Reading this book will **intellectually be very challenging** and that fact is undeniably true. However, I found that the ordinary persons with a scholastic physics background cope with the difficult explaining much better than does Super-Educated-Masters. The Super-Educated-Masters have preset conditions they prescribe to information and they can't break their mould. The purpose with which I wrote this book is to get around the network of Super-Educated-Masters who strangle any form of science that does not fit their liking. If what anyone says does not stroke with what the Brainy Bunch who controls physics agree with or echo their thinking, they just smother all intellectual publication on the grounds that it is not fitting their profile on science. I disagree most strongly but I do also supply proof thereof where Mainstream Science blocks the publishing of my views on science that does not compliment their views. If you believe science is more accurate than God, then live your fantasy out and don't read further. If you want to know the truth about **how students and the public are brainwashed by mind control in science** this will wake you from your slumber. Read this and wake from the culture you believe in and into which science has lulled you and made you accept science as the truth by instating it as a culture. **What you read I prove even in this book and I dare any one to prove otherwise or reprimand me.**

You are going to read **some mathematics in equations and expressions in mathematical formulas placed to defend my position** but if you **don't like it** then just **skip the mathematics** because the content and grounds the **mathematics proof or disprove is not important and it is there to disprove the Brainy Bunch**. It is there not to scare readers away but to silence the Brainy Bunch critics by showing them the foolishness of their arguments. **By using mathematics the Brainy Bunch have been cheating the public and have been brainwashing students for centuries. That cheating is how they do it and I have to show and uncover the dishonesty in mathematics.**

I disprove most of the view science has on cosmology which is the science on stars and galactica and how the Universe formed. I start by introducing a new view on how gravity applies and from there dismiss most of popular claims on science. Any person that challenges me on the legitimacy of content given within this book, please do so any time. However, do so on the grounds of all the information provided in this book. What I say is don't be opinionated and then reject on what is culture but inform yourself with what I provide and then gauge what I say in relation to the half truths mainstream physics provide.

To whom it may concern:

I am P.S.J Schutte, nicknamed Peet. Being a white South African my mother tongue is **Afrikaans** and my second language is **English**. My language standard used might not quite meet your Shakespearian expectations and some spelling errors might have slipped through cracks but it is not the art of language I try to promote but it is the art that science hides the truth in perfection by never disclosing information they prefer not to reveal and never to divulging the entire overall picture about what it is that science know and don't know. Science forever hide the truth of any subject behind this veneer that the public is too stupid to understand and therefore they disclose their opinions about whatever field they wish to promote and not telling is because they know all. It is the information about the unbelievable oversight of Newtonian mistakes I disclose that proves how they keep the oversight of Newtonian mistakes silent and why they don't divulge that which they keep silent about. It is about them never committing to the entire story by giving an all-round presentation of everything anyone would require to know to be in a position to evaluate. I have done a study that took me since 1977 and in 2000 I had enough information to present a complete theory on explaining the cosmos in a much more sensible manner. With all the facts I concluded in my decades long study I started to look for a publisher. To my shock I realised that to find a publisher willing to take on mainstream physics is not that easy and to get published on information that presents everyone in physics as the fools that know nothing about everything they say they know is an uphill battle

AS I introduce myself I do so again: I am P.S.J Schutte, nicknamed Peet. Being a white South African my mother tongue is **Afrikaans** and my second language is **English**. As I said before my name is Peet Schutte. I do find much pride in my status as being Afrikaner and would like to have my names used by pronouncing it in the manner Afrikaans dictates...therefore I would sincerely appreciate the courtesy when readers will take note that my name and last name are pronounced in **Afrikaans**, which is originally from Dutch and must be pronounced that way. Peet one would pronounce "**here**" which is the closest English to the pronouncing of the "**ee**". The "**Sch**" in **Schutte** is pronounced exactly as **school** is where both actually are pronounced **Skutte** or "**skool**". By pronouncing my name in **Afrikaans** you do me the utmost courtesy any one can. Being an Afrikaner is what I am most proud of.

