I have discovered a formula for success. Success with any goal you want to achieve, in any field, whether large or small. The formula is: **intuition** + **inspiration** + **initiative** = **innovation**. I call it the **4 i's**.

Innovation can actually be the beginning or the end. You can start the process knowing you need to innovate, knowing what solution you want, but needing the steps to get there. Or you can start the process by listening to your intuition, not knowing where it is leading you and following the formula to achieve innovation as an end result. Only it's not really the end. It actually is a beginning, because once you innovate, that will lead to new projects, new inspirations and you will continue. So it is a moving, breathing process that actually never has to stop.

This book is a compilation of quotes relating to each phase of the 4i's. Some are from others, with my comments, some are mine.

This book is not meant to be read through at one or even several sittings. Ideally, read just one quote a day. Reflect on it. Apply it to yourself, even if it means changing some of the words to fit your particular situation. By the time you are finished reading all the quotes it is my wish that you will be more in tune with how to apply the 4i's in your life and therefore closer to taking steps forward towards your success.

INTUITION

Intuition

**Do you follow your intuition? Step
one: be aware of it. Step two:
don't fight it!**

**God gave women
intuition and
femininity. Used
properly, the
combination easily
jumbles the brain of
any man I've ever
met. *Farrah Fawcett***

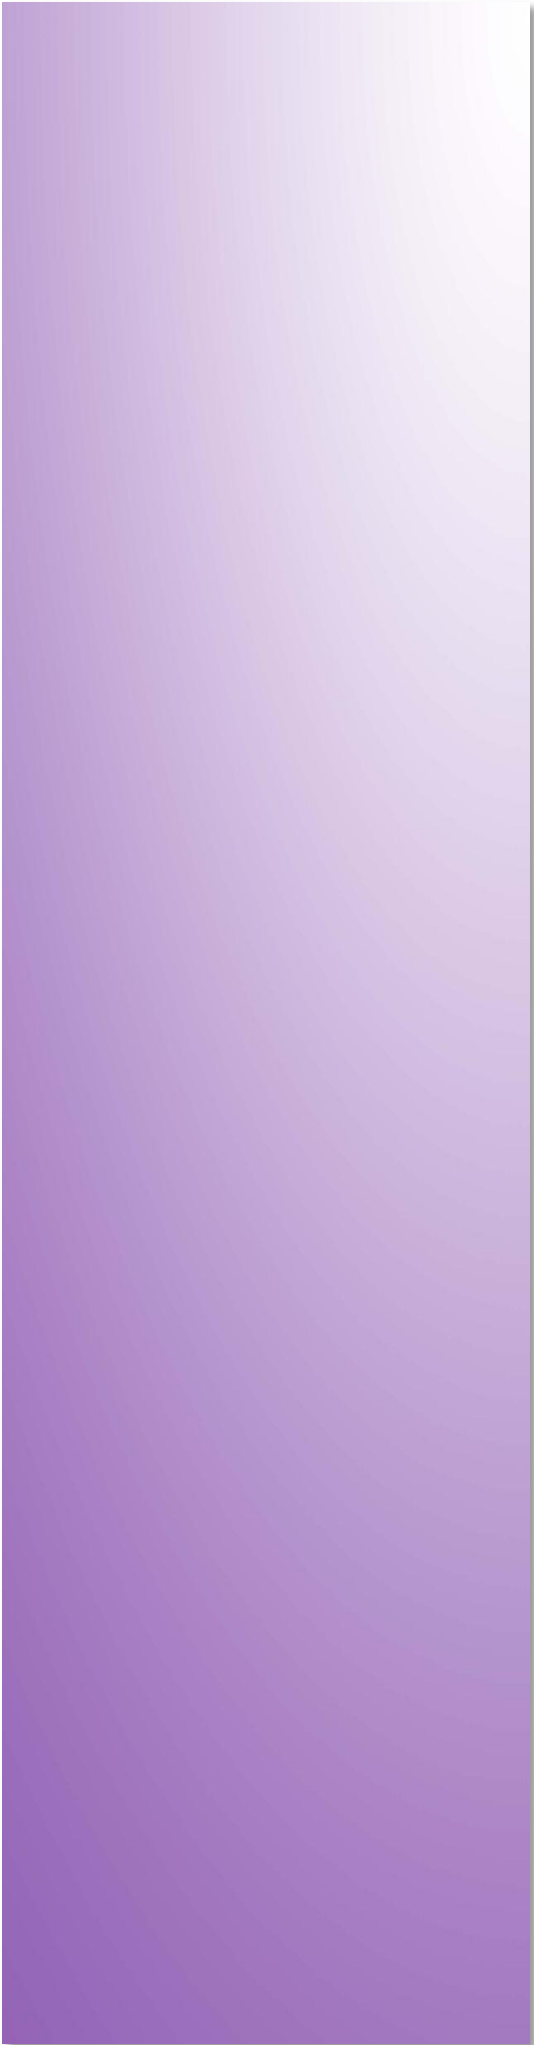

Men can also tap into
their intuition with a bit
of practice!

**Good design begins
with honesty, asks
tough questions,
comes from
collaboration and from
trusting your intuition.**

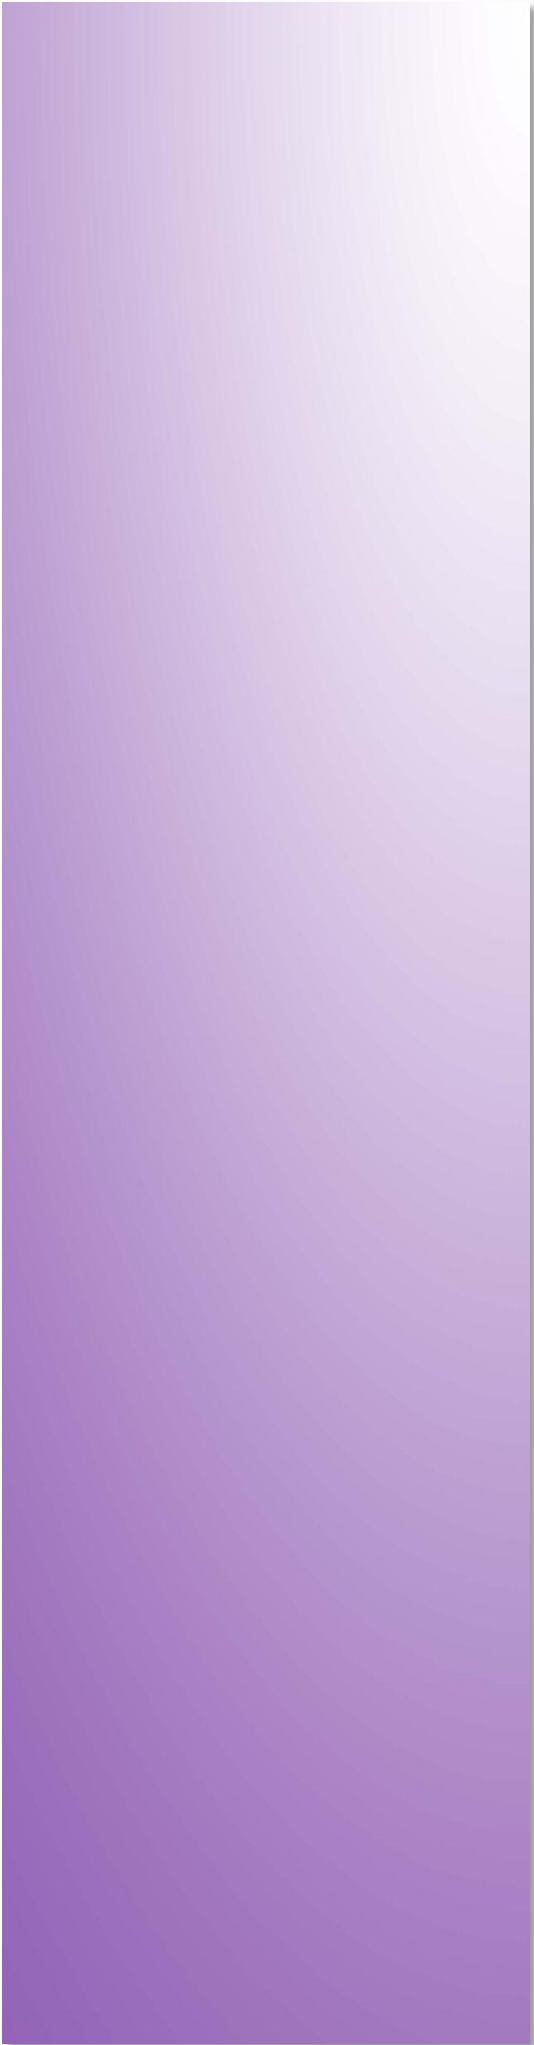

Freeman Thomas

Remember to trust your
intuition. It can take you
great places!

