Acknowledgment

This book about an experience I past it, the detail is not all in the book but the most important; I liked to write about it, because I had a time with something new. I learned from it a career. The career I never knew that I would be part of it .I was in another way, when came to me a chance to be in this field.

Arriving

After two years or almost two years, I came again to Cairo from America. It was a journey, and we had a lot of fun in most of the parts of it. We lived in two cities in this period.

In the first one, it was warm, and at night is cold we are there at the end of September.

It was strange to us this weather, but in a few days, we are used it.

We hoped to have better and little knowledge about the new world in America.

I went to shopping in a Mall nearby and then, we enter to a shop selling a staff of artists.

I in this moment liked it, what I have from these things to use, I never saw these things before, I had liked books of drawings sketches the frames with canvas the roles of paper.

At this moment, I had a picture in my mind about a world I never deal with.

I tried to go again, but I cannot ever; I do not know why.

We spend our time in America, until we had an accident on one Sundays

morning. The red car for a woman came to across after the light changed, then the accident we all injured, a difference scratches from one to other, I spend two months in the thereby and when I finished it, I thought that I had depressed, and I stayed at home for a long time, all the day, I am in bed.

The time after this change, I dreamed that I will leave to Cairo, and I will see my brother and will give me two trousers, currently, I did not consider leaving to Cairo yet.

Suddenly, I have my design to leave; maybe it is strange to have the same in your dream. But I think I do not have my design on the dream.

When I am in the airplane for 20 hours adding two hours waiting in NY, too many hours with a narrow chair bad food, you spool, because your stomach have a pain.

I reached Cairo the afternoon. The home was the same, and again; I saw my brother that he was in the university.

I spend all the day sleeping in the next day and all

night wakes up, because there is a change in time between Cairo and America. The days after I went to the Alexandria spends the time on beach and with friends, they were so nice, that all them, he is younger than I am; they are friends to my brother in fact.

The beach is full of things of the sea, and dirty to swim, we cannot swim; however, we spend our time on beach, and on the warm sands, the view is so beautiful, and the house had the great views on it, the sun was warm; however, we did all we need in it, washing clothes ... It

is nice in the nights, that we spend the night out to have the fun with each other. Have tea on the tables; watching the swimming pool, listen to the music, the lights was great.

I liked the riding trains and buses with the long trips between the cities.

The traveling is a nice for me because I like to see the running of views from the window of the train or bus.

The running views from the bus were nice in the desert too. From Cairo to Alexandria, I went by bus many times.

My home in Cairo

I live in my house in a small long street in shoubra, My Street with two churches full of trees and my flat in the third floor, the street ended by an institute of blinds. I never see or once I saw one blind man. The name of the street is faces, the first floor; for the son of the owner and his wife, and their two children, girl and sun. The floor we are in was one apartment, it was small, and the light of the sun was enough. The place is contained of two rooms and hall. This place we went from it to America, and I returned.

I learned all my Educations in a school not far from the house, the school all of us had their education in there. My best friend from the school, she lived in the same street of me. Her sister was a friend to my sister. We graduate from the school to different colleges. I went to faculty of commerce; I spend six years in the faculty, because I failed for two years. I worked as secretary in an office.

I traveled to America after it for almost two years. Then the accident there, and returned to Cairo.

Money

I spend the time in traveling all the time from city to another from Cairo to other cities in Egypt, since I arrived from America in late July, until the winter in November, the traveling with no cost to the church, to reach people. We did it by theater and plays; it was in churches of Cairo too.

In the plays, there was a good teaching and fun in acting, all the thoughts about god.

We now at home, the weather was almost cool, but I liked it. I waited for my money from the accident insurance to come, but I

did not know when I would have it. At the start of December, I had a call from my brothers; who told me there was money in the bank in Cairo the amount of mine from the insurance. It was 11 thousand dollar at this time; it was 34 in Egyptian pounds.

My brother gave me money until I received mine, then after I had mine I returned what he gave me to him.

I was happy that I had my money, but I did not know for what I can use it, in America maybe I use it in education or in some needs push me up in there, But here in Cairo. I put it in the

bank and receive some
money interest every
month.

Year at home

I stay at home did not do anything special, but I was reading or stitching, did things not important, I made incomplete and nice pictures, with threads on canvass, many of them I finished. I leave it after my neighbor told me, that it was not fashionable. However, there was nothing to do, I did not search for a job or some to do, Must to me in this

time completes my high education.

I bought many things, in this time, book's needlework, staff, magazines, all things I want to have, went to the places to have the fun, and saw shops. The time is nothing, all I did was nothing, I bought only a computer, it was the most important thing I purchased, by the money, and I had a new lamp in my room.

In this time, I know that my sister and brother in America had a new Apartment and moved to it.

The calls stopped among us for three years after this time.