Gravity is the movement of material within spece allowing space and not material to move. To all those pea brain simple-minded children that criticized my first two books that I published with Paradise Publishing I guess not one of you would be able to read any of this work either but that did not stop you the first time from getting all opinionated because your opening remark usually was "I did not complete the book but..." and then you go on to show the world what a simple-minded low intellect opinion you developed and your opinion did not support any understanding about what you read in my work but instead of being able to follow the writing in detail. To

you and those that is so self-assured to be fools I give the following advise: get educated about physics before you get so opinionated about my work. No harm was done but you need an intellect to follow what I say which is obviously absent when reading your remarks. Remember there is thousands of better-educated people reading your remarks and they understand what they read unlike you do but they also see what blatant fools you make of your self by having such stupidity displayed.

Many years ago the catalyst that made me first become an the author was reading of a remark Einstein made about his realisation whiles being a patent clerk. Einstein realised that had Einstein fell from the window of the patent office Einstein would feel as if he was as weightless as a chair and a pen falling alongside Einstein down the building. Remember this was three years after the Wright brothers got an airplane flying and things in general as far as information being available at the time was a lot different from what is going around today. He saw himself go flying for the first time by forming a picture in his imagination and a five-story building was very advanced.

I then realised Einstein felt weightless because he was falling and part of falling was feeling what was happening to him. He was not pretending to fall whereby he then would feel as if...if he did fall he was really falling and with that there is no as ifs. What he experienced came by means of what he was experiencing. If Einstein was experiencing weightless ness, it would be because he was weightless while falling. Einstein would not imagine the weightless ness because Einstein was truly falling. He was at that moment truly weightless. Einstein, the pen, and the chair had the same weight since they were all weighing the same. All three items would be equally weightless during the falling...that was what Galileo found because objects of different size and different mass travel equal while descending. The bigger objects do not fall quicker than a smaller object and that can only be attributed to one fact; it can only be true if they weighed the same while falling.

From this one can deduct that gravity is motion or the intent to commit motion and mass is one the motion of gravity is frustrated by blocking the continuing of the motion. Gravity is motion of space and mass is the restricting of the motion of space. Having mass does not bring about gravity but it does restrict gravity's motion. Gravity produces mass but mass does not produce gravity. Mass is the restraining motion and gravity is material moving about. Mass only comes into the application when two objects filled with space moves into a position where both want to claim space the other occupy. In essence it still is the frustration of motion and the commitment to move once the blocking of space is relinquished.

I then with this realised gravity is motion differentiation between objects. While falling the gravity applies as speed that is putting time in relation to the distance travelled. While the object falls the motion confirm gravity. When motion ends mass sets in and becomes constraining the object motion. The motion is still there but now it is a tendency while the object mass is the rest of the tendency. However mass then restricts motion and becomes motion tendency. While falling gravity applies and motion counteracts size, mass or weight. When the Earth restrains further motion of the falling object is stopped from further movement hindering gravity. The falling object remains individual and still tends to move while Earth individuality resists movement. Further movement is disallowed as other material fill space. Remaining independent the falling object will finally rest and from that motion resistance comes

mass. Being on the ground makes surface contact and allows a body to become part of the earth and in that joins with the ground. Being in the air makes a person float albeit straight down to the ground but still seen from the ground still being afloat.

While falling the object is experiencing gravity because the object is in gravity but when on the soil the object experience mass which is the restricting of gravity or motion of the space filled with material.

Moreover, I came to another conclusion of equal importance. When any person is standing on any place anywhere, while viewing the Universe, that person is filling the centre of the Universe. Let's get more personal. When you, the person that is reading this, are standing at night and is looking at the Universe you are seeing the Universe from the centre of the Universe. All the light, every single beam that ever left any destiny at any time acknowledges this fact. You are the most important person in the Universe because you are holding the most important position in the Universe. All the light that come across all of space runs directly in a straight line towards you filling the centre of the Universe. Not excluding the effort of one photon, all light is heading to meet you where you are in that centre spot and not one photon will pass you by. Not one photon dare miss you because if they do they miss the effort that all light has to accomplish and that is to locate you as the person filling the centre of the Universe.

Should you decide to shift your position to any other place in the Universe, you will shift the centre of the Universe to that location as well. If you install a camera on Mars, the light is obliged to acknowledge your relocating the centre of the Universe at your will to reposition you're being that centre of the Universe. All the light that ever left its destination crossing the vast spaces of the Universe, excluding no particular light, travelled all the way just to find you filling the centre of the Universe, right where you are. By you're standing anywhere, you fill the centre of the Universe, and the entire Universe admits to that because all the light comes to meet you there. If you shift from the North Pole to the South Pole you will shift the centre of the Universe because all the light travelling throughout the Universe will find you where you then moved the centre of the Universe. The light left its destination billion years ago as it travelled through space at the speed of light anxious to acknowledge you're being in the very centre of the Universe. No photon will pass you by where you are in the centre of the Universe. No wonder every person born has the idea they were born to fill the centre of the Universe, which we do fill. The Universe is spinning around you or I, which is filling a centre where all motion is connected. That is the Coanda effect on the utter-most grandest scale imaginable; nevertheless it is only a manifestation of the Coanda effect. It implicates gravity as wide as can be...