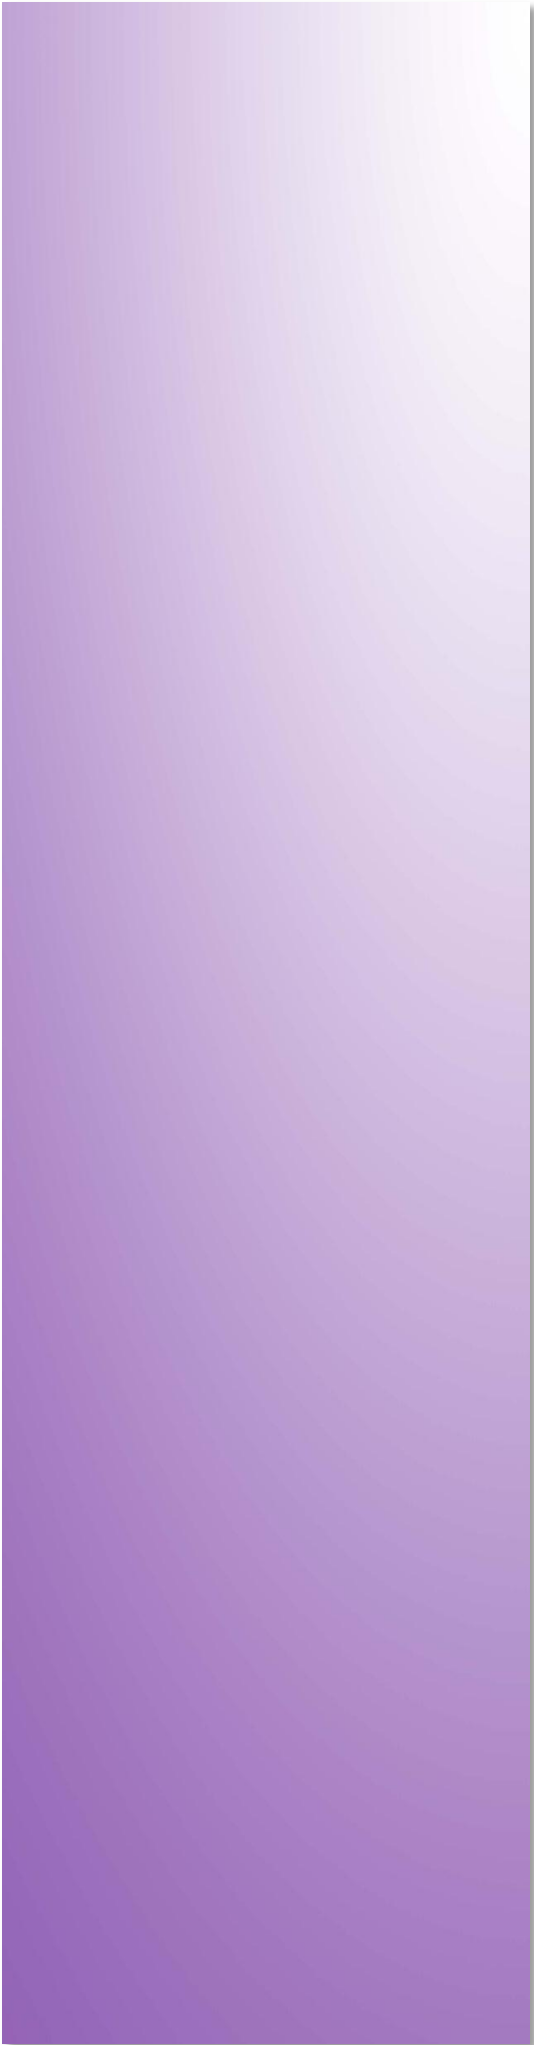

**I never took sheet
music seriously. I
could do better
myself just by
listening to other
people and using my
own intuition. *Brian
May***

With a little intuition you
can really go places!

