

This is called "being attractive, and when you're "being attractive", your looks have absolutely no bearing on the interaction. This is why we tell you to use your personality to attract women.

“Can You Become the Kind of Man That Attracts Women With Ease?”

Author: Chris Tyler Article:

For most guys that are reading this article, [attracting beautiful women](#) is FAR from easy. And that's okay to feel this way. After all, most men are not exactly born to be the next Don Juan or Romeo, are they? However, the art of attracting women is not a skill that you are born with, it is something that you develop over time. So, if you get envious of other men that seem to be able to attract a woman with ease, then it should be reassuring to know that you can enjoy the same success. This does not come without it's price. You will have to take the time to learn what works to make a woman feel that sense of attraction for a man.

Here are a couple of tips that should help:

1. When talking to a woman, you have to be able to get the focus off of you and put it on her. When a man is nervous, or unsure of himself, quite often he will find himself doing most of the talking. This is not exactly what you want to do. Dominating a conversation with a woman is NOT going to make you that much more appealing in her eyes. Being able to include her and involve her in the conversation WILL.
2. Flirting is NOT just about getting her phone number or a date. When you flirt with a woman, you have to be able to create a "bond" with her. Generating rapport with a woman will allow you to escalate her feelings for you and this will help you to get to a place where you can make her feel swept off her feet by you.

“Ways to Attract Single Women!”

Author: Chris Tyler Article:

When you are a single man, one of the most important aspects of your life is your success with women. After all, what's a better way to end a hard day at work than to go out with a beautiful woman on your arms?

Yet, for many guys, this seems as if it were almost impossible. You might look at yourself and think that there is NO way at all that you could ever become the kind of guy that can [Attract Beautiful Women](#).

But, you can.

You have to learn the ways to attract a woman. Here are a few helpful hints that should make YOU more successful with women:

1. When you approach a woman, it should seem casual and not the least bit unusual for you. Women can spot a man that is uncomfortable in approaching a woman from a mile away. And when this happens, she knows exactly what to do. And that will leave you out in the cold. Being able to get comfortable in your own skin is very important when you approach a woman.
2. You have to be able to know what to say to a woman. One of the worst experiences that any man can have is to start a conversation with a woman, only to find that he doesn't know what to say to her. From my experience, one of the easiest ways to get around this is to become friends with women and learn what topics work with them. Then you know what to say to a woman that you have just met.
3. You have to be able to know where to take a woman. And I don't mean what restaurant or anything like that. I mean that you have to learn how to lead the direction of the conversation and the interaction.
4. Otherwise, you are not going to get the results that you desire. Want to learn more [ways to attract a woman](#)? About the author: **Get Your FREE Report that Details HOW to Attract and Seduce Women.**

“How to Make a Woman Desire You!”

Author: Chris Tyler

Article: When it comes to dating and relationships, it seems as if most men are really on their own. Knowing [how to attract a woman](#) and make her desire you is not exactly one of those lessons that you will get taught. Instead, you are often left to figure these things out from trial and error and this can lead to a lot of heartache, pain, and rejection. Of course, you can skip all of this by simply not trying, but where's the fun in that? Instead, here are some tips that will help you [make a woman desire you](#):

1. Become scarce. One of the biggest mistakes that a man will make with a woman is to become her "shadow" right away. Mostly, the reason for this is insecurity. And guess what? Women will pick up on this insecurity right away and find themselves losing attraction for you. By allowing yourself to be scarce from time to time, you are actually helping to set yourself up for future success with women.
2. Tantalize her. Most guys are afraid to push a woman's buttons a little. This usually comes from the fear of rejection. You might be afraid that you will cross the line or do something to put her off, but when done in small amounts, this will help you to increase her attraction and desire for you.
3. Captivate her. When you can captivate a woman, she will find herself drawn to you. Though this is a skill that probably will not be developed overnight, this can be your most powerful asset when attracting a woman.

“Dating Advice For Single Men - What Not to Do!”

Author: Chris Tyler

Article: When it comes to dating advice for single men, it seems like there are a HUGE amount of people that claim to be experts in this category. Some are legit and others are nothing more than marketers who just happen to want to make money in this market. So, some of the advice that you get is genuine and some of it tends to be fluff that sounds good, but will not really boost your success with women in any way. Here are a few [dating tips for men](#), examples of what NOT to do:

1. Don't turn into a girlie man. What I mean by this is that there are a lot of guys out there that try to become more successful with women by paying more attention to their clothes and their shoes than anything else. One of the reasons why I have been so successful with women is that I DON'T look like one of these guys. Come on fellas, imagine letting a girl know that you take more time to get ready than she does. It's not exactly going to be a turn on.
2. Try to become her soul mate. This is where a lot of passive men get it all wrong with women. They try to instantly become her everything. Not only do most women find this suffocating and annoying, it's really not genuine at all. You have to let things run its course and VERY rarely do two people meet and assume that they are soul mates. So, when you try and act like this on the first or second date, you are really coming across as being needy or even fake.
3. Adopt routines and gimmicks that go against your morals. Now, there are some guys that have the mentality that they will do anything to try and get a girl. When you act like this, not only are you being false with yourself, you are also really coming across as desperate. Think about it, if you really had choice and selection with women, then you wouldn't have to try and do anything to get a girl.

The first thing you need to do is to get to know yourself. Unless you know your strengths and weaknesses, you will never know what to capitalize and bank on. If you know what you are good at, you can use this character to impress the woman you like. One of the tips to get a girl is to let this character surface. For example, if you have the ability to connect to empathize and connect to someone's emotions, you can use this strength and build the foundation of a relationship from here. Listen to what she says and give comments. You need to develop the ability to interact and feel what she feels.

Be Social

Another one of the greatest tips to get a girl is to be a good conversationalist. You will get a girl bored with flat stories and corny jokes.