While moving objects are experiencing gravity. On Earth, objects experiences mass by restricting gravity- motion. Persons falling will experiences weightless ness because of a weightless state while falling. While experiencing unrestricted gravitational motion a body a^3 is = motion T^2k as Kepler said gravity is: $(a^3 = T^2k)$. When motion stops weight or mass forms. Ending gravity-motion produces mass. Mass cannot produce gravity. Mass is restraining motion leaving gravity as intended motion. Mass occurs when motion is prevented. While falling gravity applies as moving individual separate space putting time in relation to distance travelled. Falling is motion, confirming gravity. Motion ends when mass prevents further motion by

resting objects leaning against each other. When objects rest against each other they restrict individual gravity motion. Mass is a substituting factor, compensating for motion loss. When mass restricts motion gravity becomes the tendency of motion. Mass counters motion when the Earth restrains further motion of falling objects. When motion seizes, falling objects remain individual and still tend to move while Earth individuality resists further movement of falling bodies' movement. Mass is restricting motion. Having mass does not bring about gravity but it does restrict gravity's motion, which is what brings about mass.

Science thinks why search for the truth when they concocted their own unworkable version and further it by falsifying facts. I wish to reveal the biggest conspiracy ever undertaken by any group of people. I too have my own agenda why I reveal the conspiracy and this conspiracy is so big if you know what it is you will vent your anger towards me to protect your culture where what this conspiracy hides became the culture of all civilized persons on earth. I have devoted my life to find out how the four principles work that nature applies and science rejects. Alas, while every person thinks science is perfect my work has no place. I prove how nature works but everybody in science purposely stonewalls me to protect the science status quo. When hearing what I have to say your reaction will be one of rejecting me violently.

I fight a mighty strong gang of criminals and therefore I need as much help as I can possibly get. To get the truth out I have to expose untruths you believe. So now you think that I am going to inform you about another mindlessly stupid conspiracy that eventually turns out to be as unfounded as all the other untruthful and baseless conspiracy theories you encountered and you are more than ready and eager to dismiss this and discard it as another fable out to generate money. We all know conspiracy theories are feeding on fearfulness to generate money.

Alas, this conspiracy I reveal is so big and involves such a big part of civil culture that if I even give you the tiniest hint about what it is before you read the book you won't investigate the issue further because you will choose to discard these statements and article as another hoax because it is too big to be believable. Up to now the overall scale that this issue implicates is so big it is the size of it that keeps the conspiracy in place and this hugeness it involves makes what the conspiracy hides so unbelievably believable that this makes the conspiracy undetectable and beyond suspicion. With what I am about to inform you I aim to break what you believe in most and what you believe is so strong it forms the basis of knowledge you form within your mind. If sportsmen cheat by doping then these people I accuse can't cheat because their conduct is exponentially worse and dimensionally more criminal than sportsmen doping.

Past experiences taught me that when people hear about this they get angry with me being the messenger and not the complicit culprits. What you believe in as civil culture is vested in believing what this conspiracy hides so you will have a natural tendency to also preserve the conspiracy. It shatters what you think is the truth. Where others make money to conceal the conspiracy my gain is in the revealing of the conspiracy because the mistakes the conspiracy hides I have the remedy for... but to generate eagerness in investigating my work I have to reveal the mistakes but investigating any science is precisely that what those protecting the conspiracy in

science aren't willing to do because it became science to cover the conspiracy. If you help hiding what the conspiracy hides you're accepted as intellectually superior.

Believe me this is big. Think of the most outrageously big scandal and no, whatever you think of is still small by comparison. If you think in terms of the Pope that ran off with an underage prostitute then by comparison its average, not big. This one is big. It's bigger than the worst you could even imagine because it reveals the truth about what you regard as the truth and it is that belief in what you think of as the truth that supports this hoax and the belief you have in that which this conspiracy protects is more rock-fast than anything else you believe in or might trust to be the solid truth. All that I ask of you is just read the book and see what I explain in a few pages and then decide on the validity of my claims. It will take but a few minutes of your time but it will change your outlook on what to trust for your entire life. What you trust most now will prove to be not worthy of your trust.