**I allow my intuition to
lead my path. *Manuel Puig***

Life can be an adventure
this way! As Steve Jobs said:
"You can't connect the dots
looking forward; you can
only connect them looking
backwards."

**I can tell you that
when I have to decide
whether or not to go
ahead with a new
venture, I have often
found that intuition is
my best guide. *Richard
Branson***

It really pays to “check in”
before making important
decisions.

**There are 2 people
inside me - me & my
intuition. If I go against
her, she'll screw me &
if I follow her, we get
along nicely. *Kim Basinger***

When you don't listen to
your intuition you find
yourself in trouble.

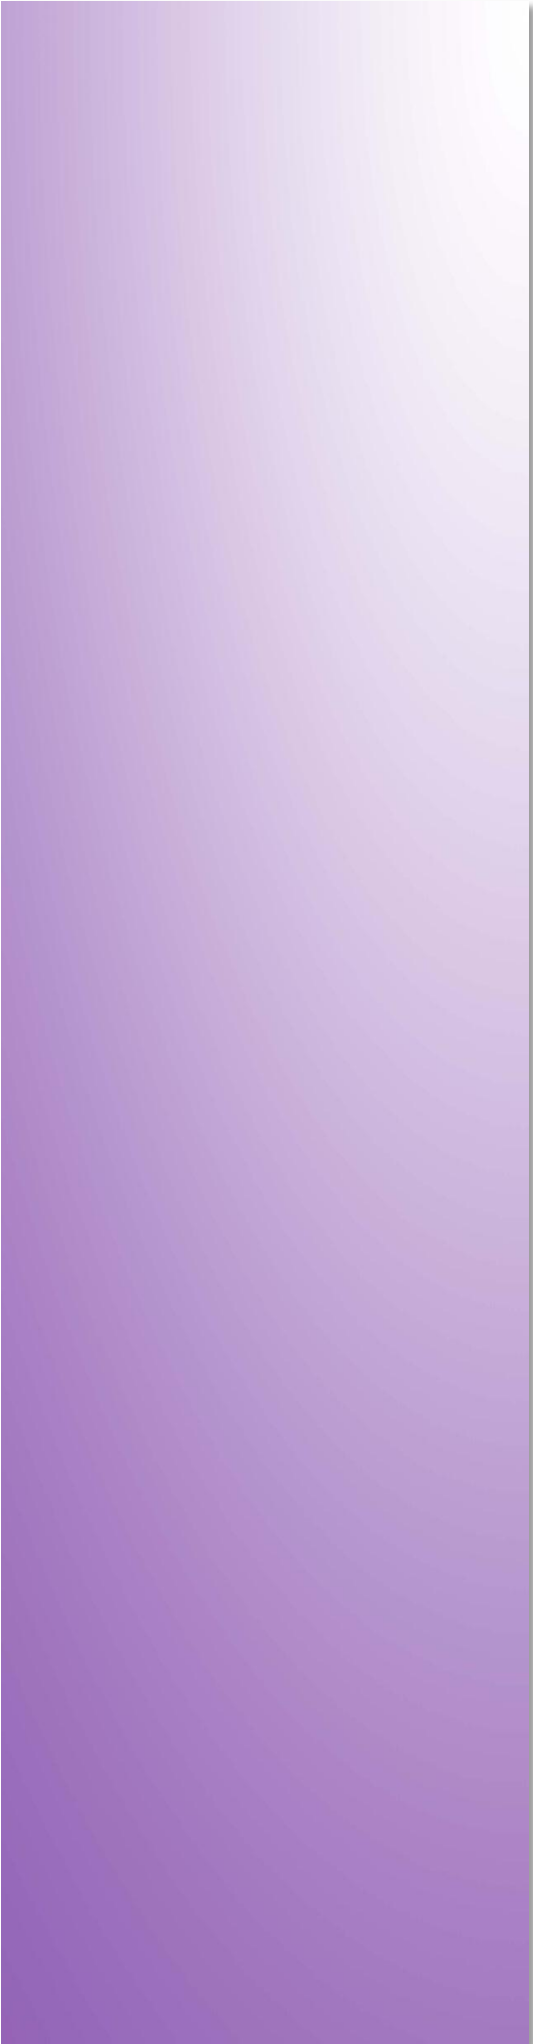

**You can use your
intuition in every
aspect of your life,
whether you are male
or female. Everyone
has it, but only some
use it. It can be
developed. Once you
are used to using it
you will wonder how
you ever managed
without it!**

Put it to the test! You
won't regret it.

