## Little bit about Autocad

Autocad developed by Autodesk company in 1982 year. Autocad intended for technical design works in different sectors. Autocad leader between CAD software. Although AutoCAD has several versions for different sectors, it can be used for all types of works, from Architecture to engineering and design.

## How to download and install Autocad Student version?

So let's begin. I will show you step by step how you can easily and free download and install a free Student version of Autocad. So you can ask why free and is that legal? Yes, that is the real legal free license of Autocad. Autodesk company offer free student version for education. In student version no any functionality limitation from the standard version. Except student version can be used only for education and no any commercial use.

Free student version you can download from [Autodesk](https://www.autodesk.com) website.

1. Go to Autodesk.com website and click on Menu on the right corner.

2. Select from menu **Free Student software**.

3. You will see list of software that you can download. Choose from list Autocad.

DONE

After clicking on **Done** button you will be redirected to another page. Where you must enter name of educational institute, area of study and education time.

## Just one more step

Tell us about your educational institution and how you plan to use your free software.

Enter any educational institute in your city or country. If you will get error **Please select your educational institution** Then click on **I Can't find my educational institution**.

## Just one more step

Tell us about your educational institution and how you plan to use your free software.

You will get another form. Enter any education institute name in your city and fulfill all another field.

## Add educational institution

After that click button **Add**.

You will return back and now you can click on button **Next**.

You will get new message

## Your education account is all set

Click on **Done** button and agree with **Term of Service** on the next page and click on **Continue** button. You will get Email from Autodesk. Don't delete that email because it contains important information for the installation process.

Congratulation we are already done. Now we can download AutoCAD for free.

After clicking on Continue button you will redirect to AutoCAD download page or you can [click here](#) to go to AutoCAD download page.

Now you need to choose Autocad Version, Operation system, and language.

INSTALL NOW

Autocad installer will download to your computer. Installer size is very small. Just click on it and open.

The screenshot shows the Autodesk Account Management interface. On the left, there are navigation options like 'PRODUCTS & SERVICES', 'Product Updates', and 'QUICK LINKS'. The main area displays 'All Products & Services' with a list of items including '360 Mobile free', 'A360 student', 'AutoCAD 2 seats student single-user', 'AutoCAD 360 Pro for Subscription student', 'AutoCAD® 360 free', 'Bridge Design for InfraWorks 360 student', and 'CFD - cloud service entitlement student'. A red arrow points to the 'AutoCAD\_2017\_Engli...e...' file in the download list at the bottom. An 'AUTODESK' dialog box is open, showing 'Your file is downloading' and a file explorer window with 'AutoCAD\_2016...exe' selected. The dialog also includes options like 'Open', 'Always open files of this type', 'Show in folder', and 'Cancel', along with a 'Retry' button for the download.

Downloading will begin. For the first installer will download special components that need install.

You need to wait until all files will download. It can take a time to download. Time will be based on your internet connection speed.

After first download will finish you will see a window like below. Here you can see installation window. You can directly install AutoCAD or install additional tools. Probably you will never need additional tools and utilities that why click on **Install** button.

Next, you will see a window where you can choose what you want to install and where you want. You can only install Autocad or you can install with Autodesk Recap 360 and A360 desktop.

After you decided what you want just click on **Install** button. Software downloading will begin. The download can take a long time because whole software size is about 5 GB.

After download and install you will see notification window. Click on **Finish** button to end installation. Now we have installed Autocad.

The last thing we need to do is register our Autocad. To do that open your new installed Autocad. If you have already installed old version of Autocad you will see **Migration Window**. This feature is new and only available in Autocad 2017.

Select configurations that you want migrate and click on **Check** button.

After you will see another notification window and from offered options click on first option **Always reassociate DWG files with AUTOCAD (Recommended)**

Now our Autocad will open and now we need to register the software. To do that click on **Enter Serial Number**.

At next window just click on **Agree** to agree with **Autocad Privacy Statement**.

In the next window we can just run Autocad or Activate it. We can run and use it for 30 days from today. But after 30 days left we will need register Autocad. That is why let's click on **Activate** button and register our Autocad

In the next window we need to enter **Serial number** and **Product key** that we get from Autodesk by email. If you haven't serial number you need register at Autodesk website.

SAVE AND PRINT THIS EMAIL. IT IS YOUR RECORD OF LICENSING RIGHTS TO USE YOUR AUTODESK SOFTWARE.

Dear Murad Gulaliyev,

Licensee's product license information:

<b>Product:</b>	AutoCAD 2017
<b>License Type:</b>	Education Stand-alone
<b>Access Type:</b>	Single-user