I show you the book where this mother of all conspiracies started and then in the book **A Conspiracy in Science in Progress** I show you how that progressed into the biggest conspiracy ever! In the book I show how it started and in the book I elaborate on this conspiracy and show how it is still in progress even today, three hundred years after it started. It began in 1705 and the falsified facts swept aside all resistance... ..Then it grew into a fashion and intellectual statement that evolved into the mother of all the other conspiracies in science. All conspiracies we have in place about science serves one goal and that is to divert the investigative attention away from discovering this Mother Conspiracy so as to prevent anyone detecting the anomaly.

It is hidden so well that in three hundred years no one that isn't part of science got a sniff about what the Mother Conspiracy entails. For three hundred years no one looked! The conspiracy wittingly or otherwise involves us all including you and me. We all commit to the conspiracy and in the beginning it is unwittingly but keeping a blindfold becomes an excuse not to think about what is obvious and that becomes a norm, which preserves the conspiracy in a place as part of the education in science.

This I call brainwashing or another name is study material and learning methods. By the time that those in science discover the anomaly that science hides, they also have too many years of devoted study to lose to reveal this conspiracy because they already are equipped with an education and working in science and so to protect what they have worked for, they become part of those preserving the conspiracy. Knowing about any conspiracy doesn't help because we who constitute to form the large group of consumer fodder that is considered by the mighty, the rich and the powerful as the exposable little people that usually can't change anything, but knowing about this conspiracy will help because we all can work together to bring out the truth. If we know where to look we know how not to be tricked by the mighty.

There is a conspiracy covering a conspiracy brought about by another conspiracy to hide the previous conspiracies and so one supports the other to form a network of created illusions corrupting science. Mostly I first have to break down the illusions to reveal the hidden. I show why the corruption is in place. Those covering-up cover-up can destroy every person that attempt to break the silence but my fortune is that I am too poor to destroy and too little to break. And this makes my life so insignificant that

I could care less if any influential academic that uphold the conspiracy even read this let alone accept my views although the facts I present against them is damning and so, during the past they ignored me as if I presented the plague. I have nothing that they can take away or I might lose. My exposing of their corruption can only improve my position because that is the only way I can show how to replace all the corruption with truth.

It is simple to discover the mistakes science cover-up. I worked a lifetime to find solutions, which I have, and that I must introduce but to my shock I found everyone in science indifferent to admit that the anomaly even exists and so they ignore my work to protect theirs. To introduce my work they have to admit that the wrong is there and that they had a conspiracy. ...But they are thousands with power; I am only one and even without a voice.

I am challenging an influential "force" so big it's been all conquering and unbeatable and nobody in their midst gives me a chance to speak out or provide an ear to listen to me. Now I have to blow their cover to get them to realise the game is up and they have to come clean. In the past they can destroy governments and sideline Kings by controlling human thought. If you doubt this read the book and see the absolute unquestionable examples I show about their convictions nature discards. Yet, when nature rejects an idea science has science throws out nature.

Everybody thinks of those that I accuse of committing this mind control to hide total corruption as being all-time intellectual saints; those that form the rocks on which intellect builds its foundation. They are thought to be as white as can be and every person on earth view them as being more accurate than God Almighty in what they profess and those I implicate are thought of as the incorruptible pillars of wisdom.

The conspiracy started off in 1705 and from there it progressed while everything that didn't agree with the corruption was swept aside by a driving force masked as being intellectually most superior at the time and this cloak of intellectual godliness still carries on today. Just a few ordinary questions lay the conspiracy wide open and expose this huge but obviously missed scandals. Since the beginning everything written in science still suppresses all doubt about the accuracy it presents while you can read how a few well-aimed questions totally unmask the credibility of the facts presented as science truth. You will see es why you should feel alarmed and then if you now doubt my alarmist-sounding message, in your mind you answer the questions I pose.

If you can answer the utmost simple questions I raise in the website alone then you are the only person that are able to do so. Then I am wrong; there is no conspiracy but if you also can't answer the simple questions, then ask why are these questions never asked to those in science and why do those in science never address these very obvious questions. The questions are so simple a small child should think of asking it and yet asking those questions goes beyond the mightiest intellectuals on earth! If you see how simple the questions are that test the accuracy of science you will immediately recognise the conspiracy for what the conspiracy truly is! Every conspiracy ever linked to science is in place to protect this conspiracy from becoming publicly known.