**I shut my eyes in order
to see. *Paul Gauguin***

How often do you stop,
close your eyes & see with
your inner eye? Do it daily
& stay inspired!

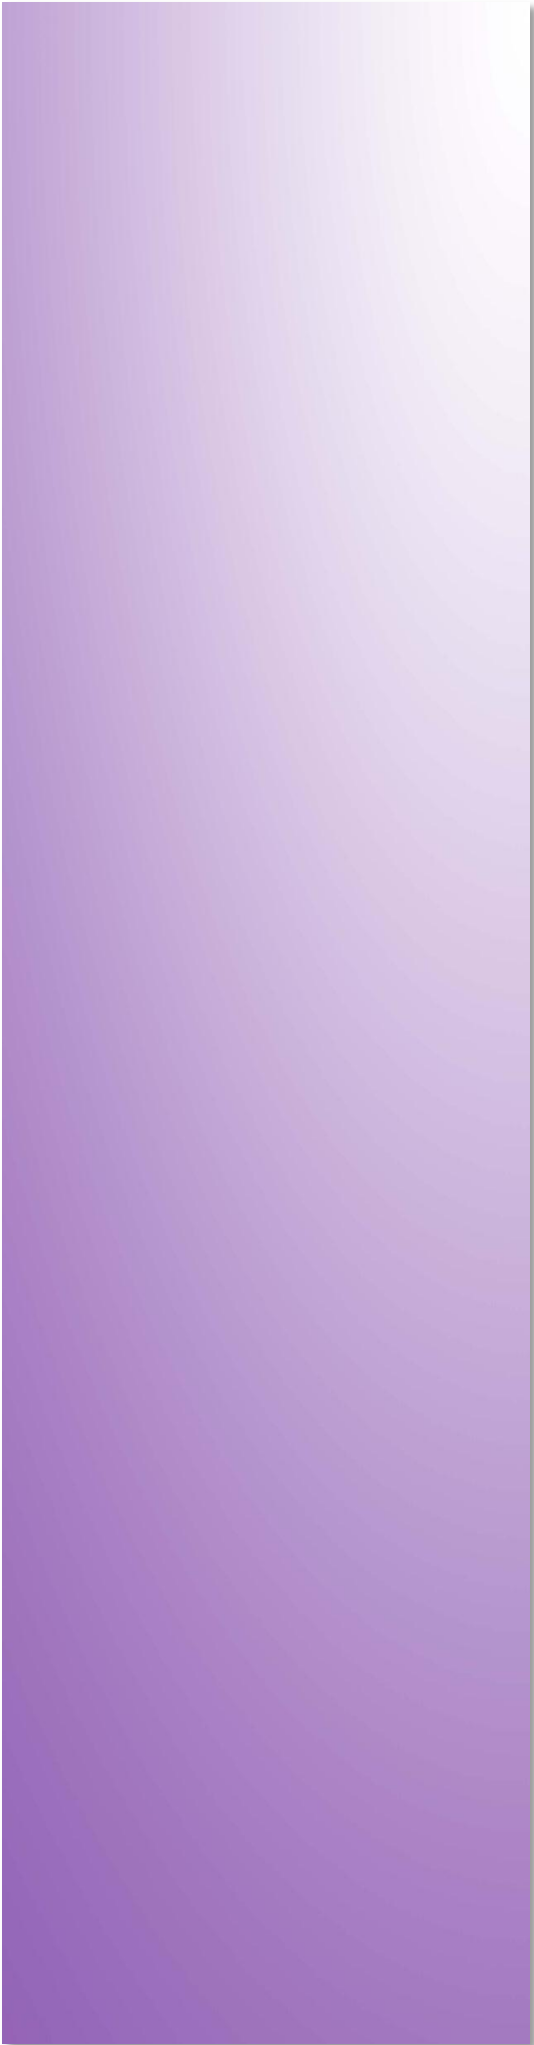

**Develop your
intuition by
accepting that you
have it, then pay
attention to your
feelings and you will
be amazed at what
will follow!**

Used with your other
skills, intuition is
unbeatable!