There is this one conspiracy hiding the entire blunder that Newtonian science at all costs avoids to get publicity. It seems that I insult the most honest and celebrated dogma the world ever believed in but also I show what science is and that science insults nature. Science doesn't only divert from nature but science ignores nature. I don't only cry wolf but I also introduce **a new cosmic vision** based on how nature applies four gravity laws and how applying these laws change views drastically about how the entirety called the Universe is formed by singularity taking on every shape and space we know.

Are you up to facing the truth about what you thought is more righteous than God? Then read this and see what those in science hide to make them seem so surreal. In this book I show you a complot what the truth is about science that everyone practising in science in whatever controlling way openly in plain view conspires to hide from the public. Even in something as minor as a website I prove a conspiracy! I don't cry conspiracy because I want to show a conspiracy but I do it because it is there in plain view and moreover it is killing my life long labour trying to correct the mistakes. If science is as correct as science pretends, my work has no purpose because why change something that is perfect and the very opposite of this is true?

Where you might think that science is too difficult for you, it is that madness I show to be part of the conspiracy. Those protecting the conspiracy count on you thinking science is too difficult and by using that unfounded idea they further hide the conspiracy. The trust you put in their clever they turn on you to make you believe you are stupid and that they're unbelievably clever. See how stupid they are.

Making everyone believe science is too difficult to understand is the shield that protected this conspiracy by stopping investigations. The conspiracy intends to make everyone feel inferior because only "intellectuals" can understand science. We must think we are too stupid to understand it and that keeps the conspiracy alive. That is the main part of what hides the conspiracy and allow those to hide the truth and hiding the truth is what upholds the Mother Conspiracy. Therefore I prove that understanding science involves every soul on earth because to hide the conspiracy science claims the "ordinary people" are too stupid to understand science.

I believe that knowledge about what science is should be for everybody and not only a selected few who are hypocrites hiding the truth behind a blanket of superiority. I began the publishing to publish books for the general public aiming at those with a more general interest in science in mind so that I can interest everyone by not going technical. The books aim at a general audience who understand science. My aim is to make the corruption in science known to all parties and I include every living person showing interest. Some might understand more than others but everyone must know natural science and enjoy how the Universe forms according to nature and show why science prefer to ignore nature to use a falsified version of science.

However there are also books forming part of the series that will rattle the cage of those who think they are experts in the field and with those books I prove the most informed intellectuals wrong about science. Read on to read more about what you will dread is the truth you believe in. This is your worst nightmare in faith that is going to derail your sense of truthfulness and human intellect.

A Conspiracy in Science in Progress

I asks you not to be scared or feel threatened by the mention of astrophysics because you are going to find out those experts in astrophysics who pretend to know everything know less than what you know because what they presume they do know does not even exist in any form of reality. Astrophysics is a game they play to show off mathematical skills. However, I show how science breaks natural mathematical laws in order to make the game they play seem possible. For decades I studied and now I write about science in Physics concerning Astronomy, Cosmology and everything to do with Stars, the Universe, the Cosmos or Galactica. What I discovered was that this entire industry of the study of Astronomy cloaked under a sheet called Astrophysics is carrying a Conspiracy to hide and conceal the truth... Does this sound outrageous – does such a remark shock and fill you with disgust? I challenge you to read this book and then still think it is far-fetched. Realising this as a truth made me research science. I could never and still don't understand Newton and when you see what science hides you are going to see why. At first I searched for a method to prove Newton by finding out what I miss but instead I discovered a hornet's nest of dishonesty and cover-ups that is put in place. That is the reason why I am unable to understand Newton because I believed as much as I now am convinced that I was never too stupid to understand Newton and now I prove why I don't understand Newton. I prove Newton got a lot of things wrong and everyone since then made it his or her mission to cover-up these misconception. To stop this leak science is going to want to shoot me down as they wish to keep me quiet. Read on, wake up, get wise about what it is!

If you are not into the mathematical equations just ignore it because it is to show the wise how stupid they are. What you are about to read is the mother of all the conspiracies in science. You are going to read about how science applies a system of mind control and thought processing. Brainwashing and mind control are dramatic statements but if you know something is wrong but keep on repeating that which is wrong and force students to learn and repeat this misconception what else is that but performing brainwashing by mind control. When you deliberately force the next generation to repeat mistakes made by the previous generation without controlling the correctness of facts it translates into thought manipulation. Every conspiracy that Science ever thought up such as the Critical Density Conspiracy or the Dark Energy Conspiracy, or any conspiracy connected to science is in place to protect this theory that those teaching science hide from anyone outside physics and prevent it from becoming known. I call science criminal because to spread deceit and expect to get paid for such dubious courtesy shows the same mentality as the Mafia has with the protection racket. To racketeer by misleading and being paid is criminal behaviour and they are criminals acting as Mafiosi. Tell me where am I wrong! With the Mother Conspiracy students in physics are brainwashed by instigating and deliberately sanctioning acceptance of misinformation on students through their practising of enforcing thought control, which they forcefully unleash on students. I prove that the Mother Conspiracy is in place. I reveal the Mother Conspiracy and I show why it is in place. **Go to [A Conspiracy in Science in Progress](#) via these links**

<http://www.lulu.com/content/e-book/a-conspiracy-in-science-in-progress/8352010> Here is a broader and more

comprehensive overview to the book called: **A Conspiracy in Science in Progress**

I am **P.S.J. (Peet) Schutte** and nobody has ever heard of me in terms of something said being positive or negative about me. I am the person that wrote the book and I am poor because I am honest and I tell the truth that nobody in science wants to hear anything about.

This book reveals what Science in Physics concerning Astronomy, Cosmology hides for hundred of years. I manage to explain four cosmic keys that built the Universe namely: The Titius Bode Law; The Lagrangian Points, The Roche limit and the Coanda Effect. Science effectively ignores these laws. In **A Conspiracy in Science in Progress** you are going read about how science belittle nature to hide natural physics and hiding the truth is the flip side of the mother of all the conspiracies in science in progress, which is about how science tells nature what nature must be instead of looking and learning from nature. I'll introduce you to where and when this conspiracy started, and tell you about how the conspiracy developed.

Everything in the Universe uses these phenomena namely

- 1) The Titius Bode Law;
- 2) The Lagrangian Points,
- 3) The Roche limit and
- 4) The Coanda Effect to form the Universe we see and know but science prefers to ignore these phenomena. Even all my attempts to inform about these phenomena were lost.

Go to the Internet and look up everyone I mention and see that they are what nature uses. In science they ignore these phenomena because it disprove the mythology called Newtonian science and proves the ideology of Astronomy, Cosmology is fantasy and moreover a religiosity. Not one of these phenomena in nature brought findings that support Newton although it is what nature applies and where it couldn't justifiably give credibility in support Newtonian convictions. Nature dismisses all Newton's claims about mass and so they dismiss nature.

In order to maintain Newton's mismanagement of facts they go against nature. There is this one conspiracy hiding the entire blunder that Newtonian science avoids to get publicity at all costs. The mother conspiracy is in place to divert any and all attention from being detected. If you mistrust my statements then answer this one.

We have the sun and the comet pulling each other from the dark abyss. The sun is pulling the comet from where darkness rules.

This happens because the mass of the comet and the mass of the sun is pulling each

other $F = G \frac{M_1 M_2}{r^2}$. Let's prove Newton by using the comet as an example of

how well founded this above formula is! It started with the comet in 1705 so lets begin with the action of a comet.

Force pulling = G is outer space $\frac{\text{Mass of the sun} \times \text{Mass of the comet}}{\text{radius between the two above squared}}$

Now we get the **Mass** of the sun getting hold of the **Mass** of the comet through the **Gravitational** constant and this creates a **Force** and this **Force** reduces the **square of the radius**. In normal terms the sun is dragging the comet from where the sun don't shine by the power of the mass of the sun multiplied by the mass of the comet through the Gravitational constant which reduces the radius visibly. Newton is a prophet and his formula shows his genius and his brilliance.

This shows Newton is the biggest genius before Einstein but since no one at the time heard of Einstein yet, it makes Newton the greatest visionary that any mother gave birth to. How could humans get to that point without Newton guiding them since man's beginning? Newton had an answer about a question the world was looking for and Halley proved this by proving Newton's formulas work. Taken from <http://en.wikipedia.org/wiki/Main> and it reads "it was Newton's friend, editor and publisher, Edmond Halley, who, in his 1705 *Synopsis of the Astronomy of Comets*, used Newton's new laws to calculate the gravitational effects of Jupiter and Saturn on cometary orbits. When they discover these planets they used the Titius Bode law. They ignored Newton as they then afterwards ignored the Titius Bode law.