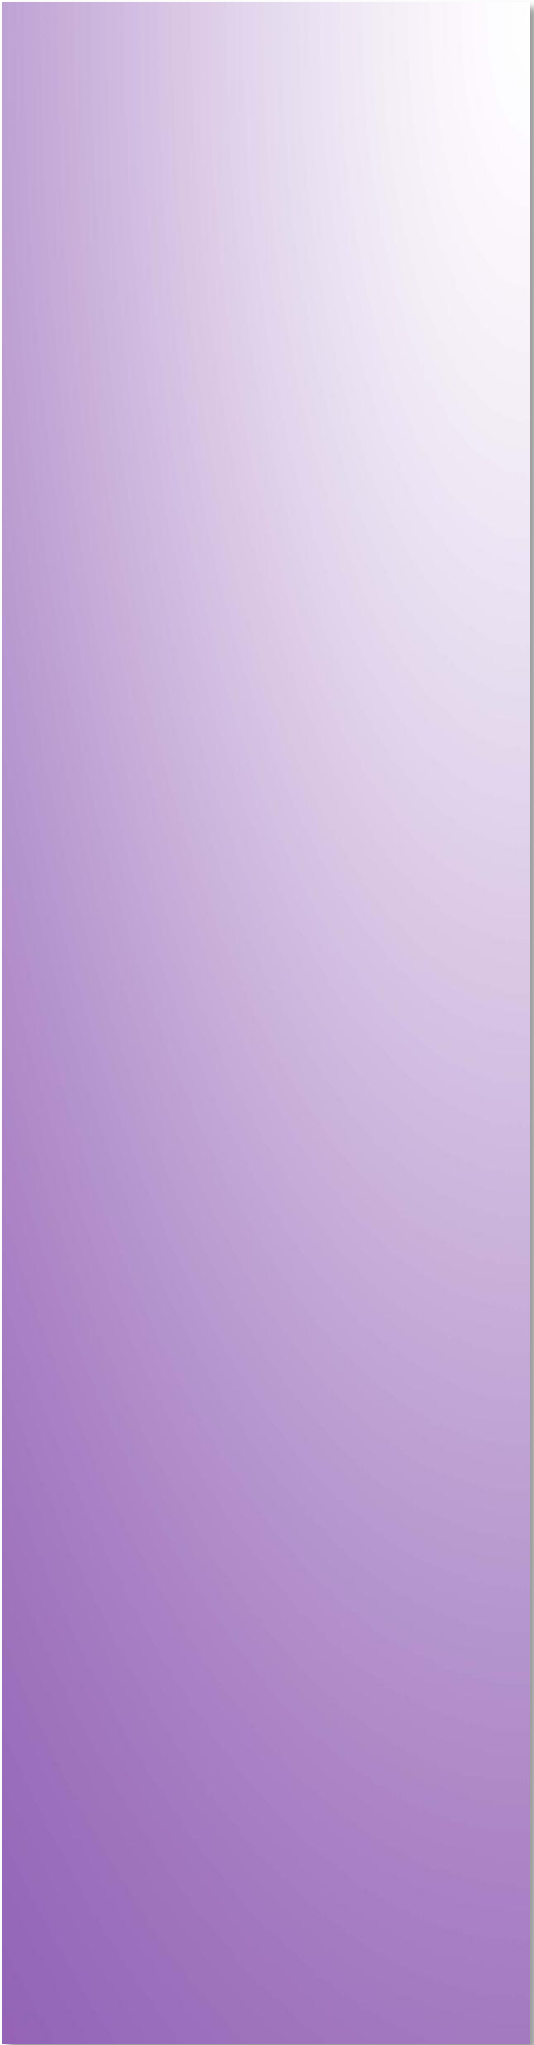

**Cease trying to work
everything out with
your minds. It will get
you nowhere. Live by
intuition and
inspiration and let your
whole life be
Revelation. *Eileen Caddy***

We need more emphasis on
using the right brain, more
creativity to solve problems.

You have to trust in something — your gut, destiny, life, karma, whatever. This approach has never let me down, and it has made all the difference in my life. *Steve Jobs*

When someone often comes up with great ideas and makes good decisions, chances are they are using their intuition whether they realize it or not.

**You cannot breathe
deeply and worry at
the same time.**

**Breathe. Let the worry
go. Breathe. Allow the
love and intuition in.**

Sonia Choquette

Your physical body affects
your mind and spirit. They
need to work in unison.