This calculation enabled him, after examining historical records, to determine that the orbital elements of a second comet, which had appeared in 1682, were nearly the same as those of two comets, which had appeared in 1531 (observed by Petrus Apianus) and 1607 (observed by Johannes Kepler). Halley thus concluded that all three comets were in fact the same object returning every 76 years, a period that has since been amended to every 75–76 years. ...And you still wish me believe to they were not faking the calculations Newton is said to have used in deterring the comet trajectory and

this faking has been going on since god knows when?

Now let's get back to the wonders of Newton. The comet pulls the sun and the sun pulls right back and since the comet is small and the sun is big it is the comet that is dragged

through space unceremoniously and all the way to where it is going to meet its destiny and that destiny is the sun.

For the period of 1705 this revelation was astonishing. Now the entire Universe new why a comet was coming to the sun and what drove the comet onwards. It was pure science magic because it was a FORCE! Nowadays science and only science still believe in forces because all other intellectuals moved away from magical forces but physics stick to Newton that discovered magic is alive and well and is in forces everywhere. No one had an idea why the comet was coming or why the planets were spinning or why the sun was where the sun was but then God gave the miracle to us mortals and his father named him Isaac Newton but his followers could have called him Isaac Newton the Greater-Than-What-We-Ever-Had previously.

Let's run through it again: "it was Newton's friend, editor and publisher, Edmond Halley, who, in his 1705 *Synopsis of the Astronomy of Comets*, used and successfully applied Newton's new laws to calculate the gravitational effects of Jupiter and Saturn on cometary's orbits. It is so funny that all Newtonian science ends there where Edmond Halley used his friend Isaac Newton's new laws (the pulling by mass from both ends to create a force).

Then I have taken it ever so slightly further. The sun drags the comet to a point not even close to where the sun is located. The sun drags the comet to point marked X. How did the comet know about X when gravity draws whatever gravity draws towards a centre of whatever is doing the pulling towards the centre. The sun my mass drags the comet by

mass all the way to an unsubscribe point? This is the first we notice $F \neq G \frac{M_1 M_2}{r^2}$ but

let's not be small-minded and give the man a chance. After all they are two huge British brains that are working the plot and they are both smart so lets not sell them short too quickly.

Now begins a serious issue of the comet showing much disrespect. The comet is acting very controversial and bizarre. The comet is breaking laws of no less a man than of Sir Isaac that founded the laws forming physics.

The comet is acting as if it never heard of the laws of Sir Isaac Newton and this is no way for any good behaved comet to act. Then the comet passes the sun merrily. At this point no scientist refers to comet's behaviour in terms of Newton's laws or Halley's calculations that has gone to hell or of a stupid comet that is

going rouge! Without showing any inclination of going to the sun the comet is heading back to beyond the darkness and on route to where it came from! What did Edmond Halley's calculations show that can explain the comet going back into where it is dark and from where it came to be in the light.

Keep in mind that the comet did not crash into the sun as Newton's formula suggests it

must do if mass pulls mass. The comet missed the sun by a solar country mile and passed the sun without even showing a hiccup. This Edmund Halley knew was going to happen but this is contrary to the formula of his great friend Isaac Newton. The comet did not start to circle the sun as it reduced the orbit and slowed in velocity if the mass of the sun did pull the comet from far a field. The comet did not even slow down as it passed and missed the sun but went on its merry way into wherever it came from.

These controversial indicating facts went past the attention of both Isaac Newton as well as Edmund Halley. Now why would that be if they both applied Newton's genius all

inspiring mass pull mass formula $F = G \frac{M_1 M_2}{r^2}$. Please also keep in mind that

this formula serves as the basis of all physics to this day and not once in modern science did one of the most brilliant intellectual mathematician genius question this cover-up hoax.

Okay now not to be hardball or a nutcracker let's give less thought about the comet missing its target. Let's put an eye on to the future of the comet. Let's solve a riddle about the powerful force of mass pulling forces around...

If it was mass that pulled the comet, what at this point is pushing the comet? If mass brought the comet to the sun what is taking the comet away from the sun? If this is Newton's idea how the comet got to where it went in a circle around the sun, what is getting the comet away from the sun? The comet is heading into the dark yonder.

At the point the comet misses the collision with the sun it starts its great escape into the dark yonder to return again in seventy-six years according to the brilliant calculations of the brilliant Edmund Halley. His brainwave centred on the comet coming and going. If the comet came by mass what then pushed the comet into the darkness because that

could not be on account of mass pulling mass. Newton and his vision had the comet coming and never gave a thought about the going part. However, in three hundred years nobody but me thought about this! Do you believe I am the only person in three hundred years thinking about this controversy and this mismatching of factual outcome? Can you see some sort of conspiracy to hide a conspiracy to prevent people getting near to discovering a huge conspiracy in the making?

To underline the conspiracy of presenting falsified facts the comet had to complete some sort of a circle. It did not just jerk lose when the sun was looking the other way and the comet broke free to go on the run! Yes but Halley was out to prove the comet was coming back again and then the pulling and the pushing is in contrast and not just a one time happening that saved the comet from a sure demise because according to Newton it had to collide!

When the comet was at its furthest the comet made a turn about and came back to the sun. That means the comet must be going away for thirty eight years and coming towards for thirty eight years which implies a neutral "force" forcing two directional movement and that is not indicative of a "pulling force" that uses mass in one direction, Then again Newton's formula showed no such a possibility of coming and going and this is where the fraud starts. I solve this "riddle" using nature's laws and prove what makes the comet come towards which is the same what makes the comet go away but first I had to dismiss Newton and Halley as fraud.

As I said this is the small one. This was followed by much more open deceiving and I show how the most brilliant minds they say is out there colluded, as they predicated to concoct much more elaborate and more far reaching cover-up to keep the real cover-up hidden from sight. If you're the fool that can't see there was no attempt to rethink this you're a foolish sod.

In the past I have had so many smart arses and well educated brainless minds being the clever ones who pretend to be so educated claiming they are astrophysics and

trying to explain to me how they are brainwashed in believing Newtonian bogus, now come along and be smart...tell us what pushes the comet away if it was Newton's idea of mass that pulled in the first place? They are so brainwashed, common sense does not even exist anymore.

With other books there was a line of mindless critics who wished to lesson me up with Newton telling me to be ashamed of myself in accusing such bright minds as those prominent academics are. You lot smartest of all, now tell me how does the comet escape the sun when the mass of the sun dragged the comet all the way from where it was never seen. If the "mass was able to "pull" the comet from the darkness afar then the "mass" with al the pulling force will never allow the comet to detach and break free and be able to escape back into the dark yonder. The Force of the combination of "mass" establishing this "force" of "pulling power" will never allow the comet to be able to escape. If you are unable to see this anomaly of the comet "breaking" free from the "force" of the "mass" that "pulled" it all the distance to be up close and intimate with the sun and then find a way to mysteriously become free from the pulling of the sun then stop reading! If you don't get it, you are too stupid, too brainwashed or too obstinate to become part of reality. Stay in your world of dark slumber.

How will anyone ever convince me that I am the first person since 1705 that questioned the departure of the comet in terms of its arrival process? Will anyone convince you reading this there is no conspiracy to hide and not to ask questions or to seek the truth, no matter what? This was one of the questions that convinced me there has to be truth out there and I then decided to make it my task to seek the truth. Then I found out those in science were less impressed about my devotion in finding answers and they just did not wish to know anything.

Now tell me you truly believe I am the first person since Edmund Halley wrote his article that concluded this incoherent misrepresentation of a fact and then convince me there is no conspiracy to keep quiet and not to divulge Newtonian mistakes. Do you honestly believe I am the first person to question this? Did no one think of this in three hundred years? You still wish to tell me there is not one big colluding in place where physicists don't have **A Conspiracy in Science in Progress**. I also introduce a new cosmic vision with the entirety called the Universe are formed by singularity taking on every shape and space we know.

Are you up to facing the truth about what you thought is more righteous than God? Then read this and see what those in science hide to make them seem so surreal. In this book I show you a complot that everyone practising in science in whatever controlling way openly and in plain view conspires to hide the truth about science from the public. Even in something as minor as this article I prove a conspiracy! I don't cry conspiracy because I want to show a conspiracy but I do it because it is there in plain view and moreover it is killing my life long labour trying to correct the mistakes. If Newton is as correct as science pretends, my work has no purpose because why change something that is perfect?
